The Tiny Bee That Hovers at the Center of the World David Searcy,2021-07-20 An ethereal meditation on longing, loss, and time, sweeping from the highways of Texas to the canals of Mars—by the acclaimed essayist and author of Shame and Wonder David Searcy's writing is enchanting and peculiar, obsessed with plumbing the mysteries and wonders of our everyday world, the beauty and cruelty of time, and nothing less than what he calls “the whole idea of meaning.” In The Tiny Bee That Hovers at the Center of the World, he leads the reader across the landscapes of his extraordinary mind, moving from the decaying architectural wonder that is the town of Arcosanti, Arizona, to driving the vast, open Texas highway in his much-abused college VW Beetle, to the mysterious, canal-riddled Martian landscape that famed astronomer Percival Lowell first set eyes on, via his telescope, in 1894. Searcy does not come at his ideas directly, but rather digresses and meditates and analyzes until some essential truth has been illuminated—and it is in that journey that the beauty is found.

My hard-working sisters, the likable mouse, the playful butterfly and the lively magpies will accompany us in this exciting journey. If you are under the impression we will be avoiding the mole's underground tunnels, you are mistaken. No animal will be forgotten, my dear friends, no matter the size. We will be acquainted with all of them! Join me and let's start our journey! Your friend, Tiny Bee P.S. Rise and Shine Rodica Licsari,2015-11-28 Dear all, as you well know, early this spring, when the snow had not yet melted and the snowdrop didn't yet dare to come out from under its warm blanket, we all went exploring the amazing world of plants and animals in the book Rise and Shine: Tiny Bee's Adventure. In the warm, sweet spring days we became friends with a great deal of animals, we were moved by the hungry mouse's story, we watched in awe the butterfly's graceful flight and we fearlessly entered the mole's narrow tunnels. In the hope that you've all enjoyed these adventures as much as I did, I invite you to accompany me throughout the hot, long summer days in the sequel Rise and Shine: Tiny Bee's Diary. We'll discover that animals live a life very similar to ours. They too first build a nest or dig a tunnel, after which they form a family, raise babies, teach them to fend for themselves and protect themselves, until one day they are able and strong enough to stand on their own. Come with me and let's start a new adventure! Your dearest friend, Tiny Bee
