**Television Histories in Asia** Jinna Tay,Graeme Turner,2015-07-24 This book presents an analysis of television histories across India, China, Taiwan, Singapore, Indonesia, Japan, Hong Kong, the Philippines, Malaysia and Bhutan. It offers a set of standard data on the history of television's cultural, industrial and political structures in each specific national context, allowing for cross-regional comparative analysis. Each chapter presents a case study on a salient aspect of contemporary television culture of the nation in question, such as analyses of ideology in television content in Japan and Singapore, and transformations of industry structure vis-à-vis state versus market control in China and Taiwan. The book provides a comprehensive overview of TV histories in Asia as well as a survey of current issues and concerns in Asian television cultures and their social and political impact.

**Introducing Korean Popular Culture** Youna Kim,2023-06-28 This new textbook is a timely and interdisciplinary resource for students looking for an introduction to Korean popular culture, exploring the multifaceted meaning of Korean popular culture at micro and macro levels and the process of cultural production, representation,

circulation and consumption in a global context. Drawing on perspectives from the humanities and social sciences, including media and communications, film studies, musicology, cultural studies, sociology, anthropology, history and literature, this book provides a comprehensive and up-to-date overview of Korean popular culture and its historical underpinnings, changing roles and dynamic meanings in the present moment of the digital social media age. The book's sections include: K-pop Music Popular Cinema Television Web Drama, Webtoon and Animation Digital Games and Esports Lifestyle Media, Fashion and Food Nation Branding An accessible, comprehensive and thought-provoking work, providing historical and contemporary contexts, key issues and debates, this textbook will appeal to students of and providers of courses on popular culture, media studies and Korean culture and society more broadly.

**Diasporic Hallyu** Kyong Yoon,2022-04-02 This open access book examines the lived experiences of diasporic Korean youth in light of the transnational flows of South Korean popular culture, known as the Korean Wave, or Hallyu. Drawing on an ethnographic study of Korean Canadian youth and their engagement with the Korean Wave, the book proposes a critical understanding of the interactions between diasporic youth audiences and popular culture. By examining the Korean Wave as diasporic cultural practices rather than the diffusion of national cultural products, the book reveals the diversified ways in which cultural flows are negotiated by audiences who take up relatively ambivalent reception positions between two or more national and cultural contexts. This book expands the scope of transnational audience studies and youth cultural studies by focusing attention on the diasporic media practices of young people.

Advanced Video Communications over Wireless Networks Ce

Zhu,Yuenan Li,2017-12-19 Wireless video communications encompass a broad range of issues and opportunities that serve as the catalyst for technical innovations. To disseminate the most recent advances in this challenging yet exciting field, Advanced Video Communications over Wireless Networks provides an in-depth look at the fundamentals, recent technical achievements, challenges, and emerging trends in mobile and wireless video communications. The editors have carefully selected a panel of researchers with expertise in diverse aspects of wireless video communication to cover a wide spectrum of topics, including the underlying theoretical fundamentals associated with wireless video communications, the transmission schemes tailored to mobile and wireless networks, quality metrics, the architectures of practical systems, as well as some novel directions. They address future directions, including Quality-of-Experience in wireless video communications, video communications over future networks, and 3D video communications. The book presents a collection of tutorials, surveys, and original contributions, providing an up-to-date, accessible reference for further development of research and applications in mobile and wireless video communication systems. The range of coverage and depth of expertise make this book the go-to resource for facing current and future challenges in this field.

**Identity and Ideology in Digital Food Discourse** Alla Tovares,Cynthia Gordon,2020-11-26 Exploring food-related interactions in various digital and cultural contexts, this book demonstrates how food as a discursive resource can be mobilized to accomplish actions of social, cultural, and political consequence. The chapters reveal how social media users employ language, images, and videos to construct identities and ideologies that both encompass and transcend food. Drawing on various discourse analytic frameworks to digital communication, contributors examine interactions across Facebook, Twitter, YouTube, and Instagram. From the multimodal discourse of a Korean livestreaming online eating show, to food activism in an English blogging community and discussions of a food-related controversy on Omani Twitter, this book shows how language and multimodal resources serve not only to communicate about food, but also as a means of accomplishing key aspects of everyday social life.

*Social Media and South Korean National Security* Yongho Kim,2017-05-19 South Korea offers a timely illustration of the relationship between social media and national security. Following the country's democratization in the 1990s and the explosion of communication technology since the millennium, citizens have joined the discussion of national interests and ideological conflicts, involving anti-Americanism, reunification and North Korea's provocations. South Korean media have influenced an ideological divide that distinguishes between young and old, haves and have-nots, security and nationalism, and pro and anti-North Korean sentiments. The author describes the trade-offs between security and civil liberties and how narratives advanced through social media differ from those reported

by traditional news outlets.

The Technology, Business, and Economics of Streaming Video Eli Noam,2021-01-29 Along with its interrelated companion volume, The Content, Impact, and Regulation of Streaming Video, this book covers the next generation of TV—streaming online video, with details about its present and a broad perspective on the future. It reviews the new technical elements that are emerging, both in hardware and software, their long-term trend, and the implications. It discusses the emerging 'media cloud' of video and infrastructure platforms, and the organizational form of such TV.

Routledge Handbook of Cultural and Creative Industries in Asia Lorraine Lim,Hye-Kyung Lee,2018-12-07 Recent years have witnessed the remarkable development of the cultural and creative industries (CCIs) in Asia, from the global popularity of the Japanese games and anime industries, to Korea's film and pop music successes. While CCIs in these Asian cultural powerhouses aspire to become key players in the global cultural economy, Southeast Asian countries such as Malaysia and Thailand are eager to make a strong mark in the region's cultural landscape. As the first handbook on CCIs in Asia, this book provides readers with a contextualized understanding of the conditions and operation of Asian CCIs. Both internationalising and de-Westernising our knowledge of CCIs, it offers a comprehensive contribution to the field from academics, practitioners and activists alike. Covering 12 different societies in Asia from Japan and China to Thailand, Indonesia and India, the themes include: State policy in shaping CCIs Cultural production inside and outside of institutional frameworks Circulation of CCIs products and consumer culture Cultural activism and independent culture Cultural heritage as an industry. Presenting a detailed set of case studies, this book will be an

essential companion for researchers and students in the field of cultural policy, cultural and creative industries, media and cultural studies, and Asian studies in general.

Digital Review of Asia Pacific 2009-2010 Shahid Akhtar,2009-06-03 The biennial Digital Review of Asia Pacific is a comprehensive guide to the state-of-practice and trends in information and communication technologies for development (ICTD) in the Asia Pacific region.This fourth edition (2009-2010) features 30 economies and four sub-regional groupings. The chapters provide updated information on ICT infrastructure, industries, content and services, key programs, enabling policies and regulation, education and capacity building, open source, and research and development initiatives, as well as ICTD challenges in each of the economies covered. The common framework that underpins these reports allows readers to undertake a comparative analysis and assess progress across Asia Pacific.In addition, regional overviews provide a synthesis of ICTD trends, regulatory issues, and lessons for managing innovation in the network economy. The thematic chapters focus on issues in ICT in education, a key area in ICTD.The authors are drawn from government, academe, industry and civil society, providing a broad perspective on the use of ICTs for human development.

*Korean Food Television and the Korean Nation* Jaehyeon Jeong,2020-12-10 This book examines the historical development of Korean food TV and its articulation of Koreanness in the era of globalization. Jaehyeon Jeong defines the evolution of Korean food TV as an outcome of the conjuncture between the television industry's structural changes, the shift in food's landscape and cultural legitimacy, and various sociocultural, political, and economic transformations. In addition, Jeong reveals how the state appropriates

the banality of food to raise South Korea's global image and how it utilizes domestic television to disseminate statist discourse of the nation. Understanding discourses of national cuisine as reflective of and formative of discourses of the nation, he argues that the growth of discourses of national cuisine is symptomatic of the struggle for nationness in a globalized world.

Seven Steps to a Comprehensive Literature Review Anthony J. Onwuegbuzie,Rebecca Frels,2016-02-04 This dynamic guide to doing literature reviews demystifies the process in seven steps to show researchers how to produce a comprehensive literature review. Teaching techniques to bring systematic thoroughness and reflexivity to research, the authors show how to achieve a rich, ethical and reflexive review. What makes this book unique: Focuses on multimodal texts and settings such as observations, documents, social media, experts in the field and secondary data so that your review covers the full research environment Puts mixed methods at the centre of the process Shows you how to synthesize information thematically, rather than merely summarize the existing literature and findings Brings culture into the process to help you address bias and understand the role of knowledge interpretation, guiding you through Teaches the CORE of the literature review – Critical thinking, Organization, Reflections and Evaluation – and provides a guide for reflexivity at the end of each of the seven steps Visualizes the steps with roadmaps so you can track progress and self-evaluate as you learn the steps This book is the essential best practices guide for students and researchers, providing the understanding and tools to approach both the 'how' and 'why' of a rigorous, comprehensive, literature review.
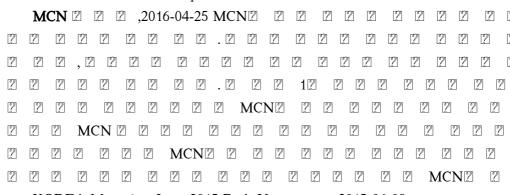

**Understanding Korean Webtoon Culture** Dal Yong Jin,2023-11-20

Webtoons—a form of comic that are typically published digitally in chapter form—are the latest manifestation of the Korean Wave of popular culture that has increasingly caught on across the globe, especially among youth. Originally distributed via the Internet, they are now increasingly distributed through smartphones to ravenous readers in Korea and around the world. The rise of webtoons has fundamentally altered the Korean cultural market due to the growth of transmedia storytelling—the flow of a story from the original text to various other media platforms, such as films, television, and digital games—and the convergence of cultural content and digital technologies. Fans can enjoy this content anytime and anywhere, either purely as webtoons or as webtoon-based big-screen culture. Understanding Korean Webtoon Culture analyzes webtoons through the lens of emerging digital cultures and discusses relevant cultural perspectives by combining two different, yet connected approaches, political economy and cultural studies. The book demonstrates the dynamics between structural forces and textual engagement in global media flows, and it illuminates snack-culture and binge-reading as two new forms of digital culture that webtoon platforms capitalize on to capture people's shifting media consumption.

Gender and Food in Transnational East Asias Jooyeon Rhee,Chikako Nagayama,Eric Ping Hung Li,2021-10-12 Gender and Food in Transnational East Asias places the relationship between food and gender in cross-cultural, cross-regional, and transnational contexts in order to identify how global politics, economy, and culture influence gender dynamics; and maintain or shift the existing gender hierarchy, inequality, and sexual behavior.

Computer and Information Science Roger Lee,2019-08-06 This book gathers the outcomes of the 18th IEEE/ACIS International

Conference on Computer and Information Science (ICIS 2019), which was held on June 12–14, 2019 in Beijing, China. The aim of the conference was to bring together researchers and scientists, businesspeople and entrepreneurs, teachers, engineers, computer users, and students to discuss the various fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way. Further, they presented research results on all aspects (theory, applications and tools) of computer and information science, and discussed the practical challenges encountered in their work and the solutions they adopted to overcome them. The book highlights the best papers from those accepted for presentation at the conference. They were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review. From this second round, 15 of the conference's most promising papers were selected for this Springer (SCI) book and not the conference proceedings. We eagerly await the important contributions that we know these authors will make to the field of computer and information science.
