Hiking and Biking Peru's Inca Trails William

Janecek, 2013-07-15 Guidebook to hiking and mountain biking in the Sacred Valley of Peru, including the Inca Trail. 40 routes (7 to Machu Picchu) visiting all major Incan sites discovered from Cusco, Urubamba, Ollantaytambo, Vilcabamba and in the remote region around Mount Ausangate. The routes are graded for difficulty, and most routes can be done on foot or by mountainbike and timings are given for each, as well as advice on whether it is preferable to undertake a particular route with a local guide or trekking agency, in the less well-known areas. The guidebook includes practical information on getting to and around the area, how to make the most out of any trip as well as plenty of background detail on the Incan history and places of interest explored on the routes. The Andes are the second highest mountain range in the world, after the Himalaya, but they have the most spectacular range of altitude - from 6000m down to just above sea level - making for some thrilling MTB descents on ancient Incan roads. The area also has a spectacular collection of ancient Incan sites, with new sites yet to be uncovered, and is still farmed by the direct descendants of the Incas, often seen in their colourful traditional dress in the local villages.

Hiking and Cycling in the Black Forest Kat

Morgenstern,2024-01-11 15 day walks, 3 multi-stage treks and 5 cycle routes are described covering the north, central and southern areas of Germany's Black Forest. The walks and cycle routes are evenly distributed across all three areas and comprise both long distance routes and day walks, although each stage of every long distance walk can also be done as individual day tour. The chosen routes include the main Black Forest destinations, such as Feldberg, Belchen Schauinsland, Hornisgrinde and Mummelsee, as well as Allerheiligen Abbey and waterfalls and the source of the Danube, to name but a few. Two of the three long distance routes are certified quality trails: Schluchtensteig (120km), which means gorge trail traverses the Wutachschlucht, one of the last untamed river systems in Germany, and Zweitalersteig (108km) a highly diverse circular route which leads through some of the most beautiful and contrasting parts of the Central Black Forest. Seensteig (71km) partially follows the central ridge of the Black Forest mountain range, offering unsurpassed views along the way. The cycle routes (4 day rides, and the 242km Southern Black Forest Cycle Route) are mostly easy and scenic, and utilise the extensive and well-maintained bicycle trail system that criss-crosses the entire region. The walks and rides are described in detail and basic maps are provided for orientation.
