Across The Reef: The Marine Assault of Tarawa Joseph H. Alexander, 2016-07-19 In August 1943, to meet in secret with Major General Julian C. Smith and his principal staff officers of the 2d Marine Division, Vice Admiral Raymond A. Spruance, commanding the Central Pacific Force, flew to New Zealand from Pearl Harbor. Spruance told the Marines to prepare for an amphibious assault against Japanese positions in the Gilbert Islands in November. The Marines knew about the Gilberts. The 2d Raider Battalion under Lieutenant Colonel Evans F. Carlson had attacked Makin Atoll a year earlier. Subsequent intelligence reports warned that the Japanese had fortified Betio Island in Tarawa Atoll, where elite forces guarded a new bomber strip. Spruance said Betio would be the prime target for the 2d Marine Division.

Feng Shui Modern Cliff Tan, 2022-01-20 The ancient practice of feng shui is uncovered in this simple and practical guide, revealing the tools that will lead to a healthier, happier home for every budget. How do you place a bed in an awkward room? How can your space help you be more focused and more productive? How do you set up your room to make you ready for romantic love? It's simple! In *Feng Shui for Modern Living*, TikTok influencer Cliff Tan answers these questions and more, explaining the ancient practice of feng shui and how it can be translated to modern homes. Cliff has become an internet sensation with his videos demonstrating the principles of feng shui, and in this practical guide he shows how to apply these principles room-by-room in your own home. He takes you behind the mysticism to reveal the logic behind feng shui. This is the key to unlocking the power of this ancient practice: once you understand the logic, your application of feng shui will work every time. There is no room too challenging, no problem that feng shui can't unravel. That's why people have been using it for thousands of years. In the tradition of Marie Kondo and Mrs Hinch, this guide will revolutionise how you think about your space. It's feng shui made simple, and anyone can learn.

The Age of Em Robin Hanson, 2016-05-13 Robots may one day rule the world, but what is a robot-ruled Earth like? Many think the first truly smart robots will be brain emulations or ems. Scan a human brain, then run a model with the same connections on a fast computer, and you have a robot brain, but recognizably human. Train an em to do some job and copy it a million times: an army of workers is at your disposal. When they can be made cheaply, within perhaps a century, ems will displace humans in most jobs. In this new economic era, the world economy may double in size every few weeks. Some say we can't know the future, especially following such a disruptive new technology, but Professor Robin Hanson sets out to prove them wrong. Applying decades of expertise in physics, computer science, and economics, he uses standard theories to paint a detailed picture of a world dominated by ems. While human lives don't change greatly in the em era, em lives are as different from ours as our lives are from those of our farmer and forager ancestors. Ems make us question common assumptions of moral progress, because they reject many of the values we hold dear. Read about em mind speeds, body sizes, job training and career paths, energy use and cooling infrastructure, virtual reality, aging and retirement, death and immortality, security, wealth inequality, religion, teleportation, identity, cities, politics, law, war, status, friendship and love. This book shows you just how strange your descendants may be, though ems are no stranger than we would appear to our ancestors. To most ems, it seems good to be an em.
