Neddi's heinous training involves learning techniques for orchestrating suicide, murder, and drug addiction-just to name a few-and together Neddi and Rellik wreak havoc on countless human lives. Their master plan is to deceive a group of Muslim extremists into carrying out the worst terrorist attack on U.S. soil in history-the attacks of 9/11. Demon Lord of Elysium Paula Goodlett, Gorg Huff, 2021-07-22 When Pucorl, the puck who'd possessed a 21st century BMW van, turned the demon Beslizoswian into roadkill on a battlefield outside Paris in the year 1372, he didn't know what he was getting into. How could he? No puck had ever slain a Demon Lord before. But Themis the goddess of proper behavior has determined that Pucorl is now the proper lord of Beslizoswian's Caverns of Torment. And what's a puck-enchanted van with a crush on his mechanic supposed to do with Caverns of Torment? In this third book of the Demon Rift series we get a look at how things work on the demon side of the veils between the worlds-and how adventuring looks to the servants who go along to cook the meals and take care of the wagons. And how a demon in the form of a dinosaur ended up the majordomo of Carl's Not So Bad Caverns. We also learn about what's going on in France and England while Pucorl and the twenty-firsters are in Constantinople. We meet a few gods, make a few deals, and even see a truly magical kiss and some of its consequences. All in all it's a fun romp through the magic of Pucorl's lands in Elysium. And if you don't already have them you'll want the first two books in the series: The Demons of Paris and The Demons of Constantinople.

Dream Telepathy Montague Ullman, Stanley Krippner, Alan Vaughan, 2003-06 Interest in dreams is as old as humankind. Interest in dream telepathy -- the idea that we can influence others' dreams and communicate through them -- has been around almost as long. Dream Telepathy is Montague Ullman and Stanley Krippner's 1973 report on their ten years of research and experimentation with the human power to communicate across the barriers of time, space, and sleep. Ullman, a psychoanalyst, and Krippner, a psychologist, were the heads of the dream-research team at Maimonides Medical Center's Dream Laboratory in New York throughout the 1960s and early 1970s. Using graduate student researchers and volunteer subjects from the community, Ullman and Krippner engineered experiments wherein the researchers focused on a selection of art prints while, in another room, the subjects slept and dreamt. Meeting with varying degrees of success depending upon the research pair, subjects reported astonishing things, often dreaming their own uncannily accurate interpretation of the artistic scene the researchers were attempting to project to them. Dream Telepathy proposes the invaluable theoretical implications of such experimentation, and presupposes the use of dream telepathy in all areas of paranormal studies.
