American Medicine in Transition, 1840-1910 John S. Haller,1981 After a lifetime of moving and assuming new identities, sixteen-year-old Chass begins to piece together the disturbing past that haunts her and her mother and which involves a mysterious tape, a deceased popular singer, and the secrets of several people in a small Alabama town.

Textbook of Psychiatry Eugen Bleuler,1924

Revival: Textbook of Psychiatry (1924) Eugen Bleuler,2018-04-20 This book marked a notable advance in psychiatry in that it emphasizes sharply the contrast between the older descriptive psychiatry of Kraepelin and the newer interpretative psychiatry of the present time which utilizes the psychoanalytical principles and general biological viewpoints developed by Freud and his pupils in Europe and by Meyer, Hoch, White and others. As an introduction to the study of clinical psychiatry the physician and the student will find the chapters dealing with the principles of psychology and psychopathology particularly helpful and stimulating.

Distant Kinship Matthias N. Lorenz,2022-07-28 This study of Joseph Conrad's influential work *Heart of Darkness* presents for the first time the German-language reception of this reference text in the debate on postcolonialism. The spectrum ranges from Conrad's contemporaries (like Kafka) to many canonical authors of the 20th century (including Thomas Mann, Ernst Jünger, Christa Wolf) to the most recent names in literature (i.e. Christian Kracht und Lukas Bärfuss). Beyond the readings of their works, the study contributes to the study of cultural transfers as well as to Conrad philology, and it expands the theory of intertextuality with parameters that capture the complex factor of power in postcolonial relations.

Christian Kracht's Aesthetics Susanne Komfort-Hein,Heinz Drügh,2023-07-07 The contributions to this volume are devoted to Christian Kracht's aesthetics under two main aspects: On the one hand, with regard to sometimes irritatingly twisted actualizations of that self-reference and reservation which, since Kant, is to be evaluated as a central mode of the aesthetic; on the other hand, with regard to interferences with areas that are usually perceived as extra-aesthetic, but which can be evaluated as ferments of contemporary aesthetics: Stagings in the field of the literary establishment, the aesthetic under media and market conditions, and in the focus of canonization and criticism. Kracht's Frankfurt Poetics Lectures, which were intensively commented on by the media, form the background to this discussion.

Lion City Narratives: Singapore Through Western Eyes Victor R Savage,2021-11-18 *Lion City Narratives: Singapore Through Western Eyes* fulfils four aims. First, it is a study of subjective Western impressions of Singapore's 145 years (1819-1963) of colonial history. The study is not meant to be an in-depth historical analysis of Singapore, but rather to give the reader an impressionistic account of how Western residents viewed Singapore over the decades. Second, this study could be seen as a short biography of Singapore's evolution as a city. The chapters on the imageability of Singapore and its urban morphology provide a holistic perspective of Singapore's urban dynamics. Third, this book provides a cultural insight into Singapore's population, both White residents and transient visitors, as well as the locals or Asians. Fourth, it opens a window into Singapore's development at a time when the West was at its cultural zenith and when Great Britain was the principal superpower of the 19th century. Hence Singapore carried twin colonial legacies – it was the archetype trading emporium between East and West, and it became, for the British, the major point d'appui for defence. Finally, the Singapore colonial narrative is set in a broader academic discourse that allows the reader to see a wider picture of Singapore's colonial development. The book does not attempt to make a definitive statement about the Western involvement in Singapore; it deals more with an association of many subjective Western perspectives that add colour to the liveability of the tropics, perceptions of the exotic Orient, and the myriad views of ethnic groups. Without the Western writings, paintings, and maps, academia would have minimal records of Singapore's development. As a new colony in the early 19th century however, Singapore's growth has been extremely well documented. This book will appeal to Singaporeans interested in understanding Singapore's colonial past, Westerners interested in the Western cultural persona in the development of Singapore, researchers dealing with the urban development of less-developed countries and colonial development in the tropical world, and lastly, academics who are interested in Singapore and the region's political and economic development as a case study.

Darwin's Orchids Retha Edens-Meier,Peter Bernhardt,2014-11-05 A quorum of scientists offer reviews and results to celebrate the 150th anniversary of 'On The Various Contrivances By Which British And Foreign Orchids Are Fertilised By Insects, And On The Good Effects Of Intercrossing' (1862). Authors of the first ten chapters follow research on the pollination and breeding systems of the same orchid lineages that interested Darwin, including temperate and tropical species. Authors on the last two chapters provide information on the floral attractants and flowering systems of orchids using protocols and technologies unavailable during Darwin's lifetime.
