Natural Light Julian Bell, 2023-05-19 Seventeenth-century Europe swirled with conjectures and debates over what was real and what constituted 'nature', currents that would soon gather force to form modern science. Natural Light deliberates on the eras uncertainties, as distilled in the work of painter Adam Elsheimer a short-lived, tragic German artist who has always been something of a cult secret. Elsheimer's diminutive, intense and mysterious narrative compositions related figures to landscape in new ways, projecting unfamiliar visions of space at a time when Caravaggio was polarizing audiences with his radical altarpieces and circles of natural philosophers early modern scientists were starting to turn to the new world system of Galileo. Julian Bell transports us to the spirited Rome of the 1600s, where Elsheimer and other young Northern immigrants notably his friend Peter Paul Rubens swapped pictorial and poetic reference points. Focusing on some of Elsheimer's most haunting compositions, Bell drives at the anxieties that underlie them a puzzling over existential questions that still have relevance today. Traditional themes for imagery are expressed with fresh urgency, most of all in Elsheimer's final painting, a vision of the night sky of unprecedented poetic power that was completed at a time of ferment in astronomy. Circulated through prints, Elsheimer's pictorial inventions affected imaginations as disparate as Rembrandt, Lorrain and Poussin. They even reached artists in Mughal India, whose equally impassioned miniatures expand our sense of what 'nature' might be. As we home in on artworks of microscopic finesse, the whole of the 17th-century globe and its perplexities starts to open out around us.

Clothed in Purple Light Frederick E. Brenk, 1999 In sum, an uneven collection (as would be and are most volumes of this sort), but this reader readily concurs with the judgment in the prefatory statement to this volume by Charles Segal - itself a model of how to phrase cautiously-restrained enthusiasm: there is something rewarding for every interested reader in each of these papers. Testi tristi Aurora Condina, 2021-10-17 "Testi tristi" nasce come rivincita. È un insieme di sentimenti che l'autrice prova nel pieno di una adolescenza triste, dietro la quale si cela l'inizio di una depressione. Criticata ben spesso per la malinconia dei suoi testi, decide di trasformarla nella sua forza. La scrittura le sarà d'aiuto a comprendere che una volta toccato il fondo, si può solamente risalire: sempre e comunque.

China's English Bob Adamson, 2004-04-01 This book traces the history of English education in the People's Republic of China from 1949 to the present day. It uses the junior secondary school curriculum as the means to examine how English curriculum developers and textbook writers have confronted the shifting ambiguities and dilemmas over five distinct historical periods. The study of the processes of curriculum development and the products such as syllabi and textbooks offers insights into the construction of an 'official' English, as well as what was considered as acceptable content in English. This book addresses fundamental and significant questions concerning the English promoted in China, namely its characteristics; its changes over time and explanations for such changes; and the kind of content that has been viewed as appropriate for textbooks. To investigate these issues, the analysis draws on qualitative and quantitative data, such as interviews with principal stakeholders and analysis of the syllabus and recommended textbooks. Specifically, it looks at the choice and organization of linguistic components, and the orientation and messages of the curriculum. "Language education in China during the second half of the twentieth century might arguably be called the world's largest language engineering project. In this comprehensive study, Dr Adamson examines a part of that project by charting the twists and turns of English language education from the pre-revolutionary period to the present. He successfully illustrates how tensions in China's massive educational system are negotiated from center to periphery, how textbook writers adapt to the socio-political mandates of their time to construct formal school curricula. Adamson also raises significant questions regarding the contradictions inherent in Chinese globalization." —Heidi Ross, Professor, Department of Educational Leadership and Policy Studies, School of Education, Indiana University at Bloomington "Bob Adamson has provided in this book one of the first detailed studies published in English of the history of a school subject in the PRC. The study provides fascinating insights into the changing nature of the English curriculum, the shifting socio-political context of the PRC and their complex inter-relationships." —Paul Morris, President, The Hong Kong Institute of Education "The learning of English is a crucial aspect of China's opening up to the world and increasingly prominent global role. This welcome volume provides an in-depth historical perspective on this important subject, including the recent periods of modernization (1978–1993) and globalization (1993 to the present). It should be compelling reading for all those involved with contemporary China across a wide spectrum of areas." —Ruth Hayhoe, University of Toronto; President Emerita, The Hong Kong Institute of Education

Beyond Aspect Doris L. Payne, Shahar Shirtz, 2015-12-15 Certain grammatical elements help hearers know how propositions are conceptually related: Does a given proposition advance the foregrounded event line, or not? Initiate versus continue an event chain? Indicate that one proposition belongs to a different mental space from the previous one? Provide background information? Studies in this volume show that African languages sometimes support, but often refute the idea that perfective aspect or past tense marks the narrative event line. Rather, languages may employ clause level constructions, conjunctions or connectives, tonal melodies on verbs or subjects, specialized auxiliaries, special verb forms and even dependent clause and imperfective aspect forms. Often, correlation of such grammatical elements with the event line is a subcase of a more general function. Analyses in this volume contribute to developing a typology of the expression of discourse functions, a field of research which has so far been minimally addressed from a typological perspective.

Light Over Shadow Tristi Berqual,2017-05-24 *Light Over Shadow* is a story that began more than twenty years ago with a piece of paper and pencil, a love of writing, and a dream of doing something more than average with my life. If successful I will leave behind something that will span generations long after I am gone. In some ways *Light Over Shadow* is my own life story and experiences, all mixed up and fictionalized. *Light Over Shadow* is a love story taking place within a far greater story of loss and despair, unexpected love, and ultimate survival and triumph. *Light Over Shadow* is a fictional novel that falls under the genres of Romance, Fantasy, Action, Adventure, Inspiration, and Spirituality.

Divagazioni tristi e allegre ma non troppo Luciano Fabbri,2015-06-20 Questa Raccolta, che fa seguito a quella della Intermittenza dell' Eco recentemente pubblicata, è il risultato di un lavoro di riordino di numerosi scritti dell'autore rimasti chiusi in un cassetto per oltre tre decenni. Pur contenendo composizioni risalenti agli stessi anni(1978- 1983), essa si differenzia dalla precedente per una tonalità complessiva più libera e, si potrebbe dire, anarchica. Le emozioni, i sentimenti e il vissuto in generale sono qui espressi in maniera più istintiva, senza mediazioni razionali e preoccupazioni stilistiche.
