Death by Toilet Paper Donna Gephart, 2015-07-28 Fans of Louis Sachar will welcome the adventures of a contest-crazed seventh grader who uses his wits and way with words in hopes of winning a big cash prize to help his family avoid eviction. Benjamin is about to lose a whole lot more than good toilet paper. If he doesn't make tons of money fast by selling candy bars and winning contests—like the Royal-T Bathroom Tissue slogan contest—his family will get kicked out of their apartment. Even with his flair for clever slogans, will Benjamin be able to win a cash prize large enough to keep a promise he made to his dad before he died? Or will he lose everything that matters to him? Praise for *Death by Toilet Paper* Readers can't help but enjoy this heartening book about hanging in there.--Kirkus Reviews Ben is a character kids will root for.--Publisher's Weekly Would make a fine classroom readaloud.--The Bulletin

Wiped Ronald H. Blumer, 2013-05-26 Black & White Edition How did people clean their rear ends before the invention of paper? The ancient Greeks used stones! Really! This rear-window view of the history of the world also details how the kings and queens of England and France wiped their royal asses? Not like you and I. What does Judaism, Islam and Buddhism have to say about this act? Surprisingly a lot. How did an ass-kisser -- that is, man who actually kissed his patron's ass -- almost become Pope. Who is the real father of toilet paper? You won't find the answer on the Internet. Why do most people in the world think that wiping with paper is disgusting? Is there a better way? This is the first book to present a fully-documented history of the act that every human being has done every day since the beginning of time.

Touching Space, Placing Touch Mark Paterson, Martin Dodge, 2016-02-24 Given that touch and touching is so central to everyday embodied existence, why has it been largely ignored by social scientists for so long? What is the place of touch in our mixed spaces of sociality, work, domesticity, recreation, creativity or care? What conceptual resources and academic languages can we reach towards when approaching tactile activities and somatic experiences through the body? How is this tactile landscape gendered? How is touch becoming revisited and revalidated in late capitalism through animal encounters, tourism, massage, beauty treatments, professional medicine, everyday spiritualities or the aseptic touch-free spaces of automated toilets? How is touch placed and valued within scholarly fieldwork and research itself, integral as it is to the production of embodied epistemologies? How is touch involved in such aesthetic experiences as shaping objects in sand, or encountering fleshly bodies within a painting? The goal of this edited collection, *Touching Space, Placing Touch* is twofold: 1. To further advance theoretical and empirical understanding of touch in social science scholarship by focussing on the differential social and cultural meanings of touching

and the places of touch. 2. To develop a multi-faceted and interdisciplinary explanations of touch in terms of individual and social life, personal experiences and tasks, and their related cultural contexts. The twelve essays in this volume provide a rich combination of theoretical resources, methodological approaches and empirical investigation. Each chapter takes a distinct aspect of touch within a particular spatial context, exploring this through a mixture of sustained empirical work, critical theories of embodiment, philosophical and psychoanalytic approaches to gendered touch and touching, or the relationship between visual and non-visual culture, to articulate something of the variety and variability of touching experiences. The contributors are a mixture of established and emerging researchers within a growing interdisciplinary field of scholarship, yet the volume has a strong thematic identity and therefore represents the formative collection concerning the multiple senses of touch within social science scholarship at this time.

In the third section, a guide to cognitive-behavioral treatment by exposure and ritual prevention is provided. Also

Inclusive Urban Design: Public Toilets Clara Greed, 2007-06-01 This is a unique text providing both design guidance and policy direction for the provision and design of public toilets covering city-wide, district-level and site-specific principles. It highlights the role of urban design in reversing the trend of inadequate toilet provision, and sets out guidelines for design which meets both user need and provider requirements. Greed presents the fundamental principle that toilets should not be dealt with

in isolation from mainstream urban policy, but that they should be seen as a serious core component in both strategic urban policy and local area design. She argues toilets are valuable townscape features in their own right as manifestation civic pride and good urban design - essential architectural components which add to the quality and viability of an area. Although a range of design guidance on toilets exists there is still considerable dissatisfaction with the end product in terms of building design, levels of provision, location, safety, layout, DDA requirements and accessibility. By outlining user demands and provider constraints, Greed shows that it is essential for architects to have an informed understanding and practical knowledge of toilet issues when working with public and private sector providers. Examples of toilet architecture from other countries, and policies from different cultural settings, are included for comparative purposes to invigorate UK perspectives.
