After traveling in stasis for years across the interstellar void, Robert Vasquez lands on the planet Sonik orbiting the Procyon star system. His personal mission is to educate the natives of what some consider a backwater world. In this pursuit, he soon runs afoul of the local human ambassador Garth Knight, who wants to keep the natives ignorant--and easier to subjugate. Robert recruits several natives to his cause, but some oppose him, including a large band of renegades bent on galactic conquest. They harbor secrets about Sonik beyond the knowledge of most other natives. Yet Robert has learned even deeper secrets buried in the planet's ancient archives. In the process, he also acquires unusual companions among the native fairies and tarlocks. How far will Robert bend the rules to succeed on his mission? Can education and technology triumph over bureaucracy and imperialism? Illustrations inside. Man V. Nature Diane Cook, 2014-10-07 A refreshingly imaginative, daring debut collection of stories that illuminates with audacious wit the complexity of human behavior, and the veneer of civilization over our darkest urges. Told with perfect rhythm and unyielding brutality, these stories expose unsuspecting men and women to the realities of nature, the primal instincts of man, and the dark humor and heartbreak of our struggle to not only thrive, but survive. In *Girl on Girl*, a high school freshman goes to disturbing lengths to help an old friend. An insatiable temptress pursues the one man she can't have in *Meteorologist Dave Santana*. And in the title story, a long-fraught friendship comes undone when three buddies get impossibly lost on a lake it is impossible to get lost on. Below the quotidian surface of Diane Cook's worlds lurks an unexpected surreality that reveals our most curious, troubling, and bewildering behavior. Other stories explore situations pulled directly from the wild, imposing on human lives the danger, tension, and precariousness of the natural world: a pack of not-needed boys takes refuge in a murky forest where they compete against one another for their next meal; an alpha male is pursued through city streets by murderous rivals and desirous women; helpless newborns are snatched from their suburban yards by a man who stalks them. Through these characters Cook asks: What is at the root of our most heartless, selfish impulses? Why are people drawn together in such messy, needful ways? When the unexpected intrudes upon the routine, what do we discover about ourselves? As entertaining as it is dangerous, this accomplished collection explores the boundary between the wild and the civilized, where nature acts as a catalyst for human drama and lays bare our vulnerabilities, fears, and desires.

Unexpected Gifts Christopher L Heuertz, 2013-01-08 In this heartfelt and thoughtful book, Christopher Heuertz writes of the dangers of isolation, the challenges we face when we join together and the struggles and joys that

emerge from genuine community bonding. “Ironically, as much as we yearn for deep friendships and meaningful communities, many of us seem to be unable to find our way into them. Even if we know we’re made for community, finding one and staying there seems almost impossible. Though we hate to admit it, if we stay long enough in any relationship or set of friendships, we will experience failure, doubt, burnout, loneliness, transitions, a loss of self, betrayal, frustration, a sense of entitlement, grief, and weariness. Yet it’s these painful community experiences, these tensions we struggle to navigate, that hold surprising gifts.” –FROM THE PREFACE IN A STRIKINGLY confessional tone and vividly illustrated through story, *Unexpected Gifts* names eleven inevitable challenges that all friendships, relationships, and communities experience if they stay together long enough. Rather than allowing these challenges to become excuses to leave, Chris Heuertz suggests that things like betrayal, transitions, failure, loss of identity, entitlement, and doubt may actually be invitations to stay. And if we stay, these challenges can become unexpected gifts. *** Betrayal, failure, loss of identity, doubt. If your relationships have suffered from any of these pitfalls, this book will show you that staying together can create something more—even something beautiful. IN THIS HEARTFELT and thoughtful book, Christopher Heuertz writes of the dangers of isolation, the challenges we face when we join together, and the struggles and joys that emerge from genuine community bonding. Whether readers are forming a new community, searching for deeper community, or participating in a longtime community, they will find inspiration, caution, guidance, and encouragement as they discover the beauty of pressing in to the ambiguities of growing relationships in this tender and honest testimony about how we are woven together by grace.

Texts from Bennett Mac Lethal, 2013-09-03 A family story for the twenty-first century, based on the phenomenally popular *Texts from Bennett* Tumblr blog, this epistolary novel chronicles the year that Bennett and the rest of his freeloading family moved into his cousin Mac's household. Hardworking Kansas City rapper Mac Lethal has a problem, and its name is Bennett. His wannabe gangsta cousin is seventeen, uses drugs and foul language, claims to be 13 percent black, and swears he speaks da female language. (Strangely that last one sort of seems true.) But as different as they are, when Bennett and his mom lose their home, Mac's got their backs. They're family after all. Sure, it takes patience to live with the eternally smoked-out Bennett and the pill-popped Aunt Lily, but he can handle it. You know who can't? Mac's very pretty, very WASPy, very uptight girlfriend. So as his once-peaceful household gets completely crazy, Mac learns that wanna-be-Crips are thicker than water, that his little cousin—flawed, irreverent, and basically a Saturday morning cartoon gone horribly wrong—has become his mentor, and that he really has no idea what's up with girls.

Dog Gone Pauls Toutonghi, 2017-04-04 The true story of a lost dog's journey and a family's furious search to find him before it is too late. Along the way, a father and son discover their own lost bond. Suspenseful, heartbreaking, and ultimately life-affirming, *Dog Gone* shows us the way heroism can assert itself in the little things we do each day. • Soon to be a Netflix Film Starring Rob Lowe. October 10, 1998. Fielding Marshall is hiking on the Appalachian Trail. His beloved dog—a six-year-old golden retriever mix named Gonker—bolts into the woods. Just like that, he's vanished. And Gonker has Addison's disease. If he's not found in twenty-three days, he will die.

Dog Gone is the story of the Marshall family—Fielding and his parents, John and Virginia—and their epic hunt to track down Gonker. As their search continues, covered by news outlets and drawing in the community at large, old wounds reemerge, threatening to undo the Marshalls—but also presenting the opportunity for long-overdue healing.

Sia Martinez and the Moonlit Beginning of Everything Raquel Vasquez Gilliland, 2020-08-11 “In a world where we are so often dividing ourselves into us and them, this book feels like a kind of magic, celebrating all beliefs, ethnicities, and unknowns.” —The New York Times Book Review Aristotle & Dante Discover the Secrets of the Universe meets Roswell by way of Laurie Halse Anderson in this astonishing, genre-bending novel about a Mexican American teen who discovers profound connections between immigration, folklore, and alien life. It’s been three years since ICE raids and phone calls from Mexico and an ill-fated walk across the Sonoran. Three years since Sia Martinez’s mom disappeared. Sia wants to move on, but it’s hard in her tiny Arizona town where people refer to her mom’s deportation as “an unfortunate incident.” Sia knows that her mom must be dead, but every new moon Sia drives into the desert and lights San Anthony and la Guadalupe candles to guide her mom home. Then one night, under a million stars, Sia’s life and the world as we know it cracks wide open. Because a blue-lit spacecraft crashes in front of Sia’s car...and it’s carrying her mom, who’s very much alive. As Sia races to save her mom from armed-quite-possibly-alien soldiers, she uncovers secrets as profound as they are dangerous in this stunning and inventive exploration of first love, family, immigration, and our vast, limitless universe.

Chickens in the Road Suzanne McMinn, 2014-10-07 Suzanne McMinn, a former romance writer and founder of the popular blog chickensintheroad.com, shares the story of her search to lead a life of ordinary splendor in Chickens in the Road, her inspiring and funny memoir. Craving a life that would connect her to the earth and her family roots, McMinn packed up her three kids, left her husband and her sterile suburban existence behind, and moved to rural West Virginia. Amid the rough landscape and beauty of this rural mountain country, she pursues a natural lifestyle filled with chickens, goats,

sheep—and no pizza delivery. With her new life comes an unexpected new love—52, a man as beguiling and enigmatic as his nickname—a turbulent romance that reminds her that peace and fulfillment can be found in the wake of heartbreak. Coping with formidable challenges, including raising a trio of teenagers, milking stubborn cows, being snowed in with no heat, and making her own butter, McMinn realizes that she's living a forty-something's coming-of-age story. As she dares to become self-reliant and embrace her independence, she reminds us that life is a bold adventure—if we're willing to live it. *Chickens in the Road* includes more than 20 recipes, craft projects, and McMinn's photography, and features a special two-color design.
