**Indian Stereotypes in TV Science Fiction** Sierra S. Adare,2009-08-17 According to an early 1990s study, 95 percent of what college students know about Native Americans was acquired through the media, leading to widespread misunderstandings of First Nations peoples. Sierra Adare contends that negative Indian stereotypes do physical, mental, emotional, and financial harm to First Nations individuals. At its core, this book is a social study whose purpose is to explore the responses of First Nations peoples to representative Indian stereotypes portrayed within the TV science fiction genre. Participants in Adare's study viewed episodes from My Favorite Martian, Star Trek, Star Trek: Voyager, Quantum Leap, The Adventures of Superman, and Star Trek: The Next Generation. Reactions by viewers range from optimism to a deep-rooted sadness. The strongest responses came after viewing a Superman episode's depiction of an evil medicine man who uses a ceremonial pipe to kill a warrior. The significance of First Nations peoples' responses and reactions are both surprising and profound. After publication of Indian Stereotypes in TV Science Fiction, ignorance can no longer be used as an excuse for Hollywood's irresponsible depiction of First Nations peoples' culture, traditions, elders, religious beliefs, and sacred objects.

**Television and Public Policy** David Ward,2009-04-09 The significant changes that have swept the television industry over the last two decades, most notably a shift to deregulation in broadcast media, prompt a discussion on how to ensure that meaningful content is available to the viewer. Television and Public Policy analyzes the current state of television systems in a selected group of countries by exploring the political, economic, and technological factors that have shaped the sector in such a short span of time. Consequently, by positioning the television sector within issues of media policy and the regulatory framework, the book questions what these trends mean for television, and the historical, political, and cultural role in our societies. Television and Public Policy distinguishes itself in several ways: \*It is a global project in its comparative scope and subject area. Contributors represent countries including Australia, Brazil, Canada, China, Egypt, India, Iran, Ireland, Israel, Italy, Japan, the Netherlands, New Zealand, Poland, the United Kingdom, and the United States. \*It is contemporary and filled with information largely absent in current literature. \*It offers original analysis of the contemporary television sector. This book speaks to a broad range of academics, postgraduate, and undergraduate students, and can serve as a key resource for courses ranging from media studies, to development studies, international relations, and law.

**India On Television** Nalin Mehta,2009-01-27 'Excellent...an incisive and much needed study of how television is changing India.' - Rajdeep Sardesai, Managing Editor, CNN-IBN and IBN-7More than fifty 24-hour news networks, operating in eleven different languages, emerged in India between 1992 and 2006. This book traces the evolution of

satellite television and how it effected major changes in political culture, the state, and expressions of Indian nationhood. Explaining how television, a medium that developed in the industrial West, was adapted to suit Indian conditions, the book focuses specifically on the emergence of satellite news channels. It shows how live television used new forms of technology to plug into existing nodes of communication, which in turn led to the creation of a new visual language - national, regional and local - that altered politics and forms of identity formation in significant ways. Satellite television came to India as the representative of global capitalism in the early 1990s and crushed the governmental monopoly over broadcasting that had existed since independence. As such, the story of satellite news is also the story of India's encounter with the forces of globalisation. 'Accumulated with an insider's knowledge...a genuine contribution to the literature, bringing together valuable material that deserves a wide audience.' - Prof. Arvind Rajagopal, author of Politics After Television.

Indian Accents Shilpa S. Dave, 2013-02-01 Amid immigrant narratives of assimilation, Indian Accents focuses on the representations and stereotypes of South Asian characters in American film and television. Exploring key examples in popular culture ranging from Peter Sellers' portrayal of Hrundi Bakshi in the 1968 film The Party to contemporary representations such as Apu from The Simpsons and characters in Harold and Kumar Go to White Castle, Shilpa S. Dave develops the ideas of accent, brownface, and brown voice as new ways to explore the racialization of South Asians beyond just visual appearance. Dave relates these examples to earlier scholarship on blackface, race, and performance to show how accents are a means of representing racial difference, national origin, and belonging, as well as distinctions of class and privilege. While focusing on racial impersonations in mainstream film and television, Indian Accents also amplifies the work of South Asian American actors who push back against brown voice performances, showing how strategic use of accent can expand and challenge such narrow stereotypes.
