Total Confidence Everyday John Ndeere Njuguna,2021-04-20 Self confidence is irreplaceable in the game plan of greatness! The confidence of super achievers is a trait that's responsible for their successive successes. Champions are common men and women whose confidence has been extensively developed until it covers up for their weaknesses - be it lack of charisma, social disadvantage or natural endowments. And confidence though rare, is a treasure that you too can own!We were not born with things we could or couldn't do: it is life's experiences and social conditioning that subtly taught us to fear and to limit ourselves. Self-belief is learnable - it is not a thing out of reach. What you lost can be recovered! The flame can be rekindled. And the passion can be reignited! Confidence is a fire that must be kept burning!Low self-confidence isn't a life sentence. Self-confidence can be learned, practiced, and mastered just like any other skill. Once you master it, everything in your life will change for the better. Barrie Davenport: DAILY CONFIDENCE gifts you the tools, the roadmap and the marking scheme for an infectious self-esteem, a contagious self-assurance and an uncommon confidence

The Confidence Effect Grace Killelea,2016-01-06 In the twenty-first-century workplace, women are encouraged to step up, lean in, take charge, go for it . . . yet how much has actually changed regarding the makeup of leadership when it comes to adding women's voices? While it's easy to still blame a corporate culture that favors men, seasoned executive Grace Killelea identifies another culprit: a surprising disparity in confidence--with men typically prone to overestimate their abilities, and women too often selling themselves short. For real change to take place within the workforce when it comes to adding more women's voices within leadership, we must get beyond knowing that we simply have the ability as women to speak out, take risks, and fill leadership positions; we must become more confident that we can do those things with excellence!The Confidence Effect moves beyond research, statistics, and cheerleading, and focuses on what's really important: how women can become more confident, one step at a time. While developing the four Rs of Success--relationships, reputation, results, and resilience--women will learn how best to:• Build circles of influence• Seize opportunities they normally avoid• Leverage and promote

their skills• Cultivate executive presence• Bounce back from setbacks• And moreYou've been encouraged to get in the game your entire life, yet you remain on the sidelines. Why? Become more confident in who you are and what you can do, and claim the success you deserve!
