Assured Access to Space United States. Congress. House. Committee on Science and Technology. Subcommittee on Space Science and Applications,1987

Chinese Space Policy Roger Handberg,Zhen Li,2006-11-29 This volume explains the beginnings and expansion of China's space program, analyzing how China is now able to hold such ambitions and how the interaction between technology, politics and economics has influenced the Chinese space program. It opens by tracing out the earlier development of the space program and identifying the successes and problems that plagued this initial effort, later focusing upon its development over the past decade and into the future. As China is now able to reach into outer space with its machines and, since 2003, with its humans, the authors examine how this move from a non-participant status to a state operating at the highest level of space activities has confirmed its potential place as the new economic and military superpower of the twenty-first century. They also demonstrate how recent successes mean that China is now confronted by an issue previously encountered by other space 'powers', such as the United States and the former Soviet Union: what is the value of the space program, given its high costs and likelihood of dramatic failure? Chinese Space Policy will be of great interest to students of space studies, Chinese politics, security studies, and international relations in general.

Space Patrol Jean-Noel Bassior,2015-05-07 Before Star Trek, there was Space Patrol. Science fiction television has its roots in this live, action-packed series that captured the imagination of Americans from 1950 to 1955, when space travel was just a dream. This book explores the freewheeling spirit of live TV, where anything could go wrong before millions of viewers—and often did. It spotlights (often in personal interviews) the risk-taking Space Patrol cast and crew who laid vital groundwork for television today. Included are episode logs for both television and radio shows as well as a complete guide to Space Patrol

memorabilia.

Zaloga,2011-07-20 The HMMWV, better known as the Humvee or Hummer, has set the world standard for army tactical vehicles since its introduction into the US Army in the 1980s. This book traces the development and use of the Humvee and its variations, including the latest families of armored Humvees used in Iraq in 2003–05, and its adoption in a peacekeeping role the world over.

Is Shame Necessary? Jennifer Jacquet, 2016-01-12 An urgent, illuminating exploration of the social nature of shame and of how it might be used to promote large-scale political change and social reform. “[Jacquet] exposes the ways shame plays into collective ideas of punishment and reward, and the social mechanisms that dictate the ways we dictate our behavior.” —The Boston Globe Examining how we can retrofit the art of shaming for the age of social media, Jennifer Jacquet shows that we can challenge corporations and even governments to change policies and behaviors that are detrimental to the environment.
