Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose-and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Waking Up Sam Harris,2014-09-09 For the millions of Americans who want spirituality without religion, Sam Harris’s latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

Truth's Table Ekemini Uwan,Christina Edmondson,Michelle Higgins,2022-04-26 A collection of essays and stories documenting the lived theology and spirituality we need to hear in order to lean into a more freeing, loving, and liberating faith—from the hosts of the beloved Truth’s Table podcast “The liberating work of Truth’s Table creates breathing room to finally have those conversations we’ve been needing to have.”—Morgan Harper Nichols, artist and poet Once upon a time, an activist, a theologian, and a psychologist walked into a group chat. Everything was laid out on the table: Dating. Politics. The Black church. Pop culture. Soon, other Black women began pulling up chairs to gather round. And so, the Truth’s Table podcast was born. In their literary debut, co-hosts Christina Edmondson, Michelle Higgins, and Ekemini Uwan offer stories by Black women and for Black women examining theology, politics, race, culture, and gender matters through a Christian lens. For anyone seeking to explore the spiritual dimensions of hot-button issues within the church, or anyone thirsty to deepen their faith, Truth’s Table provides exactly the survival guide we need, including: • Michelle Higgins’s unforgettable treatise revealing the way “racial reconciliation” is a spiritually bankrupt, empty promise that can often drain us of the ability to do real justice work • Ekemini Uwan’s exploration of Blackness as the image of God in the past, present, and future • Christina Edmondson’s reimagination of what a more just and liberating form of church discipline might look like—one that acknowledges and speaks to the trauma in the room These essays deliver a compelling theological re-education and pair the spiritual formation and political education necessary for Black women of faith.

The Death of Truth Michiko Kakutani,2019-08-13 NEW YORK TIMES BESTSELLER • From the Pulitzer Prize–winning critic comes an impassioned critique of America’s retreat from reason We live in a time when the very idea of objective truth is mocked and discounted by the occupants of the White House. Discredited conspiracy theories and ideologies have resurfaced, proven science is once more up for debate, and Russian propaganda floods our screens. The wisdom of the crowd has usurped research and expertise, and we are each left clinging to the beliefs that best confirm our biases. How did truth become an endangered species in contemporary America? This decline began decades ago, and in *The Death of Truth*, former New York Times critic Michiko Kakutani takes a penetrating look at the cultural forces that contributed to this gathering storm. In social media and literature, television, academia, and politics, Kakutani identifies the trends—originating on both the right and the left—that have combined to elevate subjectivity over factuality, science, and common values. And she returns us to the words of the great critics of authoritarianism, writers like George Orwell and Hannah Arendt, whose work is newly and eerily relevant. With remarkable erudition and insight, Kakutani offers a provocative diagnosis of our current condition and points toward a new path for our truth-challenged times.

The Truth About Lies Aja Raden, 2021-05-11 Why do you believe what you believe? You've been lied to. Probably a lot. We're always stunned when we realize we've been deceived. We can't believe we were fooled: What was I thinking? How could I have believed that? We always wonder why we believed the lie. But have you ever wondered why you believe the truth? People tell you the truth all the time, and you believe them; and if, at some later point, you're confronted with evidence that the story you believed was indeed true, you never wonder why you believed it in the first place. In this incisive and insightful taxonomy of lies and liars, New York Times bestselling author Aja Raden makes the surprising claim that maybe you should. Buttressed by history, psychology, and science, *The Truth About Lies* is both an eye-opening primer on con-artistry—from pyramid schemes to shell games, forgery to hoaxes—and also a telescopic view of society through the mechanics of belief: why we lie, why we believe, and how, if at all, the acts differ. Through wild tales of cons and marks, Raden examines not only how lies actually work, but also why they work, from the evolutionary function of deception to what it reveals about our own. In her previous book, *Stoned*, Raden asked, “What makes a thing valuable?” In *The Truth About Lies*, she asks “What makes a thing real?” With cutting wit and a deft touch, Raden untangles the relationship of truth to lie, belief to faith, and deception to propaganda. *The Truth About Lies* will change everything you thought you knew about what you know, and whether you ever really know it.

Backable Suneel Gupta,2021-02-23 A groundbreaking book that boldly claims the key to success is not talent, connections, or ideas, but the ability to persuade people to take a chance on your potential. The most exceptional people aren't just brilliant...they're backable. —Daniel Pink, #1 New York Times bestselling author of When, Drive and To Sell is Human No one makes it alone. But there’s a reason some people can get investors or bosses to believe in them while others cannot. And that reason has little to do with experience, pedigree, or a polished business plan. Backable people seem to have a hidden quality that inspires others to take action. We often chalk this up to natural talent or charisma...either you have “it” or you don’t. After getting rejected by every investor he pitched, Suneel Gupta had a burning question: Could “it” be learned? Drawing lessons from hundreds of the world’s biggest thinkers, Gupta discovered how to pitch new ideas in a way that has raised millions of dollars, influenced large-scale change inside massive corporations, and even convinced his eight-year-old daughter to clean her room. Inside Backable are long-held secrets from producers of Oscar-winning films, members of Congress, military leaders, culinary stars, venture capitalists, founders of unicorn-status startups, and executives at iconic companies like Lego, Method, and Pixar. Backable reveals how the key to success is not charisma, connections, or even your résumé, but rather your ability to persuade others to take a chance on you. This original book will show you how.
