Discovering Griffith Park Casey Schreiner,2020-05-07 People all over the world have seen Los Angeles's famed Hollywood sign and the iconic domed Griffith Observatory. Both are part of Griffith Park, a place visited by more than 10 million people each year--more than Yosemite and Grand Canyon National Parks combined. Rugged and vast, the 4,511-acre Griffith Park encompasses a sprawling 70-mile long network of trails, ranging from paved paths through manicured landscapes to challenging ridgeline climbs, and is a destination for hikers, trail runners, cyclists, equestrians, picnickers, and museum-goers. It's a unique outdoor space in a city that is not well known for its outdoor amenities. Discovering Griffith Park uses the park's extensive trail network as an anchor to explore the park in full, whether on foot, wheel, or hoof. Readers will also find out where the best views of the Hollywood sign are, where they can catch free Shakespeare on summer evenings, and how to attend one of the legendary Los Angeles Breakfast Club meetings for good food, good friends, and a bit of early morning learning

A Gamut of Games Sid Sackson,1992 An expert on game history selects 38 of his favorite amusements, all of which can be played by children or adults with common items such as cards, dice, checkerboards, and pencil and paper.

Jack the Ripper Mike Fitzgerald,1998-09 A Different Ending Every Game For 2-4 players (Especially good for 2 players) Ages 10 to adult The case of Jack the Ripper is reopened in this innovative card game that combines the strategies of traditional rummy with the elements of an exciting mystery. Mystery Rummy is one of the best games around. It's totally addictive. Anyone who loves Rummy will enjoy it because it is basically Rummy with a few special cards. As a fellow game designer, Mystery Rummy is one of those games that immediately had me wondering why I hadn't thought of it It is the elegance of simplicity. -Alan R. Moon, Game Designer Game Includes: 62 Cards 36 Evidence Cards 25 Gavel Cards 1 Ripper Escapes Card 1 Instruction Booklet

Stacking the Deck Bryan Berg,2009-12-15 Written by the holder of several Guinness World Records for

cardstacking, this is the first complete, fully illustrated guide to the art of building mind-boggling, multilevel structures with ordinary playing cards. In *Stacking the Deck*, Bryan Berg reveals the secret to successful cardstacking with his simple four-card-cell structure and expanded grid techniques. Using illustrations and step-by-step instructions, he guides readers on to more elaborate -- and incredibly strong -- creations. He covers a wide range of architectural styles, from classic to whimsical, and various types of structures, including pyramids, shrines, stadiums, churches, an oil derrick, and even the Empire State Building. Since first setting the height record in 1992, Bryan's built awe-inspiring card models of a Japanese shrine, the Iowa State Capitol building, Ebbets Field, and his latest tower, which is more than twenty-five feet tall! This book includes photographs of some of these amazing pieces, illustrating just how appealing and enduring a house of cards can be. *Stacking the Deck* will inspire everyone from youngsters experimenting with their first deck of cards to adults, who can create their own private skyscrapers. Once you've read *Stacking the Deck*, you'll never look at a deck of cards the same way again.

Chris Crawford on Game Design Chris Crawford, 2003 *Chris Crawford on Game Design* is all about the foundational skills behind the design and architecture of a game. Without these skills, designers and developers lack the understanding to work with the tools and techniques used in the industry today. Chris Crawford, the most highly sought after expert in this area, brings an intense opinion piece full of personality and flare like no other person in this industry can. He explains the foundational and fundamental concepts needed to get the most out of game development today. An exceptional precursor to the two books soon to be published by New Riders with author Andrew Rollings, this book teaches key lessons; including, what you can learn from the history of game play and historical games, necessity of challenge in game play, applying dimensions of conflict, understanding low and high interactivity designs, watching for the inclusion of creativity, and understanding the importance of storytelling. In addition, Chris brings you the wish list of games he'd like to build and tells you how to do it. Game developers and designers will kill for this information!

The Greatest Lie Ever Told W. H. Uffington, 2011 *The Greatest Lie Ever Told* takes the reader on a historical voyage, using wit and logic to reveal the evidence of research that no one wanted you to see. The author reveals that Egypt had a monotheistic religion, not one with a pantheon of gods, gives the evidence to explain the Exodus, traces the Old and New Testaments back to Egypt, explains why most of the characters in the Old Testament are fictitious, shows that the original Jews did not migrate to a 'Promised Land, ' they were always there. Jews, Christians and Muslims have been grossly mislead about their religions. All three were perverted from their shared origins, by politics, avarice and greed. The greatest of these perversions is Christianity. Academics knew the truth but dared not publish it. Church leaders knew the truth about Jesus but lied to hide it. They know that Christianity is one of many monotheistic religions based on an identical theme and they carried out a ruthless and bloodthirsty campaign which has failed to eradicate the truth. The author proves his allegations, presents truth not speculation and shows where the future path of the Church must lie. *The Greatest Lie Ever Told* isn't some

vague conjecture, it is a fact.
