On This Day in History Sh!t Went Down James

Fell,2021-04-17 Sh!t happens. Every day. Mae West was sent to jail for “corrupting the morals of youth” with her first Broadway play. When participation in the Hitler Youth became mandatory in Germany, groups of teen “pirates” rebelled. Muhammad Ali refused to “drop bombs and bullets on brown people” in Vietnam. A dog sled relay carried life-saving medicine 674 miles through -50 temperatures to rescue children dying from diphtheria. The Dionne Quintuplets were stolen by the Canadian government and displayed like zoo animals for profit. Indian princess Noor Inayat Khan was one of the most successful spies against the Nazis in World War II. A children’s television show called Caillou tortured parents for more than a decade . . . Sh!t goes down every single day of the year, year after year. Sometimes it’s a battle that changes the course of history, other times it’s a life-saving medical advancement. Bravery is counter-balanced with cowardice. There is slavery and there is self-sacrifice. History is replete with deeds both noble and despicable. Some were motivated by greed, others generosity. Many dedicated themselves to the art of killing, while others focused their efforts on curing. There have been grave mistakes and moments of greatness. Confrontation and cooperation. Early in the twentieth

century Spanish philosopher George Santayana wrote, "Those who cannot remember the past are condemned to repeat it." But history serves not just as a warning; it also offers encouragement. Humanity is not endless suck. There is inspiration to be found amidst the atrocities. *On This Day in History Sh!t Went Down* will significantly expand your knowledge of world history in the most hilarious and profane way possible.

**On This Day in History** Dan Snow, 2018-11-15 On which day was history's shortest war waged and won (in roughly 40 minutes)? How was Napoleon bested by a group of rabbits in 1807? Why did a dispute about beer in an Oxford pub lead to over 100 deaths and 470 years of penance? Why in 1752 did Britain go to bed on 2nd September and wake up on the 14th? How did a women's march in 1917 set off the Russian Revolution? *On This Day in History* brings to life a key event that happened on each day of the year. From the most important British battle that you've never heard of (20 May 685) to the first meeting of Lennon and McCartney (6 July 1957), and from why Julius Caesar should have been wary of the Ides of March (15 March 44BC) to the day Jeanne de Clisson became a pirate and single-handedly declared war on the King of France (2 August 1343), history is full of unlikely heroes and fascinating turning points. In this book Dan Snow shows us how each day offers a different and unexpected insight into our past. And story by gripping story, this year grows into a vivid, very human history of the world.

On This Date Carl M. Cannon, 2017-07-18 Forget what you were taught in seventh grade-this riveting book takes readers down American history's back alleys and side streets. From the arrival of the Mayflower through the 2016 election, On This Date explores five hundred years of American history, revealing a compelling tale for each day in the calendar year. Drawing from Carl M. Colorful yet authoritative, On This Date debunks some popular myths and celebrates America's forgotten heroes.

**One Day in History: July 4, 1776** Rodney P.

Carlisle,2009-10-06 On a summer day in July, 1776, in Philadelphia, Pennsylvania, the world changed forever. On July 4, thirteen English colonies on the continent of North America decided to declare themselves free and independent states, united in their purpose of forming a new nation. The approval of that decision on July 4 represented the culmination of lengthy debates. As the delegates filed into the State House on Thursday, July 4, tempers were flaring. Despite entreaties from others, the

New York delegation continued to balk. They had no instructions from the state and could vote against the resolution. Furthermore, it looked as if the two delegates from Delaware were deadlocked. Unless Caesar Rodney arrived in time for the vote, July 4, 1776, promised to be just another day of delay and political wrangling. One Day in History: July 4, 1776 is a look at how one day changed the course of history; in this case, a day that produced a new nation. Grave consequences beyond the Declaration of Independence flowed from the day's events. This reference sets out in 100 articles, written by noted historians, the details of the day in history, its causes and consequences, and how the actions of July 4 resonated throughout the colonies. The words and logic of the declaration approved on July 4, as well as larger events surrounding that decision, shaped the destiny of the world, creating a new nation that would build on the principles enumerated in the document. The day is examined in its historical context, with articles ranging from African Americans to Colonies or States to Daily Life in 1776 and Dunlap's Broadside. Here, in one complete reference, is a you were there experience of what it was like to be in Philadelphia on July 4, 1776. Moreover, this book represents the cumulative effect of one day in history: the United States as we know it today, some 230 years later.
