Total Rebecca Miller, 2022-07-12 Rebecca Miller returns to short fiction for the first time since her prodigious collection of stories, *Personal Velocity*, with the arresting, darkly prescient *Total*. From Dublin to Martha's Vineyard, from the anxious comforts of motherhood to a technologically infected near future that mirrors today with dark prescience, each of the seven stories in *Total* is a world of its own, painted with vivid strokes, whose people and questions stay with the reader long after the story has ended. Joad, one of the first characters we meet, finds onionskin pages crammed in a locked desk drawer while refurbishing a Hudson Valley farmhouse; the terrifying words on the fragile paper haunt Joad and her husband, the woman who wrote them looming over the couple like a malevolent spirit. Her words embody the power of the act of creation and the insidious, untamable force of language once it has left one's pen. The author of *The Private Lives of Pippa Lee* and *Jacob's Folly*, as well as an award-winning filmmaker, Miller has "the soaring eye of the epicist and the sly instinct of the satirist" (*The New Yorker*), and her talents are on full display in *Total*. Each voice and life captured in these haunting stories is unforgettable.

Total Leadership Stewart Friedman, 2014-08-19 National Bestseller "Students talk about Stewart D. Friedman, a management professor at the Wharton School, with a mixture of earnest admiration, gratitude and rock star adoration." —*New York Times* In this national bestseller, Stew Friedman gives you the tools you need to achieve "four-way wins"—improved performance in all domains of life: work, home, community, and self. Friedman, celebrated professor and founding director of the Wharton School's Leadership Program and its Work/Life Integration Project, explains how three simple yet potent principles—be real, be whole, and be innovative—can help you, no matter what your age or what you do for work, become a better leader and have a richer life. In this engaging adaptation of his hands-on Wharton course, he offers step-by-step instruction to help you create positive, sustainable change in your world. This proven, programmatic method teaches you how to produce stronger results at work, find clearer purpose, feel less stressed, strengthen connections with the people who matter most to you, contribute further to important causes, and gain greater support for your vision of your future. If you're ready to learn to lead in all parts of your life—this is the book for you. For a full array of *Total Leadership* tips and tools, visit totalleadership.org. Also look for Stew Friedman's book, *Leading the Life You Want*, which builds on *Total Leadership* by profiling well-known leaders—from Bruce Springsteen to Michelle Obama—who exemplify its principles and demonstrate how success in your work is accomplished not at the expense of the rest of your life, but as the result of meaningful attachments to all its parts.

Total Power Vince Flynn, Kyle Mills, 2020-09-15 "One of the best thriller writers on the planet." —*The Real Book Spy* In the next thriller in the #1 *New York Times* bestselling Mitch Rapp series, it's a race against the clock when ISIS takes out the entire US power grid and throws the country into chaos. When Mitch Rapp captures ISIS's top technology expert, he reveals that he was on his way to meet a man who claims to have the ability to bring down America's power grid. Rapp is determined to eliminate this shadowy figure, but the CIA's trap fails. The Agency is still trying to determine what went wrong when ISIS operatives help this cyber terrorist do what he said he could—plunge the country into darkness. With no concept of how this unprecedented act was accomplished, the task of getting the power back on could take months. Perhaps even years. Rapp and his team embark on a desperate search for the only people who know how to repair the damage—the ones responsible. But his operating environment is like nothing he's experienced before. Computers and communication networks are down, fuel can no longer be pumped from gas stations, water and sanitation systems are on the brink of collapse, and the supply of

food is running out. Can Rapp get the lights back on before America descends irretrievably into chaos? This compulsive thriller proves once again that the Mitch Rapp series is “the best of the best when it comes to the world of special ops” (Booklist, starred review).
