Deep Learning and Scientific Computing with R torch Sigrid Keydana,2023-04-06 torch is an R port of PyTorch, one of the two most-employed deep learning frameworks in industry and research. It is also an excellent tool to use in scientific computations. It is written entirely in R and C/C++. Though still young as a project, R torch already has a vibrant community of users and developers. Experience shows that torch users come from a broad range of different backgrounds. This book aims to be useful to (almost) everyone. Globally speaking, its purposes are threefold: - Provide a thorough introduction to torch basics – both by carefully explaining underlying concepts and ideas, and showing enough examples for the reader to become fluent in torch. - Again with a focus on conceptual explanation, show how to use torch in deep-learning applications, ranging from image recognition over time series prediction to audio classification. - Provide a concepts-first, reader-friendly introduction to selected scientific-computation topics (namely, matrix computations, the Discrete Fourier Transform, and wavelets), all accompanied by torch code you can play with. Deep Learning and Scientific Computing with R torch is written with first-hand technical expertise and in an engaging, fun-to-read way.

The Darkest Evening Ann Cleeves,2020-09-08 AN INSTANT NEW YORK TIMES BESTSELLER! From Ann Cleeves—New York Times bestselling and award-winning author of the Vera and Shetland series, both of which are hit TV shows—comes the stunning new Vera Stanhope novel, The Darkest Evening. Ann Cleeves is one of my favorite mystery writers.—Louise Penny As a huge fan of both the Shetland and Vera series of books, I had high expectations for Cleeves’ latest. . . . A stunning debut for Cleeves’ latest crimefighter.—David Baldacci on The Long Call On the first snowy night of winter, Detective Inspector Vera Stanhope sets off for her home in the hills. Though the road is familiar, she misses a turning and soon becomes lost and disorientated. A car has skidded off the narrow road in front of her, its door left open, and she stops to help. There is no driver to be seen, so Vera assumes that the owner has gone to find help. But a cry calls her back: a toddler is strapped in the back seat. Vera takes the child and, driving on, she arrives at a place she knows well. Brockburn is a large, grand house in the wilds of Northumberland, now a little shabby and run down. It’s also where her father, Hector, grew up. Inside, there’s a party in full swing: music, Christmas lights and laughter. Outside, unbeknownst to the revelers, a woman lies dead in the snow. As the blizzard traps the group deep in the freezing Northumberland countryside, Brockburn begins to give up its secrets, and as Vera digs deeper into her investigation, she also begins to uncover her family’s complicated past.

Are You Coming out Today? Darrell Weston,2011-04-21 Ever wondered what it was like for a child before the advent of modern technology? Did they text message each other to let them know where to meet up? They spoke to each other; they used their imagination and played. They made use of the school holidays, knowing that around the corner adulthood was looming. A weekend was for the sole purpose of a bike ride. Read the book for a funny take on yesterday, mixed with some tips on the activities and games of way back when.

The Torch Peter Twohig,2015-03-18 The sequel to the much - loved novel, The Cartographer. Melbourne, 1960: Mrs Blayney and her twelve year old son live in South Richmond. At least, they did, until their house burnt down. The prime suspect - one Keith Aloysius Gonzaga Kavanagh, also aged 12 - has mysteriously disappeared. Our narrator, the Blayney kid, sets off on a covert mission to find young Keith, who he privately dubs 'Flame Boy', to save him from the small army of irate locals - not to mention his mother - who want to see him put away. Flame Boy has not only made himself scarce, but he's done so with a very important briefcase of secrets, which the kid is keen to get hold of for his grandfather, a shady character who has some secrets of his own. But the kid has got a lot going on: he's also organising a new gang of kids; coping with the ups and downs of having a girl friend (who likes to kiss - a lot); trying to avoid Keith's dangerous prison - escapee father, Fergus Kavanagh, also an arsonist, who is suspected of selling secrets to the Russians; and all the while wondering how he can get his hands on the most beautiful object in the world: the Melbourne Olympic Torch. A madcap, brilliantly shambolic and irresistibly fun novel about loss, discovery and living life to the full, The Torch is a ripper of a ride.
