China Debates the Future Security Environment Michael Pillsbury,2000 This study offers over 600 selected quotations from the writings of over 200 Chinese authors published from 1994 to 1999. Analysis and interpretation are kept to a minimum so that the Chinese may speak for themselves. Many Chinese scholars assisted with this study by providing hard-to-get books and articles unfamiliar to most Westerners. Half the authors were interviewed in China. They explained some of the viewpoints in recent debates about the future security environment. Debates in China are generally concealed, and frequently authors pretend they do not exist. However muted they may be, China's debates about the future nevertheless exist and merit attention if we are to understand the premises of China's national strategy and set a baseline from which to measure any future change in these premises.

Writers and Politics in Germany, 1945-2008 K. Stuart Parkes,2009 A comprehensive survey of German literary writers' political writing and involvement since 1945.

The Failure of Laissez Faire Capitalism and Economic Dissolution of the West Paul Craig Roberts, This very readable book by a distinguished economist, Wall Street Journal editor, and Assistant Secretary of the US Treasury is a major challenge both to economic theory and to media explanations of the ongoing 21st century economic crisis. The one percent have pulled off an economic and political revolution. By offshoring manufacturing and professional service jobs, US corporations destroyed the growth of consumer income, the basis of the US economy, leaving the bulk of the population mired in debt. Deregulation was used to concentrate income and wealth in fewer hands and financial firms in corporations "too big to fail," removing financial corporations from market discipline and forcing taxpayers in the US and Europe to cover bankster losses. Environmental destruction has accelerated as economists refuse to count the exhaustion of nature's resources as a cost and as corporations impose the cost of their activities on the environment and on third parties who do not share in the profits. This is the book to read for those who want to understand the mistakes that are bringing the West to its knees.

Women's Land Rights & Privatization in Eastern Africa Birgit Englert,Elizabeth Daley,2008 Are women's fragile land rights in Africa being eroded in a period of privatisation and land reforms sponsored by the World Bank? Changing global employment and trade patterns and the HIV/AIDS epidemic has affected women in particular. A complexity is that women's and men's interests within households are both joint and separate, yet many land reform programmes are based on the notion of a unitary household in which resources benefit the whole family. Today new land market opportunities also tend to put women at a disadvantage, just as they were under colonialism. Women's secondary rights to land are being extinguished. The detailed, local level research in this volume not only challenges the status quo, but demonstrates that another world is possible and documents the many ways women in Eastern Africa are finding to ensure their rights to land.

Central Documents and Politburo Politics in China Kenneth Lieberthal,James Tong,Sai-cheung Yeung,1978-01-01 Virtually every analysis of Chinese politics views the Politburo as the nerve center of the system, but questions abound as to how this center governs itself and how it interacts with the system around it. Specifically, how much consultation occurs during the drafting of major Politburo documents, and who is brought into this process? How is information channeled up to this body, and what are the rules that govern the access of the Politburo members themselves to data generated by the bureaucracies? How are the political strategies of individual leaders and political factions attuned to this system of information channeling? What types of decisions are reached by the Politburo? To whom are they communicated? How rigidly must they be followed? How institutionalized is this entire decision making system, and has it become more—or less—institutionalized over the years? How has the factional legacy of the Cultural Revolution affected its mode of operations? Indeed, in the wake of the Cultural Revolution, how much in control of the system has the Politburo itself been? Central Documents in Politburo Politics in China seeks to better understand these questions by analyzing a particular stream of largely bureaucratic communications in the Chinese system: the so-called "Central Documents" (CDs). This is a series of documents through which the top Party leadership directly communicates with the rest of the political system. [1]

Warhol-isms Andy Warhol,2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on art and popular culture. Select quotations from the book: I think an artist is anybody who does something well.I went to [a psychiatrist] once, and he never called me back.They always say that time changes things, but you actually have to change them yourself.I've never met a person I couldn't call a beauty.New things are always better than old things.I'm still a commercial artist. I was always a commercial artist.

The Scourge of Demons Jeffrey Rodgers Watt,2009 In 1636, residents at the convent of Santa Chiara in Carpi in northern Italy were struck by an extraordinary illness that provoked bizarre behavior. Eventually numbering fourteen, the afflicted nuns were subject to screaming fits, throwing themselves on the floor, and falling abruptly into a deep sleep. When medical experts' cures proved ineffective, exorcists ministered to the women and concluded that they were possessed by demons and the victims of witchcraft. Catering to women from elite families, the nunnery suffered much turmoil for three years and, remarkably, three of the victims died from their ills. A maverick nun and a former confessor were widely suspected to be

responsible, through witchcraft, for these woes. Based primarily on the exhaustive investigation by the Inquisition of Modena, *The Scourge of Demons* examines this fascinating case in its historical context. The travails of Santa Chiara occurred at a time when Europe witnessed peaks in both witch-hunting and in the numbers of people reputedly possessed by demons. Female religious figures appeared particularly prone to demonic attacks, and Counter-Reformation Church authorities were especially interested in imposing stricter discipline on convents. Watt carefully considers how the nuns of Santa Chiara understood and experienced alleged possession and witchcraft, concluding that Santa Chiara's diabolical troubles and their denouement - involving the actions of nuns, confessors, inquisitorial authorities, and exorcists -- were profoundly shaped by the unique confluence of religious, cultural, judicial, and intellectual trends that flourished in the 1630s. Jeffrey R. Watt is professor of history at the University of Mississippi.

Lord Berners Peter Dickinson,2008 Lord Berners was one of the most colourful and flamboyant personalities of his day. This title offers a new documentary approach - interviews with leading figures and contemporaries who knew him and his work, set into context and complimented with much further information.

Fences and Windows Naomi Klein,2010-08-27 *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate* brings together two years of Naomi Klein's writings and tracks the globalization conflict from Seattle to September 11th and beyond. Since the publication of *No Logo*, Naomi Klein has continued tirelessly as a brilliant and informed contributor to contemporary debate. *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate*, intended as a companion to *No Logo*, includes her most notable essays, speeches and articles on issues from NAFTA to Genetically Modified Organisms to the violence in Genoa. It offers introduction and explanation, looking at where the movement has come from and where it is going. More than any other single voice, Naomi Klein articulates the concerns and complaints of a generation: about economic fundamentalism, the criminalization of dissent and the effects of Free Trade. But this book also reflects on the nature of resistance: the street protests that shocked and energized millions, carnival-style subversion and the apparent disorganization that is anti-globalization's great strength. *Fences and Windows: Dispatches from the Front Lines of the Globalization Debate* is provocative, intelligent and passionate, a document, in its own right, of a unique time in our history.

Must reading for every executive of every Western firm doing business in China. Readers will be impressed by China's ambitions in space, information warfare, stealth, and robots, in future warfare. Doak Barnett,2019-07-23 Considers the politics of central decision-making by focusing on senior policy makers and implementing bureaucracies on the one hand, and actors in economic and non-economic arenas on the other. The contributors held significant party and government positions in China up to 1989.
