Chicago's Lost "L"s David Sadowski,2021-07-12 Chicago's system of elevated railways, known locally as the L, has run continuously since 1892 and, like the city, has never stood still. It helped neighborhoods grow, brought their increasingly diverse populations together, and gave the famous Loop its name. But today's system has changed radically over the years. Chicago's Lost Ls tells the story of former lines such as Garfield Park, Humboldt Park, Kenwood, Stockyards, Normal Park, Westchester, and Niles Center. It was once possible to take high-speed trains on the L directly to Aurora, Elgin, and Milwaukee, Wisconsin. The L started out as four different companies, two starting out using steam engines instead of electricity. Eventually, all four came together via the Union Loop. The L is more than a way of getting around. Its trains are a place where people meet and interact. Some say the best way to experience the city is via the L, with its second-story view. Chicago's Lost Ls is virtually a secret history of Chicago, and this is your ticket.

CTA at 45 George Krambles,Arthur H. Peterson,1993 This book is a book for historians, transit professionals, urban planners, & rail & bus buffs. It shares valuable insights for political & financial decision makers who manage urban transportation. It is a case study of how transit meets the dynamics of a changing urban life. In Chicago, public ownership was adopted in 1947 when Chicago Transit Authority, using revenue bond money, bought out the bus, streetcar & rapid transit companies. Initially CTA was funded entirely from fares. CTA's pioneering Skokie Swift in 1964 was an innovative example of using then meager public funds for a demonstration project. It was successful. Not only did it foreshadow today's light rail transit systems, it also showed a new way to fund beneficial public transit projects. In the 1970s, public money began to support transit operations area-wide. This was not enough. Age-old problems continued. In 1993, public transit nationwide faces major crises. The challenge of public transit--successes & disappointments--is recounted in this 144-page illustrated book by George Krambles & Art Peterson. Together they bring a wealth of experience to the reader. Krambles has served in public transit since 1936 & Peterson since 1970.
