Encyclopedia of Great Popular Song Recordings Steve Sullivan,2013-10-04 The Encyclopedia of Great Popular Song Recordings, Volumes 1 and 2 covers the full range of popular music recordings with virtually unprecedented breadth and depth. In this 2-volume encyclopedia, Sullivan explores approximately 1,000 song recordings from 1889 to the present, telling the stories behind the songs, recordings, performers, and songwriters. From the Victorian parlor ballad and ragtime hit at the end of the 19th century to today's rock classics, the Encyclopedia progresses through a parade popular music styles, from jazz to blues to country Western, as well as the important but too often neglected genres of ethnic and world music, gospel, and traditional folk. This book is the ideal research tool for lovers of popular music in all its glorious variety.

**40 Hits, 40 Stories** Rick Simmons,2022-10-28 Innovative sounds in pop, rock and soul in the 1960s and 1970s meant that music appealed to more people than ever before. While some songs appealed to a broad audience, some targeted a much narrower demographic, meaning songs on the pop charts might not do as well on the adult contemporary or soul charts, or vice versa. This book examines forty songs featured on song charts of the 1960s and 1970s. Charts considered are Billboard Pop, Billboard Soul, Adult Contemporary, Cashbox and British Charts. Each listing includes discussion of the factors that contributed to the songs' popularity. Author interviews with songwriters, musicians and artists such as KC (of KC and the Sunshine Band), Mark Farner (of Grand Funk), Jerry Butler, Ron Dante (of the Archies and the Cuff Links), Freda Payne, Lou Christie, Tommy Roe, The Spinners and others tell the stories behind some of the era's most popular songs.

**Songs in Their Heads** Patricia Campbell,2010-07-08 Songs in Their Heads is a vivid and engaging book that bridges the disciplines of music education, ethnomusicology, and folklore. This revised and expanded edition includes additional case studies, updated illustrative material, and a new section exploring the relationship between children's musical practices and current technological advances. Designed as a text or supplemental text for a variety of music education methods courses, as well as a reference for music specialists and classroom teachers, this book can also help parents understand and enhance their own children's music making.

Popular Music in a Digital Music Economy Tim J. Anderson,2013-12-17 In the late 1990s, the MP3 became the de facto standard for digital audio files and the networked computer began to claim a significant place in the lives of more and more listeners. The dovetailing of these two circumstances is the basis of a new mode of musical production and distribution where new practices emerge. This book is not a definitive statement about what the new music industry is. Rather, it is devoted to what this new industry is becoming by examining these practices as experiments, dedicated to negotiating what is replacing an object based industry oriented around the production and exchange of physical recordings. In this new economy, constant attention is paid to the production and licensing of intellectual property and the rise of the social musician who has been encouraged to become more entrepreneurial. Finally, every element of the industry now must consider a new type of audience, the end

user, and their productive and distributive capacities around which services and musicians must orient their practices and investments.

*Black Diamond Queens* Maureen Mahon,2020–10–09 African American women have played a pivotal part in rock and roll—from laying its foundations and singing chart-topping hits to influencing some of the genre's most iconic acts. Despite this, black women's importance to the music's history has been diminished by narratives of rock as a mostly white male enterprise. In *Black Diamond Queens*, Maureen Mahon draws on recordings, press coverage, archival materials, and interviews to document the history of African American women in rock and roll between the 1950s and the 1980s. Mahon details the musical contributions and cultural impact of Big Mama Thornton, LaVern Baker, Betty Davis, Tina Turner, Merry Clayton, Labelle, the Shirelles, and others, demonstrating how dominant views of gender, race, sexuality, and genre affected their careers. By uncovering this hidden history of black women in rock and roll, Mahon reveals a powerful sonic legacy that continues to reverberate into the twenty-first century.

*Becoming What We Sing* David Lemley,2021–01–07 Contemporary worship music is ubiquitous in many Protestant Christian communities today. Rather than debating or decrying this post-worship-wars reality, David Lemley accepts it as a premise and examines what it means for us to be singing along with songs that aren't so different from the pop genre. How do we cope with the consumerism embedded in the mentality that catchy is good? How do we stay committed to subverting cultural norms, as Christians are called to do, when our music is modeled after those cultural norms? How do we ensure that the way we participate in the liturgy of contemporary worship music rehearses a cruciform identity? *Becoming What We Sing* draws on cultural criticism, ethnomusicology, and liturgical and sacramental theology to process the deluge of the contemporary in today's worship music. Lemley probes the thought of historical figures, such as Augustine, Hildegard of Bingen, Martin Luther, and the Wesleys, while also staying situated in the current moment by engaging with cultural philosophers such as James K. A. Smith and popular artists such as U2. The result is a thorough assessment of contemporary worship music's cultural economy that will guide readers toward greater consciousness of who we are becoming as we sing “our way into selves, societies, and cosmic perspectives.”

*DIY Citizenship* Matt Ratto,Megan Boler,2014–02–07 How social media and DIY communities have enabled new forms of political participation that emphasize doing and making rather than passive consumption. Today, DIY-do-it-yourself-describes more than self-taught carpentry. Social media enables DIY citizens to organize and protest in new ways (as in Egypt's “Twitter revolution” of 2011) and to repurpose corporate content (or create new user-generated content) in order to offer political counternarratives. This book examines the usefulness and limits of DIY citizenship, exploring the diverse forms of political participation and “critical making” that have emerged in recent years. The authors and artists in this collection describe DIY citizens whose activities range from activist fan blogging and video production to knitting and the creation of community gardens. Contributors examine DIY activism, describing new modes of civic engagement that include Harry Potter fan activism and the activities of the Yes Men. They consider DIY making in learning, culture, hacking, and the arts, including do-it-yourself media production and collaborative documentary making. They discuss DIY and design and how citizens can unlock the black box of technological infrastructures to engage and innovate open and participatory critical making. And they explore DIY and media, describing activists' efforts to remake and reimagine media and the public sphere. As these chapters make clear, DIY is characterized by its emphasis on “doing” and making rather than passive consumption. DIY citizens assume active roles as interventionists, makers, hackers, modders, and tinkerers, in pursuit of new forms of engaged and participatory democracy. Contributors Mike Ananny, Chris Atton, Alexandra Bal, Megan Boler, Catherine Burwell, Red Chidgey, Andrew Clement, Negin Dahya, Suzanne de Castell, Carl DiSalvo, Kevin Driscoll, Christina Dunbar-Hester, Joseph Ferenbok, Stephanie Fisher, Miki Foster, Stephen Gilbert, Henry Jenkins, Jennifer Jenson, Yasmin B.
