**Girls in Trouble with the Law** Laurie Schaffner, 2006-09-06 In *Girls in Trouble with the Law*, sociologist Laurie Schaffner takes us inside juvenile detention centers and explores the worlds of the young women incarcerated within. Across the nation, girls of color are disproportionately represented in detention facilities, and many report having experienced physical harm and sexual assaults. For girls, the meaning of these and other factors such as the violence they experience remain undertheorized and below the radar of mainstream sociolegal scholarship. When gender is considered as an analytic category, Schaffner shows how gender is often seen through an outmoded lens. Offering a critical assessment of what she describes as a gender-insensitive juvenile legal system, Schaffner makes a compelling argument that current policies do not go far enough to empower disadvantaged girls so that communities can assist them in overcoming the social limitations and gender, sexual, and racial/ethnic discrimination that continue to plague young women growing up in contemporary United States.

*The Wiley Handbook on What Works with Girls and Women in Conflict with the Law* Shelley L. Brown, Loraine Gelsthorpe, 2022-03-07 *The Wiley Handbook on What Works with Girls and Women in Conflict with the Law* The most practical discussion of the rehabilitation of girls and women in conflict with the law in the correctional arena *What Works with Girls and Women in Conflict with the Law* is the leading examination of evidence-based practice in the field of gender-responsive corrections. Adopting an international and intersectional approach, the distinguished authors seek to collect the best available data and thinking on what works with girls and women and apply it to the real-world problems facing correctional systems today. As part of its contextual and rich approach to the subject, *What Works with girls and women in conflict with the law*, covers a broad

variety of topics, ranging from theories of female involvement in crime, security classification and risk assessment, evidence-based treatment and supervision approaches, special populations (such as Indigenous women), to legal/policy developments in the field of gender-responsive corrections. Perfect for students and practitioners in the field of psychology, criminology, social work, criminal justice, and corrections, this is the only reference of its kind to focus on the practical applications of the latest theory.

Trouble with Girls Marshall Boswell,2004-04-27 In ten interconnected stories, Trouble with Girls features Parker Hayes--a likable guy looking for love and sex--at various points in his life, from junior high and high school to post-grad and thirtysomething living in the real world.

The Trouble with Boys Peg Tyre,2009-08-11 From the moment they step into the classroom, boys begin to struggle. They get expelled from preschool nearly five times more often than girls; in elementary school, they're diagnosed with learning disorders four times as often. By eighth grade huge numbers are reading below basic level. And by high school, they're heavily outnumbered in AP classes and, save for the realm of athletics, show indifference to most extracurricular activities.

Perhaps most alarmingly, boys now account for less than 43 percent of those enrolled in college, and the gap widens every semester! The imbalance in higher education isn't just a "boy problem," though. Boys' decreasing college attendance is bad news for girls, too, because admissions officers seeking balanced student bodies pass over girls in favor of boys. The growing gender imbalance in education portends massive shifts for the next generation: how much they make and whom they marry. Interviewing hundreds of parents, kids, teachers, and experts, award-winning journalist Peg Tyre drills below the eye-catching statistics to examine how the educational system is failing our sons. She explores the convergence of culprits, from the emphasis on high-stress academics in preschool and kindergarten, when most boys just can't tolerate sitting still, to the outright banning of recess, from the demands of No Child Left Behind, with its rigid emphasis on test-taking, to the boy-unfriendly modern curriculum with its focus on writing about "feelings" and its purging of "high-action" reading material, from the rise of video gaming and schools' unease with technology to the lack of male teachers as role models. But this passionate, clearheaded book isn't an exercise in finger-pointing. Tyre, the mother of two sons, offers notes from the front lines—the testimony of teachers and other school officials who are trying new techniques to motivate boys to learn again, one classroom at a time. *The Trouble with Boys* gives parents, educators, and anyone concerned about the state of education a manifesto for change—one we must undertake right away lest school become, for millions of boys, unalterably a "girl thing."

How Women Decide Therese Huston, 2016-05-10 “An authoritative guide to help women navigate the workplace and their everyday life with greater success and impact” (Forbes). So, you’ve earned a seat at the table. What happens next? We all face hard decisions every day—and the choices we make, and how others perceive them, can be life changing. There are countless books on how to make those tough calls, but *How Women Decide* is the first to examine a much overlooked truth: Men and women reach verdicts differently, and often in surprising ways. Stress? It makes women more focused. Confidence? Caution can lead to stronger resolutions. And despite popular misconceptions, women are just as decisive as men—though they may pay for it. Pulling from the latest science on decision-making, as well as lively stories of real women and their experiences, cognitive scientist Therese Huston teaches us how we can better shape our habits, perceptions, and strategies, not just to make the most of our own opportunities, but to reform the culture and bring out the best results—regardless of who’s behind them.

**Gender in Management** Gary N. Powell, 2023-12-04 In the Sixth Edition of *Gender in Management*, author Gary N. Powell provides a comprehensive survey and review of the literature on sex, gender, and organizations. With the title change from *Women and Men in Management* to *Gender in Management*, the new edition adopts a more inclusive lens that acknowledges the diverse identities and experiences within the gender spectrum. Fully updated sections on intersectionality, public events such as COVID-19 and the Black Lives Matter movement, and the prevalence of AI in hiring decisions provide context to the evolving nature of gender in the workplace and society. Powell provides specific research-based strategies for promoting an organizational culture of

nondiscrimination, diversity, and inclusion.

**Fantasy Femmes of Sixties Cinema** Tom Lisanti, 2015-05-20 Elvis Presley musicals, beach romps, biker flicks, and alienated youth movies were some of the most popular types of drive-in films during the sixties. The actresses interviewed for this book (including Celeste Yarnall, Lana Wood, Linda Harrison, Pamela Tiffin, Deanna Lund, Diane McBain, Judy Pace, and Chris Noel) all made their mark in these genres. These fantastic femmes could be found either twisting on the shores of Malibu, careening down the highway on a chopper, being serenaded by Elvis, or taking on the establishment as hip coeds. As cult figures, they contributed greatly to that period of filmmaking aimed at the teenage audience who frequented the drive-ins of America. They frolicked, screamed, and danced their way into B-movie history in such diverse films as *Eve*, *Teenage Millionaire*, *The Girls on the Beach*, *Dr. Goldfoot and the Bikini Machine*, *Three in the Attic*, *Wild in the Streets*, and *Paradise, Hawaiian Style*. This book is a celebration of the actresses' careers. They have for the most part been overlooked in other publications documenting the history of film. *Fantasy Femmes* addresses their film and television careers, focusing on their view of the above genres, their candid comments and anecdotes about their films, the people they worked with, and their feelings in general regarding their lives and the choices they made. The book is well illuminated and contains a complete list of film and television credits.

**Law and Social Justice in Higher Education** Crystal Renée Chambers, 2016-11-25 The latest volume in the Core Concepts in Higher Education series explores the complexity of law in higher education and both the limits and opportunities of how law can promote inclusivity and access on campus. Through a historical and legal framework, this volume discusses undergraduate students' histories of inclusion and struggles for social justice in higher education by race, sex, social class,

dis/ability, and sexual orientation. Bridging research, theory, and practice, Law and Social Justice in Higher Education encourages future and current higher education and student affairs practitioners to consider how they can collaborate to further a just society. Special features: Discussion of case law illustrates the reach and limits of law and where higher education professionals can continue to push for social justice. Accessible to non-lawyers, chapters highlight key legal terms and key concepts to guide readers at the beginning of each chapter. End-of-chapter questions provide prompts for discussion and encourage student interactivity.

**Offending Girls** Gilly Sharpe, 2013-08-15 At the dawn of the twenty-first century, panic about girls' offending in Britain reached fever pitch. No longer sugar and spice, a 'new breed' of girl, the hedonistic, violent, binge-drinking 'ladette', was reported to have emerged. At the same time, the number of young women entering the youth justice system, including youth custody, increased dramatically. *Offending Girls* challenges simplistic and demonising popular representations of 'bad' girls and examines what exactly is new about the 'new' offending girl. In the light of enormous social and cultural changes affecting girls' lives, and expectations of them, since previous British research in this area, the book investigates whether popular stereotypes problematising female youthful behaviour resonate with the accounts of criminalised young women themselves, and to what extent they have infiltrated professional youth justice discourse. Through the lens of original detailed qualitative research in two Youth Offending Teams and a Secure Training Centre – the first study of its kind since the 'modernisation' of the youth justice system over a decade ago – *Offending Girls* questions whether the 'new' youth justice system is delivering justice for girls and young women. It also contends that the panic about an 'unprecedented crime wave' amongst girls is not supported by robust evidence, but that the interventionist thrust which characterises contemporary youth justice

has had a particularly pernicious impact on girls. It will be key reading for students and academics working in the areas of criminology, criminal and youth justice, education, gender studies, youth studies, social work, sociology and social policy, as well as youth and criminal justice practitioners and policy-makers.

**The Elvis Movies** James L. Neibaur, 2014-04-04 In addition to his phenomenal career as a singer, Elvis Presley was also a box office star, from his first film, *Love Me Tender*, to his final feature, *Change of Habit*, playing opposite Mary Tyler Moore as a nun. A film-by-film look at the 31 features starring the king of rock 'n roll, this definitive study provides a wealth of information about each production, including interviews with people involved with Presley, reviews, marketing strategies, box office successes and failures, and how well each film holds up over time. DVD availability is also included.

**Misjustice** Helena Kennedy, 2019-09-05 Two women a week are killed by a spouse or partner. Every seven minutes a woman is raped. Now is the time for change. 'Fascinating and chilling' Caroline Criado Perez, bestselling author of *Invisible Women* Helena Kennedy, one of our most eminent lawyers and defenders of human rights, examines the pressing new evidence that women are being discriminated against when it comes to the law. From the shocking lack of female judges to the scandal of female prisons and the double discrimination experienced by BAME women, Kennedy shows with force and fury that change for women must start at the heart of what makes society just. 'An unflinching look at women in the justice system... an important book because it challenges acquiescence to everyday sexism and inspires change' *The Times*

*Upstart* Sue Palmer, 2016-06-01 Why does Britain and its former colonies send children to school as young as four and five, when in eighty-eight per cent of the world the starting age is six or seven?

Sue Palmer, author of bestselling *Toxic Childhood*, uncovers the truth: it's not because of what's best for children, but historical accident and economics. Palmer examines research ranging from neurological science to educational data, and shows that under-sevens gain most -- educationally, physically, socially and psychologically -- from not being stuck behind a desk. Upstart puts forward a passionate case for Britain adopting a proper 'kindergarten' stage that recognises what under-sevens really need. With clarity, ease and vigour, Palmer describes a different way of doing early years education that would have huge benefits both for individual children, and for our nation.
