In The Toy Box Sal Panicci, 2022-11-17 Try retail. They never lay you off, said a very good friend of mine whose perspective I respected since he was going to be a millionaire by the time he was thirty-five. So began my more-than-thirty-year journey of fun and frolic in the service to mankind--and mankind does so want to be serviced. I said goodbye to an eight thirty to five with an hour for lunch corporate life and hello to the employment ad titled Major Retailer. I was bright. I was energetic. I was dependable. I was individual enough to succeed. I embodied all the skills and personal traits required for the job. I wrote my cover letter, singing my praises just enough without coming off as a braggart. I listed all my corporate accomplishments. I felt that eventually I could regain a future in the corporate world, but by nature, I wasn't really a desk person. I need to move and be physical. On the same day, three weeks after mailing my resume to the major retailer, I heard two sets of fate-filled words: We will have your last check ready in two weeks (from my New Jersey Unemployment contact) and Salvatore? Hi, I'm Joe Cortez. You answered an ad in The Star-Ledger for a training program. I'd like you to come in so we can explore your options. My Unemployment appointment was at 9:00 a.m., and the other words were uttered at 8:00 p.m. That 8:00 p.m. phone call should have given me a hint of the amount of hours required that were in store for me (in store), but I had never worked in retail. The truth was, at this point in my career, I didn't have a future in the corporate world. I hadn't for the past six months. And now, since my unemployment was about to run out, I made the appointment. The major retailer, I discovered, was ToysRUs. Joe said I had a future. He was correct. My association with TRU lasted more than twenty-five years, and it has now made me a published author as well. I hope you enjoy In the Toy Box, this first part of my ToysRUs journey.

Who's Raising the Kids? Susan Linn, 2022-09-13 From a world-renowned expert on creative play and the impact of commercial marketing on children, a timely investigation into how big tech is hijacking childhood--and what we can do about it "Engrossing and insightful . . . rich with details that paint a full portrait of contemporary child-corporate relations." --Zephyr Teachout, The New York Times Book Review Even before COVID-19, digital technologies had become deeply embedded in children's lives, despite a growing body of research detailing the harms of excessive immersion in the unregulated,

powerfully seductive world of the “kid-tech” industry. In the “must read” (Library Journal, starred review) *Who’s Raising the Kids?*, Susan Linn—one of the world’s leading experts on the impact of Big Tech and big business on children—weaves an “eye-opening and disturbing exploration of how marketing tech to children is creating a passive, dysfunctional generation” (Kirkus Reviews, starred review). From birth, kids have become lucrative fodder for tech, media, and toy companies, from producers of exploitative games and social media platforms to “educational” technology and branded school curricula of dubious efficacy. Written with humor and compassion, *Who’s Raising the Kids?* is a unique and highly readable social critique and guide to protecting kids from exploitation by the tech, toy, and entertainment industries. Two hopeful chapters—“Resistance Parenting” and “Making a Difference for Everybody’s Kids”—chart a path to allowing kids to be the children they need to be.

The SAGE Encyclopedia of Economics and Society Frederick F. Wherry, Juliet B. Schor, Consulting Editor, 2015-09-01 Economics is the nexus and engine that runs society, affecting societal well-being, raising standards of living when economies prosper or lowering citizens through class structures when economies perform poorly. Our society only has to witness the booms and busts of the past decade to see how economics profoundly affects the cores of societies around the world. From a household budget to international trade, economics ranges from the micro- to the macro-level. It relates to a breadth of social science disciplines that help describe the content of the proposed encyclopedia, which will explicitly approach economics through varied disciplinary lenses. Although there are encyclopedias of covering economics (especially classic economic theory and history), the SAGE Encyclopedia of Economics and Society emphasizes the contemporary world, contemporary issues, and society. Features: 4 volumes with approximately 800 signed articles ranging from 1,000 to 5,000 words each are presented in a choice of print or electronic editions Organized A-to-Z with a thematic Reader's Guide in the front matter groups related entries Articles conclude with References & Future Readings to guide students to the next step on their research journeys Cross-references between and among articles combine with a thorough Index and the Reader's Guide to enhance search-and-browse in the electronic version Pedagogical elements include a Chronology of Economics and Society, Resource Guide, and Glossary This academic, multi-author reference work will serve as a general, non-technical resource for students and researchers within social science programs who seek to better understand economics through a contemporary lens.

Appified Jeremy W Morris, Sarah Murray, 2018-10-23 Snapchat. WhatsApp. Ashley Madison. Fitbit. Tinder. Periscope. How do we make sense of how apps like these—and thousands of others—have embedded themselves into our daily routines, permeating the background of ordinary life and standing at-the-ready to be used on our smartphones and tablets? When we look at any single app, it's hard to imagine how such a small piece of software could be particularly notable. But if we look at a collection of them, we see a bigger picture that reveals how the quotidian activities apps encompass are far from banal: connecting with friends (and strangers and enemies), sharing memories (and personally identifying information), making art (and trash), navigating spaces (and reshaping places in the process). While the sheer number of apps is overwhelming, as are the range of activities they address, each one offers an opportunity for us to seek out meaning in the mundane. *Appified* is the first scholarly volume to examine individual apps within the wider historical and cultural context of media and cultural studies scholarship, attuned to issues of politics and power, identity and the everyday.
