**Fi** Alexandra Fuller, 2024-04-09 From the award-winning New York Times-bestselling author of Don't Let's Go To The Dogs Tonight, Alexandra Fuller, comes a career defining memoir about grieving the sudden loss of her twenty-one-year-old child "Fair to say, I was in a ribald state the summer before my fiftieth birthday." And so begins Alexandra Fuller's open, vivid new memoir, *Fi*. It's midsummer in Wyoming and Alexandra is barely hanging on. Grieving her father and pining for her home country of Zimbabwe, reeling from a midlife breakup, freshly sober and piecing her way uncertainly through a volatile new relationship with a younger woman, Alexandra vows to get herself back on even keel. And then – suddenly and incomprehensibly - her son *Fi*, at 21 years old, dies in his sleep. No stranger to loss - young siblings, a parent, a home country - Alexandra is nonetheless leveled. At the same time, she is painfully aware that she cannot succumb and abandon her two surviving daughters as her mother before her had done. From a sheep wagon deep in the mountains of Wyoming to a grief sanctuary in New Mexico to a silent meditation retreat in Alberta, Canada, Alexandra journeys up and down the spine of the Rocky Mountains in an attempt to find how to grieve herself whole. There is no answer, and there are countless answers – in poetry, in rituals and routines, in nature and in the indigenous wisdom she absorbed as a child in Zimbabwe. By turns disarming, devastating

and unexpectedly, blessedly funny, Alexandra recounts the wild medicine of painstakingly grieving a child in a culture that has no instructions for it.

Is he imagining things? Or is his old friend killing women all over the country? Bob envies his former high school classmate, Jake Mallory, who climbs mountains and lives life like a college sophomore for all to see on social media. Bob, whose rare excitement comes mostly from arguing with Little League umpires, weeds through Facebook's whining, bragging and duck-face selfies to live vicariously through people like Jake - until his chilling discovery pulls him into the middle of the action. With no one willing to listen and police beginning to suspect Bob himself of murder, he must choose between the safety of his suburban cul de sac or a high-altitude confrontation.

**Myrtle Beach and the Grand Strand** Susan Hoffer McMillan,2004 Myrtle Beach and the Grand Strand have become the world's playground. What began over a century ago as local beach retreats between Little River and Georgetown have changed so dramatically that their history is endangered. Wide beaches, warm surf, and abundant wildlife ignited a resort phenomenon that now offers world-class hotels, dining, shopping, entertainment, and recreation. This volume retraces the area's progression from Myrtle Beach's humble beginning in 1901 through the middle years of the 20th century to beyond 1954, when Hurricane Hazel crushed the Grand Strand and determined owners rebuilt their resorts with strength and grandeur. Included among these 240 vintage images are scenes of early dance pavilions, favorite tourist venues, and quaint cottage hotels in old Myrtle Beach. There are yesteryear views of Murrells Inlet and the beaches of Surfside, Garden City, and Pawley's Island, and vintage photographs of Ocean Drive and surrounding beaches in North Myrtle Beach. Susan Hoffer McMillan, author of two vintage postcard histories on coastal South Carolina, delves deeply into the history of Myrtle Beach and the Grand Strand to share her fascination with its past through this unprecedented photograph collection. Whether you recall memories of places in this book or just seek to understand the evolution of Myrtle Beach and the Grand Strand, you will enjoy forgotten images that illuminate and preserve the past for future generations.

How to Climb Mount Everest with Your Boyfriend or Girlfriend, Without Dying or Killing Each Other (A Mountain Climbing Survival Story) Lacey Kohlmoos, 2012-03-04

ABOUT THE BOOK So you've decided to take the plunge - and quite a plunge, at that. You have decided to spend weeks trekking through the Khumbu region of Nepal, to stand at the foot of Mount Everest. And adding to the challenge, you have decided to do it with your significant other. As the two of you discussed taking on such an adventure, you were really excited. What a perfect way to bond as a couple and see some really cool stuff! But when the decision was officially made, you began to feel a little twinge of something. What was it: fear? Remorse? Guilt over the fear and remorse? Or perhaps it is just plain old dread. You and your boyfriend/girlfriend have never gone on a trip this long before. You have never even been alone for that long before. There have always been other things to distract you - work, friends, family, kickball, etc. And talk about the stress. You are both type-A control freaks from the city. And you expect to survive planning a trip together, let alone actually trekking over 100 miles for a month together? This is surely insanity! Or is it? MEET THE AUTHOR Lacey Kohlmoos is a writer, traveler and lover of the arts. After graduating from the University of Virginia with a BA in Drama & the Studies of Women and Gender, the only thing she knew for sure was that she wanted to travel. So, she embarked on a 10-12 month round-the-world trip, then traveled to Costa Rica where she spent one year teaching elementary school English in a small mountain town. Throughout her two years of travels, she's always kept a blog. EXCERPT FROM THE BOOK As for getting back in one piece physically, the key to an injury-free trek to Mount Everest is packing the right equipment and training your body for the physical stress of walking so long and far with weight on your back. Let me first say that my boyfriend and I did not train enough before going on the trek. The first day on the trail was probably one of the least demanding in distance and elevation gain, but it was one of the most painful. We did not injure ourselves only because we walked slower than any of the other trekkers that we encountered on the trail. You can take our approach - that you'll get into shape as you do the trek - but I recommend getting as many multi-day hikes in as you can before attempting the trek. As Kraig Becker writes on his blog Gadling, ...by getting yourself physically ready for the trek, you'll save yourself a lot of grief on the trail. Start training at least a couple months before your departure date so that you can gradually work up to longer hikes at higher altitudes with more weight on your back. This is also important for breaking in hiking boots if you decide to buy new ones... Buy a copy to keep reading! **Island Time** Jingle Davis,2013-06-01 Capturing the history and beauty of a key destination in the land of the Golden Isles... Eighty miles south of Savannah lies St. Simons Island, one of the most beloved seaside destinations in Georgia and home to some twenty thousand year-round residents. In *Island Time*, Jingle Davis and Benjamin Galland offer a fascinating history and stunning visual celebration of this coastal community. Prehistoric people established some of North America's first permanent settlements on St. Simons, leaving three giant shell rings as evidence of their occupation. People from other diverse cultures also left their mark: Mocama and Gule Indians, Spanish friars, pirates and privateers, British soldiers and settlers, German religious refugees, and aristocratic antebellum planters. Enslaved Africans and their descendants forged the unique Gullah Geechee culture that survives today. Davis provides a comprehensive history of St. Simons, connecting its stories to broader historical moments. Timbers for Old Ironsides were hewn from St. Simons's live oaks during the Revolutionary War. Aaron Burr fled to St. Simons after killing Alexander Hamilton. Susie Baker King Taylor became the first black person to teach openly in a freedmen's school during her stay on the island. Rachel Carson spent time on St. Simons, which she wrote about in *The Edge of the Sea*. The island became a popular tourist destination in the 1800s, with visitors arriving on ferries until a causeway opened in 1924. Davis describes the challenges faced by the community with modern growth and explains how St. Simons has retained the unique charm and strong sense of community that it is known for today. Featuring more than two hundred contemporary photographs, historical images, and maps, *Island Time* is an essential book for people interested in the Georgia coast. A Friends Fund publication.

PDFsam: Allows splitting, merging, and editing PDFs. Foxit Reader: Provides basic PDF viewing and editing capabilities. How do I compress a PDF file? You can use online tools like Smallpdf, ILovePDF, or desktop software like Adobe Acrobat to compress PDF files without significant quality loss. Compression reduces the file size, making it easier to share and download. Can I fill out forms in a PDF file? Yes, most PDF viewers/editors like Adobe Acrobat, Preview (on Mac), or various online tools allow you to fill out forms in PDF files by selecting text fields and entering information. Are there any restrictions when working with PDFs? Some PDFs might have restrictions set by their creator, such as password protection, editing restrictions, or print restrictions. Breaking these restrictions might require specific software or tools, which may or may not be legal depending on the circumstances and local laws.
