The Balkans: Foreign Direct Investment and EU Accession Aristidis Bitzenis,2016-03-23 The fall of communism and subsequent developments have put a renewed spotlight on the potential of the Balkan economies. Bulgaria, Albania, Serbia & Montenegro, Romania and the Former Yugoslav Republic of Macedonia are countries which have attracted low levels of investment and poor political leadership in most of the countries has delayed much needed reforms. However, there are now signs of improvement and this timely book fills a significant gap in the available literature. Demonstrating that these countries must engage as fully as possible with the world economy via EU accession, this book explores the implications of the specific characteristics of these countries which have made the transition process more difficult. This exciting new volume is valuable reading for students, academics and business professionals interested in international development in the Balkans.

Strategic, Policy and Social Innovation for a Post-Industrial Korea Joon Nak Choi, Yong Suk Lee, Gi-Wook Shin, 2018-05-23 Export-oriented industrialization has transformed the Korean economy so profoundly that it has become known as the Miracle on the Han. Yet, this industrial model has become fragile, as Korea's chaebols are being challenged by Chinese competitors. Attempts to seek out new engines of economic growth have failed, or remain underdeveloped, while a looming demographic crisis threatens to exacerbate Korea's problems. This book outlines a blueprint for overcoming these challenges, moving beyond the business strategies, government policies, and socio-cultural patterns established under export-oriented industrialization. Written by a stellar line-up of international contributors, its central proposition is that social change is needed to support the strategic and operational transformation of the chaebol and SMEs. Specifically, it stresses the need for an appreciation of the gender, national, and ethnic diversity emerging within the Korean workplace today. If properly leveraged, such diversity has the potential to reduce the groupthink that hampers the creativity and responsiveness of Korean firms today, as well as facilitating greater success in overseas markets. Taking an interdisciplinary approach, this book will be useful to students and scholars in Korean Studies, as well as those studying business, economics, and

sociology more broadly in East Asia.
