Algebra and Coalgebra in Computer Science Andrea Corradini, Bartek

Klin, Corina Cîrstea, 2011-08-19 This book constitutes the refereed proceedings of the 4th International Conference on Algebra and Coalgebra in Computer Science, CALCO 2011, held in Winchester, UK, in August/September 2011. The 21 full papers presented together with 4 invited talks were carefully reviewed and selected from 41 submissions. The papers report results of theoretical work on the mathematics of algebras and coalgebras, the way these results can support methods and techniques for software development, as well as experience with the transfer of the resulting technologies into industrial practice. They cover topics in the fields of abstract models and logics, specialized models and calculi, algebraic and coalgebraic semantics, and system specification and verification. The book also includes 6 papers from the CALCO-tools Workshop, colocated with CALCO 2011 and dedicated to tools based on algebraic and/or coalgebraic principles.

**Industrial Organization** Don E. Waldman, Elizabeth J. Jensen, 2019-03-04

Industrial Organization: Theory and Practice blends a rigorous theoretical introduction to industrial organization with empirical data, real-world applications and case studies. The book also supports students with a range of problems and exercises, and definitions of key terms and concepts. This balanced approach, which enables students to apply theoretical tools, has earned this book its ranking as one of the leading undergraduate texts in its field. For the fifth edition, relevant data, tables, empirical examples and case studies have been updated to reflect current trends and topics, in the most complete reorganization since the second edition. Further changes include: all public policy topics have been placed in the last section, making it simpler to use for courses that emphasize theory or public policy; an entirely new chapter on international trade and industrial organization; a new chapter on mergers; a separate section on antitrust; a companion website with PowerPoint slides and other supplements. This comprehensive book bridges the gap between economic theory and real-world case studies in an accessible, logical manner, making it the ideal undergraduate text for courses on industrial organization.

**Economics and Human Welfare** Michael J. Boskin, 2014-05-10 Economic Theory,

Econometrics, and Mathematical Economics: Economics and Human Welfare: Essays in Honor of Tibor Scitovsky focuses on the principles, influence, and contributions of Tibor Scitovsky on economics. The selection first elaborates on welfare economics and microeconomic theory, property rights doctrine and demand revelation under incomplete information, and experiments in the pricing of theater tickets. Discussions focus on the effect on audience composition, volume, and revenues, failure of bargaining under privacy, growing disenchantment with economic growth, and bargaining as a game of incomplete information. The text then takes a look at economics and the transformation of the idea of progress and changes in the size distribution of income. The text ponders on welfare criteria, distribution, and cost-benefit analysis; position of ethics in the theory of production; and rationing and price as methods of restricting demand for specific products. Topics include excise taxation with revenue distributed like rations; private and social returns to morality; effect of changes in the cost of organization and communication; and logical and historical foundation of the theory of the welfare state. The selection is highly recommended for economists and researchers interested in pursuing studies on the relationship of economics and human welfare.

**Opera, Jazz, Dance, Film, and Summer Festivals in America**, 2014-03-17

Timesong is the inspirational story of a three-legged coyote named j.b. who befriends Tom, an autistic boy. Following his father's death, Tom retreats

into a shell of isolation. j.b. counters Tom's despair with an uplifting explanation of immortality. For those trying to reconcile the loss of a loved one, Timesong may be the key that opens the door to acceptance and peace of mind.

**American Buffalo** David Mamet, 2014-07-22 American Buffalo, which won both the Drama Critics Circle Award for the best American play and the Obie Award, is considered a classic of the American theater. Newsweek acclaimed Mamet as the "hot young American playwright . . . someone to watch." The New York Times exclaimed in admiration: "The man can write!" Other critics called the play "a sizzler," "super," and "dynamite." Now from Gregory Mosher, the producer of the original stage production, comes a stunning screen adaptation, directed by Michael Corrente and starring Dustin Hoffman, Dennis Franz, and Sean Nelson. A classic tragedy, American Buffalo is the story of three men struggling in the pursuit of their distorted vision of the American Dream. By turns touching and cynical, poignant and violent, American Buffalo is a piercing story of how people can be corrupted into betraying their ideals and those they love.

**Drop Dead** Hillary Miller, 2016-10-15 Winner, 2017 American Theater and Drama Society John W. Frick Book Award Winner, 2017 ASTR Barnard Hewitt Award for Outstanding Research in Theater History Hillary Miller's *Drop Dead: Performance in Crisis, 1970s* New York offers a fascinating and comprehensive exploration of how the city's financial crisis shaped theater and performance practices in this turbulent decade and beyond. New York City's performing arts community suffered greatly from a severe reduction in grants in the mid-1970s. A scholar and playwright, Miller skillfully synthesizes economics, urban planning, tourism, and immigration to create a map of the interconnected urban landscape and to contextualize the struggle for resources. She reviews how numerous theater professionals, including Ellen Stewart of La MaMa E.T.C. and Julie Bovasso, Vinnette Carroll, and Joseph Papp of The Public Theater, developed innovative responses to survive the crisis. Combining theater history and close readings of productions, each of Miller's chapters is a case study focusing on a company, a production, or an element of New York's theater infrastructure. Her expansive survey visits Broadway, Off-, Off-Off-, Coney Island, the Brooklyn Academy of Music, community theater, and other locations to bring into focus the large-scale changes wrought by the financial realignments of the day. Nuanced, multifaceted, and engaging, Miller's lively account of the financial crisis and resulting transformation of the performing arts community offers an essential chronicle of the decade and demonstrates its importance in understanding our present moment.
