**Proceedings of the National Communications Forum** ,1973

**Proceedings of the Seventh International Forum on Decision Sciences** Xiang Li, Xiaofeng Xu, 2020-09-17 These proceedings focus on selected aspects of the current and upcoming trends in transportation, logistics, supply chain management, and decision sciences. In detail the included scientific papers analyze the problem of Decision Making under Uncertainty, Stochastic Optimization, Transportation, Logistics and Intelligent Business. The variety of the papers delivers added value for both scholars and practitioners. This book is the documentation of the symposium "The Seventh International Forum on Decision Sciences", which took place in Windsor, Canada.

**Handbook of Research on E-Assessment in Higher Education** Azevedo, Ana, Azevedo, José, 2018-09-14 E-assessments of students profoundly influence their motivation and play a key role in the educational process. Adapting assessment techniques to current technological advancements allows for effective pedagogical practices, learning processes, and student engagement. The Handbook of Research on E-Assessment in Higher Education provides emerging perspectives on the theoretical and practical aspects of digital assessment techniques and applications within educational settings. Featuring coverage on a broad range of topics such as competency assessment, adaptive courseware, and learning performance, this publication is ideally designed for educational administrators, educational professionals, teachers and professors, researchers, and graduate-level students seeking current research on comparative studies and the pedagogical issues of online assessment in academic institutions.

Veterinary Forum ,2005

**41st Porcelain Enamel Technical Forum** William J. Smothers, 2009-09-28 This volume is part of the Ceramic Engineering and Science Proceeding (CESP) series. This series contains a collection of papers dealing with issues in both traditional ceramics (i.e., glass, whitewares, refractories, and porcelain enamel) and advanced ceramics. Topics covered in the area of advanced ceramic include bioceramics, nanomaterials, composites, solid oxide fuel cells, mechanical properties and structural design, advanced ceramic coatings, ceramic armor, porous ceramics, and more.

**The Canadian Forum** ,1956

**The Sociology of Immigration** Daniel Herda, 2023-05-30 The Sociology of Immigration provides students with a contemporary sociological perspective on the entire immigration process: deciding to leave one's home country, establishing oneself in a new host society, being received by the host population, and deciding whether to assimilate or seek citizenship. Using historical and contemporary examples, it applies many foundational concepts in sociology, such as culture, socialization, race and ethnicity, gender, and the sociological imagination, to the phenomenon of human migration. The text introduces immigration and migration on a global scale, but also emphasizes immigration in a U.S. context.

**Intermodal Transport National Peer Review: Turkey** International Transport Forum,2009-04-01 This book argues that Turkey's continuing economic expansion depends on the diversification of its transport modes and especially on the development of efficient multimodal services.

**Philippine national bibliography** ,1977

5G Technology Harri Holma,Antti Toskala,Takehiro Nakamura,2020-02-25 A comprehensive guide to 5G technology, applications and potential for the future 5G brings new technology solutions to the 5G mobile networks including new spectrum options, new antenna structures, new physical layer and protocols designs and new network architectures. 5G Technology: 3GPP New Radio is a comprehensive resource that offers explanations of 5G specifications, performance evaluations, aspects of device design, practical deployment considerations and illustrative examples from field experiences. With contributions from a panel of international experts on the topic, the book presents the main new technology components in 5G and describes the physical layer, radio protocols and network performance. The authors review the deployment aspects such as site density and transport network and explore the 5G performance aspects including data rates and coverage and latency. The book also contains illustrative examples of practical field measurement. In addition, the book includes the most recent developments in 4G LTE evolution and offers an outlook for the future of the evolution of 5G. This important book: Offers an introduction to 5G technology and its applications Contains contributions from international experts on the topic Reviews the main technology components in 5G Includes information on the optimisation of the Internet of things Presents illustrative examples of practical field measurements Written for students and scientists interested in 5G technology, 5G Technology: 3GPP New Radio provides a clear understanding of the underlying 5G technology that promotes the opportunity to take full benefit of new capabilities.

*Building Legitimacy* M. Sajjad Hassan,2008-04-16 This book compares two states in the Northeast with different socio-political trajectories—a relatively orderly Mizoram and a troubled Manipur—in order to understand the sources of political turmoil in the region. Taking the region as a case study, it examines the larger debates on success and failure in state-making. In discussing the divergent success of the two states in mitigating conflicts, Hassan demonstrates how in Mizoram the process of state-making helped consolidate public legitimacy and the authority of state leaders. He also shows how it strengthened the institutional capability of government agencies to provide services, manage group contestations, and avoid breakdown. At the same time, he illustrates how in Manipur, traditional centres of power—tribal and ethnic associations—gained in authority, compromising the legitimacy of the government and institutional capability of its agencies. The study highlights the important role, in the context of state breakdown, of the absence of an effective medium to regulate inter-group relationships and manage contestations over power, resources, opportunities, and identity. Rigorously comparative, it explains the sources of disorder in Northeast India by focusing on the nature of state–society relations in the region. While acknowledging the important role of history in structuring this failure of the state system in the

region, it suggests ways in which the path dependence can be overcome.

**Data Science** Qinglei Zhou, Qiguang Miao, Hongzhi Wang, Wei Xie, Yan Wang, Zeguang Lu, 2018-09-10 This two volume set (CCIS 901 and 902) constitutes the refereed proceedings of the 4th International Conference of Pioneering Computer Scientists, Engineers and Educators, ICPCSEE 2018 (originally ICYCSEE) held in Zhengzhou, China, in September 2018. The 125 revised full papers presented in these two volumes were carefully reviewed and selected from 1057 submissions. The papers cover a wide range of topics related to basic theory and techniques for data science including mathematical issues in data science, computational theory for data science, big data management and applications, data quality and data preparation, evaluation and measurement in data science, data visualization, big data mining and knowledge management, infrastructure for data science, machine learning for data science, data security and privacy, applications of data science, case study of data science, multimedia data management and analysis, data-driven scientific research, data-driven bioinformatics, data-driven healthcare, data-driven management, data-driven eGovernment, data-driven smart city/planet, data marketing and economics, social media and recommendation systems, data-driven security, data-driven business model innovation, social and/or organizational impacts of data science.

**Diderot Forum on Mathematics and Music** Hans G. Feichtinger, Monika Dörfler, 1999

Exploring the Possibilities for the Emergence of a Single and Global Native Language Fritz Dufour, Linguist, MBA, DESS, 2017-11-09 This book is a look into the possibilities for the emergence of a single and universal native language by taking into consideration the common denominator that characterizes all spoken languages: sounds. This book describes the acquisition of language in terms of speech, its use, and its development or evolution. The hypothesis of a monolingual world is supported by strong arguments, facts, and theories. This is both a descriptive and a prescriptive approach in the sense that not only Mr. Dufour portrays the current linguistic status quo as it is, but also, he prescribes a way to go about making our planet monolingual through a detailed awareness campaign plan and practical views likely to help us achieve that goal if followed properly. His approach is a novel one and is commendable. This is a reference book, definitely one to read, whether you're a linguist or not.

*Newswatch*, 2007

Public Engagement on Facilitating Access to Antiviral Medications and Information in an Influenza Pandemic Institute of Medicine, Board on Health Sciences Policy, Forum on Medical and Public Health Preparedness for Catastrophic Events, 2012-08-20 Influenza pandemics overwhelm health care systems with thousands or hundreds of thousands of sick patients, as well as those worried they may be sick. In order to ensure a successful response to the patient swell caused by a pandemic, robust planning is essential to prepare for challenges public health officials may face. This includes the need to quickly distribute and dispense antiviral medications that can reduce the severity and duration of disease to large numbers of people. In response to a request from the Centers for Disease Control, the Institute of Medicine's Forum on Medical and Public Health Preparedness for Catastrophic

Events held a series of workshops that explored the public's perception of how to facilitate access to antiviral medications and treatment during an influenza pandemic. To help inform potential strategies still in the development stages at the CDC, workshops were held in Fort Benton, Montana; Chattanooga, Tennessee; and Los Angeles, California during February and March 2012 to consider the usefulness of several alternative strategies of delivering antiviral medication to the public. Participants considered how the normal systems for prescribing and dispensing antiviral medications could be adjusted to ensure that the public has quick, safe, and equitable access to both potentially life-saving drugs and information about the pandemic and treatment options. This document summarizes the workshops.

**Handbook of Asian American Health** Grace J. Yoo, Mai-Nhung Le, Alan Y. Oda, 2012-10-12 Asian Americans encounter a range of health issues often unknown to the American public, policy makers, researchers and even clinicians. National research often combines Asian Americans into a single category, not taking into account the differences and complexity among Asian ethnic subgroups. The definition of Asian American derives from the U.S. Census Bureau's definition of Asian, which includes peoples from all the vast territories of the Far East, Southeast Asia and the South Asian Subcontinent. While Census classifications determine demographic measurements that affect equal opportunity programs, the broad rubric "Asian-American" can never describe accurately the more than 50 distinct Asian American subgroups, who together comprise multifaceted diversity across cultural ethnicities, socio-economic status, languages, religions and generations. This volume rectifies that situation by exploring the unique needs and health concerns of particular subgroups within the Asian American community. It consolidates a wide range of knowledge on various health issues impacting Asian Americans while also providing a discussion into the cultural, social, and structural forces impacting morbidity, mortality and quality of life. The volume is designed to advance the understanding of Asian American health by explaining key challenges and identifying emerging trends faced in specific ethnic groups and diseases/illnesses, innovative community-based interventions and the future needed areas of research.
