*In the War Zone of the Heart* John Lantigua, 2022-09-30 In the title story of this collection, detective Willie Cuesta is on a stakeout in a singles bar, tracking an errant husband, when he gets a call about a potential case. The next day, he meets Isabel Guevara, who is originally from Nicaragua. Her twin sons fought on opposite sides of that country's civil war; one in the army, the other with the contra rebels. They both survived, but their feud didn't end with the conflict. And now, word has it that the one who remained behind is on his way to Miami to kill his brother! Willie has no idea how he will prevent a bloody confrontation, but he agrees to try. This collection of twelve stories featuring private investigator Willie Cuesta illuminates the histories and issues of the numerous Latin American communities that call Miami home—and how the past continues to haunt them. There's a family concerned that their mother's new fiancé isn't the former Cuban political prisoner and hero he claims to be; a heavily tattooed Salvadoran gang member in hiding from the vicious former colleagues hunting him; a beautiful Haitian woman being stalked by a killer who uses voodoo to stoke her nightmares; and a wealthy American who made his fortune in Guatemala on the backs of its people and is now receiving death threats from his victims! The impact of civil war, revolution, corruption and criminal violence crash ashore in these stories set in South Florida. Whether Willie is doing surveillance in salsa clubs, interviewing clients over cafecitos in Little Havana or on a fishing boat in the Gulf, his attempts to find justice for clients are always enlightening and exciting. An Edgar Award finalist and Shamus Award nominee, John Lantigua served as a foreign correspondent in Latin America, and his investigator, a former Miami Police Department detective, appears

in a series of stand-alone novels.

**The Bronze Age Towers at Bat, Sultanate of Oman** Christopher P. Thornton, 2016 In the third millennium B.C.E., the Oman Peninsula was the site of an important kingdom known in Akkadian texts as Magan, which traded extensively with the Indus Civilization, southern Iran, the Persian Gulf states, and southern Mesopotamia. Excavations have been carried out in this region since the 1970s, although the majority of studies have focused on mortuary monuments at the expense of settlement archaeology. While domestic structures of the Bronze Age have been found and are the focus of current research at Bat, most settlements dating from the third millennium B.C.E. in Oman and the U.A.E. are defined by the presence of large, circular monuments made of mudbrick or stone that are traditionally called towers. Whether these so-called towers are defensive, agricultural, political, or ritual structures has long been debated, but very few comprehensive studies of these monuments have been attempted. Between 2007 and 2012, the University of Pennsylvania Museum of Archaeology and Anthropology conducted excavations at the UNESCO World Heritage Site of Bat in the Sultanate of Oman under the direction of the late Gregory L. Possehl. The focus of these years was on the monumental stone towers of the third millennium B.C.E., looking at the when, how, and why of their construction through large-scale excavation, GIS-aided survey, and the application of radiocarbon dates. This has been the most comprehensive study of nonmortuary Bronze Age monuments ever conducted on the Oman Peninsula, and the results provide new insight into the formation and function of these impressive structures that surely formed the social and political nexus of Magan's kingdom.

*Harbour Terror* Steve Ahern,2008-11-20 Terrorists and spies infiltrate Luke's ordinary teenage life as he is drawn into a fanatical plot to kill the heir to Britain's throne and blow up one of Sydney's greatest icons. When Luke volunteered as an announcer on a community radio show he could never have known he would become part of events that could destroy his whole way of life. Terrorist or freedom fighters? Is

the media a pawn or a player in the game of international politics? Luke discovers things are not always black and white as he struggles to work out which side is right. The twists and turns in this story, as Luke discovers there is always a bigger picture than you can see at the time, lead him into a web of espionage while he struggles to come to terms with his anger and adolescence.

*Expressive Painting with Anne-Marie Esson* Anne-Marie Esson, 2007 Anne-Marie Esson--painter, instructor, and host of the Public Television series *Painting with Anne-Marie*--takes the intimidation out of a blank canvas! She has developed an amazingly effective step-by-step painting method that can teach any interested student how to create stylish works of art. The process begins with sketches of the subject, followed by a color wash. Then, layer shadows to add depth; bring the image to life with highlights; and finish up with painted accents. Each skill is extensively explained, and seven complete paintings (two floral still lifes and a seaside landscape, beach scene, boat, harbor, and lighthouse) are shown with the key stages stepped out to clarify the techniques. In addition, there's advice on setting up a proper workstation and creative exercises for inspiration.

This chapter demonstrates automation in the regulation of the greenhouse environment to crop production methods with emphasis on robotics in harvesting to transporting, grading, and packing equipment. The use of retractable roof structures in tropical, humid climates is an alternative for growing greenhouse crops. A new chapter 14 describes vertical indoor farming. **Cell Tower** Steven E. Jones,2020-03-19 Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. Cropping up everywhere, whether steel latticework or tapered monopoles, encrusted with fiberglass antennas, cell towers raise up high into the air the communications equipment that channels our calls, texts, and downloads. For security reasons, their locations are never advertised. But it's our romantic notions of connectivity that hide them in plain sight. We want the network to be invisible, ethereal, and ubiquitous. The cell tower stands as a challenge to these desires. Object Lessons is published in partnership with an essay series in the The Atlantic.

Thomas Hardy's Vision of Wessex S. Gatrell,2003-11-03 Wessex did not spring full-born from Hardy's imagination when he began to write. The first part of the book reveals in detail how Wessex became what it is, geographically, socially and culturally, beginning with his first poem in the 1860s and ending with Winter Words, his last collection of verse. The second (briefer) part is an account of the impact of Hardy's vision of Wessex on twentieth-century English culture, offering an explanation for Hardy's endurance as a

popular novelist.
