Organize This! Practical Tips, Green Ideas, and Ruminations About Your CRAP Vali G. Heist, 2012-04-24 Vali G. Heist began organizing at the age of five while cleaning up her room with her older sister. She started her professional organizing business after years of being asked to organize the homes of her family and friends. *Organize This! Practical Tips, Green Ideas, and Ruminations about your CRAP* began as a collection of the organizing columns she wrote for a local newspaper. CRAP is Vali's acronym that means Clutter that Robs Anyone of Pleasure. The book includes numerous tips on how to organize, green ways to recycle unwanted CRAP, success stories from clients, and further ruminations about CRAP. Vali helps her readers explore why they have so much CRAP in their homes, why they don't throw it out, and why they don't want to deal with it. She helps the reader answer those questions and provides practical, easy tips to organize their homes

and help them live the life they really want. In addition, her book is chock-full of organizing resources, is fun to read, and makes a great gift for the organized person as well as the organizationally-challenged. Vali's insight helps readers learn the difference between belongings and CRAP and empowers them to discover that less is more. Her book also proposes how to live a more 'green' life and help save the planet in the process. Her passion is to find simple, easy to implement ways to organize life at home and at work and pass them on to her readers. Bob Rios, of Bob Rios Visual Strategies, created unique cartoons for the book to illustrate the dilemmas many readers face as they organize and unclutter their lives. Bob is a graphic designer, website developer and of course a talented illustrator, who lives in Lebanon, Pennsylvania with his wife and five children. Bob uses his creativity and design expertise to further the business goals of his clients. Through consultation and conversation, he gathers content, colors, type, illustrations, and shapes to capture and convey a company's message. You'll find his self-portrait on page 99 of the book! Donna Smallin, Certified Professional Organizer and author of *Organizing Plain & Simple* and several other books on organization describes Vali's book as "Simultaneously witty and practical, *Organize This!* is the intelligent person's guide to a simpler, more organized life." Look for Donna's latest eBook entitled *How to Declutter and Make Money Now!* by Donna Smallin Kuper. Chris Crouch is president and founder of DME Training and Consulting, author of several books on improving productivity and developer of the GO System training course. He describes Vali's book: "Stuff, or as Vali calls it, CRAP, can and will easily find its way into your life. The challenge is to limit the inflow and purge the unnecessary items that somehow remain stuck in your environment. Vali's insightful book will help you accomplish those two life-changing goals." Chris continues to research and study both the mental and physical aspects of living a more joyful and productive life and pass them on to his

readers. Debbie Lillard, Certified Professional Organizer and author of *Absolutely Organize Your Family* and *Absolutely Organized: A Mom's Guide* describes Vali's book: "Vali writes with an environmentally responsible attitude towards ridding the world of CRAP. She understands the causes of disorganization, leaves judgment at the doorstep, and jumps right in to tackle the problems. Her resources are valuable - this is a book you'll want to recycle and reuse again and again." Debbie owns an organizing business in Broomall, Pennsylvania and shares her expert advice on various media channels. Vali wants readers to know that the goal of organizing isn't to have a perfect, 'Better Homes and Garden' house (hers isn't!), but rather to provide order to enjoy the space you have, handle the tough times with grace, and aspire to live the best life possible!

Audio Recorders to Zucchini Seeds Mark Robison,Lindley Shedd,2017-05-30 This exploration of the range of options for a library of things collection demonstrates what has been implemented successfully and offers practical insights regarding these nontraditional projects, from the development of concepts to the everyday realities of maintaining these collections. What services libraries provide and how they function in their communities is constantly being reconsidered and redefined. One example of this is the trend of experimenting with building circulating collections of nonliterary things—such as tools, seeds, cooking equipment, bicycles, household machinery, and educational materials—by drawing on traditional library functions and strengths of acquisition, organization, and circulation. Audio Recorders to Zucchini Seeds: Building a Library of Things enables you to consider the feasibility of creating a specific type of thing collection in your library and get practical advice about the processes necessary to successfully launch and maintain it, from planning and funding to circulation, promotion, and upkeep. This contributed volume provides a survey of library of things projects within the United States, from both public and academic libraries, offering real-world lessons learned from these early experiments with nontraditional collections. The authors offer practical insights from their projects, from the development of their initial ideas to the everyday realities of maintaining and circulating these collections, including cataloging, space needs, safety concerns, staff training, circulation, marketing, and assessment. The

contributed chapters are organized thematically, covering things collections that encompass a wide variety of objects first, followed by collections with a community-building focus (seeds, recreation, tools) and those that serve an educational purpose, such as curriculum centers, children's toys, or collections that support a university curriculum. The last section addresses collections that support media production.

Women & Money Suze Orman, 2007-02-27 Why is it that women, who are so competent in all other areas of their lives, cannot find the same competence when it comes to matters of money? Suze Orman investigates the complicated, dysfunctional relationship women have with money in this groundbreaking book. With her signature mix of insight, compassion, and soul-deep recognition, she equips women with the financial knowledge and emotional awareness to overcome the blocks that have kept them from making more out of the money they make. At the center of the book is The Save Yourself Plan—a streamlined, five-month program that delivers genuine long-term financial security.

But what's at stake is far bigger than money itself: It's about every woman's sense of who she is and what she deserves, and why it all begins with the decision to save yourself.
