Zero to Five Tracy Cutchlow, 2015-04-21 When you're a new parent, the miracle of life might not always feel so miraculous. Maybe your latest 2:00 a.m., 2:45 a.m., and 3:30 a.m. wake-up calls have left you wondering how "sleep like a baby" ever became a figure of speech—and what the options are for restoring your sanity. Or your child just left bite marks on someone, and you're wondering how to handle it. First-time mom Tracy Cutchlow knows what you're going through. In *Zero to Five: 70 Essential Parenting Tips Based on Science (and What I've Learned So Far)*, she takes dozens of parenting tips based on scientific research and distills them into something you can easily digest during one of your two-minute-long breaks in the day. The pages are beautifully illustrated by award-winning photojournalist Betty Udesen. Combining the warmth of a best friend with a straightforward style, Tracy addresses questions such as: Should I talk to my pregnant belly / newborn? Is that going to feel weird? (Yes, and absolutely.) How do I help baby sleep well? (Start with the 45-minute rule.) How can I instill a love of learning in my child? (By using specific types of praise and criticism.) What will boost my child's success in school? (Play that requires self-control, like make-believe.) My baby loves videos and cell-phone games. That's cool, right? (If you play, too.) What tamps down temper tantrums? (Naming emotions out loud.) My sweet baby just hit a playmate / lied to me about un-potting the plant / talked back. Now what? (Choose one of three logical consequences.) How do I get through an entire day of this? (With help. Lots of help.) Who knew babies were so funny? (They are!) Whether you read the book front to back or skip around, *Zero to Five* will help you make the best of the tantrums (yours and baby's), moments of pure joy, and other surprises along the totally-worth-it journey of parenting.

Toddler Inc. Tom Kreffer, 2022-08-18 Toddlers are savages. They scream, shout, rebel, slap, destroy, throw food and purposely withhold their love and affection – just to watch your soul snap and your spirit shatter. And all before 8 a.m. And yet, they're also misunderstood creatures: funny and beautiful – endearing little marvels that brighten up your day. But mostly they're savages. The *Adventures in Dadding* series continues with this highly entertaining third entry, captured by one dad and his journal. Blunt, honest and absurd – this is *Toddler Inc.* WARNING: the author swears an awful lot

The Baby And Toddler Sleep Programme Pearce, John With Jane Bidder, 2011-08-31 Did you know that it is perfectly normal for a baby from 0-6 months to wake up every 20 minutes - often to cry? Do you worry about upsetting your 2 year-old, who refuses to go to sleep without another story? Did you know that every child will experience night-time fears at a different age? Do you need guidance on how to negotiate bed-times, or wonder how to get your child to bed at all? Regular sleep patterns - for children and adults - are an essential key to managing the rest of our lives. The earlier in their lives that regular sleep can be established, the easier children will find it for the rest of their lives. Dr John Pearce demystifies the rituals of sleeping. He explains to hassled parents how natural sleep rhythms alter over time, what sort of behaviour is natural at various ages, when to use strict discipline, at what age to negotiate instead of dictate, when to turn a deaf ear to playing up and when to take note of the clear signs of illness, depressions, fear or anxiety. Full of clear guidelines for positive and constructive action - this book is a godsend for parents of children - from 0-4 and beyond.

Toddlers & ADHD Donna Mac, LCPC, 2014-03-10 Is your toddler going through the whacky one's, terrible two's, troublesome three's, or fudgesicle four's/five's? Or could their behavior be something more? ADHD is a genetic condition that usually has an onset prior to the age of 4. It presents with hyperactivity, impulsivity, inattentiveness, irritability, and aggression. Due to the fact that all toddlers show some "ADHD behavior," it's challenging to discern if behavior falls "within normal limits" or if it is "clinically significant." Learn the distinction. *Toddlers & ADHD* shares the latest research on the diagnosis and the treatment of 1-5 year olds with this condition. The goal is to reduce the child's ineffective symptoms, which will subsequently lessen the stress level of the entire family unit. Therefore, you will learn parenting strategies specifically for a toddler with ADHD, and you will also find out how to seek help for your child, the right questions to ask, and what to expect from Early Intervention services, preschool and kindergarten based services, and therapeutic/psychiatric services.

If Your Kid Eats This Book, Everything Will Still Be Okay Lara Zibners,2009-06-17 As an Emergency Room pediatrician, Dr. Lara Zibners has seen it all. She's cared for a portion of the 25 million children in the U.S. who are taken to the ER each year-and she knows that more than 50% of these visits may be unnecessary. If Your Kid Eats this Book, Everything Will be Okay shows parents when they may need to take action, and when they might be able to just go back to bed and call their doctor in the morning. With sections such as In the Diaper and His Noggin and the Nervous System, Dr. Zibners covers every part of the body and offers sound advice (for example, did you know that oil is the best remedy for dissolving superglue between body parts?), all while maintaining a lively and often hilarious tone. To the question, What if she chokes on her vomit? Zibners answers, A healthy child will not choke on her own vomit, unless she is drunk or high on Grandma's sleeping pills. Finally, no more frantic late-night searches through the why to buy, how to diaper, or what to feed him sections found in other childcare books to find out if little Franny needs to go to the ER. This book focuses on the truly important questions, like how to keep her from electrocuting herself in the first place. Not every child has a pediatrician with specialized emergency room experience living in her home. But this book just might be the next best thing. Lara Zibners, MD, is a former Assistant Professor of Pediatric Emergency Medicine at Mount Sinai Hospital in New York City. Currently, she divides her professional time between New York and London.
