Visions of Schooling Rosemary C. Salomone,2008-10-01 DIVAt no time in the past century have there been fiercer battles over our public schools than there are now. Parents and educational reformers are challenging not only the mission, content, and structure of mass compulsory schooling but also its underlying premise—that the values promoted through public education are neutral and therefore acceptable to any reasonable person. In this important book, Rosemary Salomone sets aside the ideological and inflammatory rhetoric that surrounds today’s debates over educational values and family choice. She offers instead a fair-minded examination of education for democratic citizenship in a society that values freedom of conscience and religious pluralism. And she proposes a balanced course of action that redefines but does not sever the relationship between education and the state. Salomone demonstrates how contemporary conflicts are the product of past educational and social movements. She lays bare some of the myths that support the current government monopoly over education and reveals how it privileges those of economic means. Through a detailed case study of recent controversy in a suburban New York school district, the author explores the legal and policy issues that arise when widely disparate world views stand in the way of political compromise on educational materials, techniques, and programs. Salomone builds a case for educational governance that places the developmental needs of the child at the center of family autonomy. She advances a plan that respects diverse values and visions of schooling while preserving the core commitments that bind our nation./div

DARE to Say No Max Felker-Kantor,2024-04-02 With its signature DARE to keep kids off drugs slogan and iconic t-shirts, DARE (Drug Abuse Resistance Education) was the most popular drug education program of the 1980s and 1990s. But behind the cultural phenomenon is the story of how DARE and other antidrug education programs brought the War on Drugs into schools and ensured that the velvet glove of antidrug education would be backed by the iron fist of rigorous policing and harsh sentencing. Max Felker-Kantor has assembled the first history of DARE, which began in Los Angeles in 1983 as a joint venture between the police department and the unified school district. By the mid-90s, it was taught in 75 percent of school districts across the United States. DARE received near-universal praise from parents, educators, police officers, and politicians and left an indelible stamp on many millennial memories. But the program had more nefarious ends, and Felker-Kantor complicates simplistic narratives of the War on Drugs. He shows how policing entered US schools and framed drug use as the result of personal responsibility, moral failure, and poor behavior deserving of punishment rather than something deeply rooted in state retrenchment, the abandonment of social service provisions, and structures of social and economic inequality.

Making Movies on Your Own Kevin J. Lindenmuth,1998-07-01 You see them on the video shelves, with titles such as *Domestic Strangers*, *The Bride of Frank*, *The Blood Between Us*, *Strawberry Estates* and *Sandman*. Skeptically, perhaps, you rent one and slip it into the VCR. Hey, you think, this isn't so bad--sometimes actually quite good. Suddenly, you discover that there is a whole range of movies from filmmakers operating outside the studio system that have their own attractions that the big budget fare can't match. You have, of course, discovered the world of independent filmmaking. Intrigued, you begin thinking that maybe you could do this, maybe you could make an independent feature film. In this work, J.R. Bookwalter, Ronnie Cramer, Mike Gingold, Eric Stanze, Steve Ballot, and 20 others tell what it is really like to make an independent feature. Covering such topics as the script, equipment, actors, publicity, distribution, all facets of production, and budgeting, these indie filmmakers give a virtual how-to for those interested in joining them or just learning more about how those interesting titles end up on video store shelves.

Truth, Dare or Promise Jill Daniels,Cahal McLaughlin,Gail Pearce,2013-10-03 Truth, Dare or Promise: Art and Documentary Revisited reflects on the ways that artists and filmmakers address the innovations and limitations of producing and exhibiting their work. Ranging from community collaboration to individual interpretation, and from gallery installation to cinematic screening, exploring the differences and overlaps between definitions and methodologies. With an international reach, including contributors who are both practitioners and theorists, this book maps out developments in art and documentary, covering themes that include explorations of personal experience and representations of the past, while examining interactive galleries and the cinematic space.

Representing the Rainbow in Young Adult Literature Christine A. Jenkins,Michael Cart,2018-03-20 Discussions of gender and sexuality have become part of mainstream conversations and are being reflected in the work of more and more writers of fiction, particularly in literature aimed at young adult audiences. But young readers, regardless of their sexual orientation, don’t always know what books offer well-rounded portrayals of queer characters and situations. Fortunately, finding positive role models in fiction that features LGBTQ+ themes has become less problematic, though not without its challenges. In *Representing the Rainbow in Young Adult Literature: LGBTQ+ Content since 1969*, Christine Jenkins and Michael Cart provide an overview of the literary landscape. An expanded version of *The Heart Has Its Reasons*, this volume charts the evolution of YA literature that features characters and themes which resonate not only with LGBTQ+ readers but with their allies as well. In this resource, Jenkins and Cart identify titles that are notable either for their excellence—accurate, thoughtful, and tactful depictions—or deficiencies—books that are wrongheaded, stereotypical, or outdated. Each chapter has been significantly updated, and this edition also includes new chapters on bisexual, transgender, and intersex issues and characters, as well as chapters on comics, graphic novels, and works of nonfiction. This book also features an annotated bibliography and a number of author-title lists of books discussed in the text that will aid teachers, librarians, parents, and teen readers. Encompassing a wider array of sexual identities, *Representing the Rainbow in Young Adult Literature* is an invaluable resource for young people eager to read about books relevant to them and their lives.

The Great Economic Train Wreck Kevin H. Clark,2011-10-12 We tend to think of dominos as standing the tiles on end and then tipping the first one over, toppling into the second, which falls into the third until finally all the dominoes have fallen. In 2008 the first of many financial dominos began falling. Many were worried and looked to Washington for leadership. Instead, we saw only politics-as-usual. But as 2009 and 2010 unfolded, it became too benign to suggest our stricken economy was simply toppled dominos. It was more accurate to describe our condition as an economic train wreck. The financial chaos as a result of the crisis was heightened by an extraordinary government intervention to triage the shattered economy. Many feared, with justification, that we may be teetering on the brink of this generation's Great Depression. The near-death experience the U.S. economy has suffered forced Americans to turn inward and question our leaders. Our worries have multiplied. Our free market system and ultimately the American Dream itself now seem more vulnerable than ever. More importantly, we doubt ourselves and our leaders and long for our life-before. This is a book that chronicles the unfolding disaster of our nation's financial train wreck. For two crucial years, Kevin Clark had broadcast financial analysis that became a play-by-play of the economic collapse. Now, with hindsight, he revisits recent history and brings what he calls a Main Street perspective of this most critical moment in the modern life of America.
