When the Spirit Meets the Spirits Julie C. Ma,2010-04-01 What would happen when the Christian message is introduced to various groups of people? How would their contexts and worldviews influence their responses to the message? To this age-old missiological question, the study takes the readers to a narrowed and concerted question, What is the effect of Pentecostal messages on animistic people, or in other words, What are results when the (Holy) Spirit meets the spirits of the tribal people? Julie Ma chose the Kankanaey tribe in the northern Philippines to prove that the Pentecostal type of Christian has invited a very positive response from the Kankanaeys. She approaches the matter from historical, anthropological and theological perspectives. This may challenge the readers to look more closely at the phenomenal Pentecostal movement, especially with their potential for mission. She also urges her fellow Pentecostals to be more appreciative of their heritage and to fully appropriate it to reach the end of the earth.

Contentious Belonging Greg Fealy,Ronit Ricci,2019-05-27 Contention has surrounded the status of minorities throughout Indonesian history. Two broad polarities are evident: one inclusive of minorities, regarding them as part of the nation's rich complexity and a manifestation of its "Unity in Diversity" motto; the other exclusive, viewing with suspicion or disdain those communities or groups that differ from the perceived majority. State and community attitudes towards minorities have fluctuated over time. Some periods have been notable for the acceptance of minorities and protection of their rights, while others have been marked by anti-minority discrimination, marginalisation and sometimes violence. This book explores the complex historical and contemporary dimensions of Indonesia's religious, ethnic, LGBT and disability minorities from a range of perspectives, including historical, legal, political, cultural, discursive and social. It addresses fundamental questions about Indonesia's tolerance and acceptance of difference, and examines the extent to which diversity is embraced or suppressed.

Engineering Design and Analysis in the Art of Wayang Kulit Gea O.F Parikesit,Indraswari Kusumaningtyas,2018-05-29 This book is divided into three main parts and an epilogue. The first part of the book provides a context for the readers to understand the underlying background of our work. Chapter 1 gives a brief overview about wayang kulit, whereas second chapter introduces the field of

digital humanities that has particularly touched the art of wayang kulit. The second part of the book is focused on the engineering design in wayang kulit, particularly related to the methods we developed to display 3D shadow images. The third chapter qualitatively explains the phenomenon of colour-based stereoscopic shadows, which form the basis of 3D shadow images. In the fourth chapter we start to describe quantitatively the optical methods to synthesize the 3D shadow images. In the fifth chapter, we share our experiences from two art exhibitions, i.e. the Jogja ArtWeeks in 2015 and the 'Wayang and New Technology' in Tembi Rumah Budaya in 2016. The sixth chapter explores the quantitative methods to digitally synthesize the 3D shadow images, which opens up new possibilities in art performances, where dhalangs can combine real and virtual 3D shadow images. The third part of the book is focused on the engineering analysis in wayang kulit. In the seventh chapter, we start with the analysis of the puppet shapes. Afterwards, in the eighth chapter we use the 3D shadow images described in Chapters 3–6 to quantitatively measure the pose of the puppets. The same method can also be extended to analyse the puppet movements, which is explained in the ninth chapter. This quantitative analysis of the puppet movements is a continuation of the research pioneered by Prof. Roger A. Long in 1979, on the puppet movements in the Ngayogyakarta wayang kulit. Meanwhile, in the tenth chapter, we analyse the audiovisual patterns in wayang kulit performances. These patterns may become relevant, not only for engineers who are interested in developing interactive artworks, but also for scholars in the field of digital humanities who are interested to investigate the change of wayang kulit performances over space and time. Lolas' House M. Evelina Galang, 2017-09-15 During World War II more than one thousand Filipinas were kidnapped by the Imperial Japanese Army. Lolas' House tells the stories of sixteen surviving Filipino "comfort women." M. Evelina Galang enters into the lives of the women at Lolas' House, a community center in metro Manila. She accompanies them to the sites of their abduction and protests with them at the gates of the Japanese embassy. Each woman gives her testimony, and even though the women relive their horror at each telling, they offer their stories so that no woman anywhere should suffer wartime rape and torture. Lolas' House is a book of testimony, but it is also a book of witness, of survival, and of the female body. Intensely personal and globally political, it is the legacy of Lolas' House to the world.

Indonesia and the Indo-Pacific Senia Febrica,2023-07-19 This book examines Indonesia’s strategies and policies to influence regional cooperation in the Indo-Pacific, focusing especially on Indonesia’s efforts to be the maritime fulcrum in the Indo-Pacific during President Joko Widodo’s (Jokowi) administration from 2014 until the present. Highlighting the importance of Indonesia as the largest country in Southeast Asia and as a founder member of ASEAN, the book, based on extensive original research, provides key insights into Indonesia’s maritime policy decision-making since 2014. It discusses the domestic political context in which foreign policy decisions are made, provides an explanation for Indonesia’s efforts to project its vision of Indo-Pacific cooperation at the ASEAN level and beyond, and demonstrates how Indonesia strives to maintain a delicate balance in its interactions with major powers in the region, including the United States, China, and Japan.
