In the City of Clouds Sweta Rani,2020-12-10 Keeping faith in her heart, while answering the Whys of her life, she is always nudged towards the Why Nots. Until she realizes that it cannot be always trusted. 15th Century. Place: Somewhere in Northern India. A mighty king falls for a common girl, only to realize that she was anything but common. While fighting the odds and learning their differences, they choose love to write scripts of history. Centuries later, the kingdoms are long gone. But the will to accept challenges survives through a modern story, which is weaved around the central characters, Hridya and Aarav. They are familiar yet strangers to each other. From the young streets of college to the history-stricken alleys of an ancient fort, following the twists and turns of fate, the characters of this book are rallying through memories and time bridges. Their life as students, personal little victories, rebellions of the heart and constant unlearning for self-discoveries braids their story of lost and found. Walking through every stage in their life, they wander in the city of clouds, while finding suns, will they reinstate clarity? Will Hridya be able to fight Aarav who endangers her alleged heart? After crossing a wall of time, will Aarav's choices repeat history? Is a tale from centuries past returning in the form of modern love? Read on to find out.

***Book of Clouds* Chloe Aridjis,2009-03-10** A young Mexican woman adrift in post-unification Berlin encounters romance, violence, and revelation in this "stirring and lyrical first novel" (Paul Auster, award-winning author and filmmaker). Having escaped her overbearing family in Mexico, Tatiana settles in the newly reunified city of Berlin, where she hopes to cultivate a life of solitude. But when she takes a job transcribing notes for the reclusive historian, Doktor Weiss, Tatiana's simple life becomes more complex—and more perilous. Through Weiss, she meets a young meteorologist who, as a child in East Germany,

took solace in the sky's constant shape-shifting, an antidote to his grim and unchanging reality. As their three conflicting worlds begin to merge, the tension culminates in an act of violence that will leave none of them untouched. Unfolding with the logic of a dream, *Book of Clouds* is both "a stunningly accurate portrait of Berlin" and a beautiful exploration of the myths we cling to in order to give our lives meaning. From a crowded U-Bahn where Hitler appears dressed as an old woman to an underground Gestapo bowling alley whose walls bear score marks from games long settled, Chloe Aridjis guides us through layers of history with wit and compassion, blurring the lines between real and imagined. Her debut novel is "required reading of the most pleasurable sort" (The New York Times). Named one of the 10 Best Books Set in Berlin by The Guardian.

Just Under the Clouds Melissa Sarno, 2019-06-04 Can you still have a home if you don't have a house? In the spirit of *The Truth About Jellyfish* and *Fish in a Tree* comes a stunning debut about a family struggling to find a place to belong. To climb a tree, always think in threes and you'll never fall. Two feet, one hand. Two hands, one foot, Cora's father told her when she was a little girl. Now Cora is in middle school, her father is gone, her family is homeless, and Cora has to look after her younger sister, Adare, who needs a lot of looking after. When their room at the shelter is ransacked, Cora's mother brings them to an old friend's apartment, and Cora hopes this will be a place she can finally call home. When doubt seeps in, Cora makes an escape of her own and discovers something that will change how she sees her family and her place within it. The beautiful debut by Melissa Sarno, the author of *A Swirl of Ocean*, will take root in your heart and blossom long after you've turned the last page. [A] heartbreaking yet hopeful story of a family searching for a place to belong. --Publishers Weekly [A] thought-provoking debut about the meaning of home and the importance of family. --The Horn Book Magazine

The Metainterface Christian Ulrik Andersen, Søren Bro Pold, 2023-10-31 How the interface has moved from the PC into cultural platforms, as seen in a series of works of net art, software art and electronic literature. The computer interface is both omnipresent and invisible, at once embedded in everyday objects and characterized by hidden exchanges of information between objects. The interface has moved from office into culture, with devices, apps, the cloud, and data streams as new cultural platforms. In *The Metainterface*, Christian Ulrik Andersen and Søren Bro Pold examine the relationships between art and interfaces, tracing the interface's disruption of everyday cultural practices. They present a new interface paradigm of cloud services, smartphones, and data capture, and examine how particular art forms—including net art, software art, and electronic literature—seek to reflect and explore this paradigm. Andersen and Pold argue that despite attempts to make the interface disappear into smooth access and smart interaction, it gradually resurfaces;

there is a metainterface to the displaced interface. Art can help us see this; the interface can be an important outlet for aesthetic critique. Andersen and Pold describe the “semantic capitalism” of a metainterface industry that captures user behavior; the metainterface industry's disruption of everyday urban life, changing how the city is read, inhabited, and organized; the ways that the material displacement of the cloud affects the experience of the interface; and the potential of designing with an awareness of the language and grammar of interfaces.

Out of the Clouds Linda Carroll, David Rosner, 2018-05-29 In the bestselling tradition of *The Eighty-Dollar Champion*, the propulsive, inspiring Cinderella story of Stymie, an unwanted Thoroughbred, and Hirsch Jacobs, the once dirt-poor trainer who bought the colt on the cheap and molded him into the most popular horse of his time and the richest racehorse the world had ever seen. In the wake of World War II, as turmoil and chaos were giving way to a spirit of optimism, Americans were looking for inspiration and role models showing that it was possible to start from the bottom and work your way up to the top--and they found it in Stymie, the failed racehorse plucked from the discard heap by trainer Hirsch Jacobs. Like Stymie, Jacobs was a commoner in *The Sport of Kings*, a dirt-poor Brooklyn city slicker who forged an unlikely career as racing's winningest trainer by buying cheap, unsound nags and magically transforming them into winners. The \$1,500 pittance Jacobs paid to claim Stymie became history's biggest bargain as the ultimate iron horse went on to run a whopping 131 races and win 25 stakes, becoming the first Thoroughbred ever to earn more than \$900,000. The Cinderella champion nicknamed *The People's Horse* captivated the masses with his rousing charge-from-behind stretch runs, his gritty blue-collar work ethic, and his rags-to-riches success story. In a golden age when horse racing rivaled baseball and boxing as America's most popular pastime, he was every bit as inspiring a sports hero as Joe DiMaggio and Joe Louis. Taking readers on a crowd-pleasing ride with Stymie and Jacobs, *Out of the Clouds* -- the winner of the Dr. Tony Ryan Book Award -- unwinds a real-life Horatio Alger tale of a dauntless team and its working-class fans who lived vicariously through the stouthearted little colt they embraced as their own.

The Clouds Aristophanes, 2013-07-23 Laugh out loud! Aristophanes' hilarious satire, as dramatic and effective now as in fifth-century Athens.

The City in the Clouds (Classic Reprint) C. Ranger Gull, 2018-01-30 Excerpt from *The City in the Clouds* It was afternoon, the hour of the siesta. From where he lay the millionaire could look down upon his marvelous gardens, which surrounded the white palace he had built for himself, peerless in the whole of South America. Lake in the Clouds Sara Donati, 2003-04-29 In her extraordinary novels *Into the Wilderness* and *Dawn on a Distant Shore*, award-winning writer Sara Donati deftly captured the vast, untamed wilderness of late-eighteenth-century New York and the trials and triumphs of the Bonner family. Now Donati takes on a new and often overlooked chapter in our nation's past--and in the life of the spirited Bonners--as their oldest daughter, the brave and beautiful Hannah, comes of age with a challenge that will change her forever. Masterfully told, this passionate story is a moving tribute to a resilient, adventurous family and a people poised at the brink of a new century. It is the spring of 1802, and the village of Paradise is still reeling from the typhoid epidemic of the previous summer. Elizabeth and

Nathaniel Bonner have lost their two-year-old son, Hannah's half brother Robbie, but they struggle on as always: the men in the forests, the twins Lily and Daniel in Elizabeth's school, and Hannah as a doctor in training, apprenticed to Richard Todd. Hannah is descended from healers on both sides--one Scots grandmother and one Mohawk--and her reputation as a skilled healer in her own right is growing. After a long night spent attending to a birth, Elizabeth and Hannah encounter an escaped slave hiding on the mountain. She calls herself Selah Voyager, and she is looking for Curiosity Freeman--a former slave herself, one of the village's wisest women and Elizabeth's closest friend. The Bonners take Selah, desperately ill, to Lake in the Clouds to care for her, and with that simple act they are drawn into the secret life that Curiosity and Galileo Freeman and their grown children have been leading for almost ten years. The Bonners will do what they must to protect the Freemans, just as Hannah will protect her patient, who presents more than one kind of challenge. For a bounty hunter is afoot--Hannah's childhood friend and first love, Liam Kirby. While Elizabeth and Nathaniel undertake a treacherous journey through the endless forests to bring Selah to safety in the north, Hannah embarks on a very different journey to New-York City, with two goals: to learn the secrets of vaccination against smallpox, a disease that threatens Paradise, and to find out what she can about Liam's immediate past and what caused him to change so drastically from the boy she once loved. The obstacles she faces as a woman and a Mohawk make her confront questions long avoided about her place in the world. Those questions follow her back to Paradise, where she finds that the medical miracle she brings with her will not cure prejudice or superstition, nor can it solve the problem of slavery. No sooner have the Bonners begun to rebound from their losses--old and new--than they find themselves confronted by more than one old enemy in a battle that will test the strength of their love for one another. Hannah faces the decision she has always dreaded: will she make a life for herself in a white world, or among her mother's people?

Gallery of Clouds Rachel Eisendrath, 2021-05-11 A personal and critical work that celebrates the pleasure of books and reading. Largely unknown to readers today, Sir Philip Sidney's sixteenth-century pastoral romance *Arcadia* was long considered one of the finest works of prose fiction in the English language. Shakespeare borrowed an episode from it for *King Lear*; Virginia Woolf saw it as "some luminous globe" wherein "all the seeds of English fiction lie latent." In *Gallery of Clouds*, the Renaissance scholar Rachel Eisendrath has written an extraordinary homage to *Arcadia* in the form of a book-length essay divided into passing clouds: "The clouds in my *Arcadia*, the one I found and the one I made, hold light and color. They take on the forms of other things: a cat, the sea, my grandmother, the gesture of a teacher I loved, a friend, a girlfriend, a ship at sail, my mother. These clouds stay still only as long as I look at them, and then they change." *Gallery of Clouds* opens in New York City with a dream, or a vision, of meeting Virginia Woolf in the afterlife. Eisendrath holds out her manuscript—an infinite moment passes—and Woolf takes it and begins to read. From here, in this act of magical reading, the book scrolls out in a series of reflective pieces linked through metaphors and ideas. Golden threadlines tie each part to the next: a rupture of time in a Pisanello painting; Montaigne's practice of revision in his essays; a segue through Vivian Gordon Harsh, the first African American head librarian in the Chicago public library system; a brief history of prose style; a meditation on the active versus the contemplative life; the story of Sarapion, a fifth-century monk; the persistence of the pastoral; image-making and thought; reading Willa Cather to her grandmother in her Chicago apartment; the deviations of Walter Benjamin's "scholarly romance," *The Arcades Project*. Eisendrath's wondrously woven hybrid work extols the materiality of reading, its pleasures and delights, with wild leaps and abounding grace.

knopfler this song finds him
