*Think DSP* Allen B. Downey,2016-07-12 If you understand basic mathematics and know how to program with Python, you’re ready to dive into signal processing. While most resources start with theory to teach this complex subject, this practical book introduces techniques by showing you how they’re applied in the real world. In the first chapter alone, you’ll be able to decompose a sound into its harmonics, modify the harmonics, and generate new sounds. Author Allen Downey explains techniques such as spectral decomposition, filtering, convolution, and the Fast Fourier Transform. This book also provides exercises and code examples to help you understand the material. You’ll explore: Periodic signals and their spectrums Harmonic structure of simple waveforms Chirps and other sounds whose spectrum changes over time Noise signals and natural sources of noise The autocorrelation function for estimating pitch The discrete cosine transform (DCT) for compression The Fast Fourier Transform for spectral analysis Relating operations in time to filters in the frequency domain Linear time-invariant (LTI) system theory Amplitude modulation (AM) used in radio Other books in this series include Think Stats and Think Bayes, also by Allen Downey.

**You Feel It Just Below the Ribs** Jeffrey Cranor,Janina Matthewson,2021-11-16 A haunting, provocative novel, *You Feel It Just Below the Ribs* is a fictional autobiography in an alternate twentieth century that chronicles one woman’s unusual life, including the price she pays to survive and the cost her choices hold for the society she is trying to save. Born at the end of the old world, Miriam grows up during The Great Reckoning, a sprawling, decades-long war that nearly decimates humanity and strips her of friends and family. Devastated by grief and loneliness, she emotionally exiles herself, avoiding relationships or allegiances, and throws herself into her work—disengagement that serves her when the war finally ends, and The New Society arises. To ensure a lasting peace, The New Society forbids anything that may cause tribal loyalties, including traditional families. Suddenly, everyone must live as Miriam has chosen to—disconnected and unattached. A researcher at heart, Miriam becomes involved in implementing this detachment process. She does not know it is the beginning of a darkly sinister program that will transform this new world and the lives of everyone in it. Eventually, the harmful effects of her research become too much for Miriam, and she devises a secret plan to destroy the system from within, endangering her own life. But is her “confession” honest—or is it a fabrication riddled with lies meant to conceal the truth? A jarring and uncanny tale of loss, trauma, and the power of human connection and deception, *You Feel It Just Below the Ribs* is a portrait of a disturbing alternate world eerily within reach, and an examination of the difficult choices we must make to survive in it.

*Lost Laughs of '50s and '60s Television* David C. Tucker,2010-04-19 Originally broadcast on American television between 1952 and 1969, the 30 situation comedies in this work are seldom seen today and receive only brief and often incomplete and inaccurate mentions in most reference sources. Yet these sitcoms (including *Angel*, *The Governor and J.J.*, *It's a Great Life*, *I'm Dickens ... He's Fenster* and *Wendy and Me*), and the stories of the talented people who made them, are an integral part of television history. With a complete list of production credits and rare publicity stills, this volume, based on multiple screenings of episodes, corrects other sources and expand our knowledge of television history.

*The Legendary Duke* Margaret Locke,2018-09-07 Terrific storytelling with lots of wit, derring-do, and tugging on the heartstrings! - Grace Burrowes, NYT and USA Today Bestselling Author Locke seamlessly blends hints from classics like *The Count of Monte Cristo*, *Pride and Prejudice*, and Arthurian legend into an utterly enjoyable Regency romance. - Publishers Weekly BookLife Prize From RITA® Finalist and USA Today Bestselling Author Margaret Locke comes *The Legendary Duke*, the second in her Put Up Your Dukes Regency historical romance series. For a Knight to win the Princess, he first must slay his dragons... A tragic event in his youth led Gavin Knight’s mother to whisk him to Rome, where he lived a simple but secluded life—until, on her deathbed, she revealed who he truly was: the Duke of Cortleon. Now twenty-nine, Gavin has returned to England, determined to learn what happened all those years ago. Despite charming his fellow lords and ladies alike, the new Duke disregards any notion of nuptials, as his honor first demands resolution--and retribution. Then he meets Lady Elinor Greene. For seven years, renowned beauty Elinor has refused all proposals, fearing marriage would curb her freedom. But when her family falls on hard times, Nelle must sacrifice herself to save them by marrying a man of means. A wealthy widower

seems the logical choice, a passionless union perfect. Until she meets the Duke of Cortleon, and learns one Knight can be legendary. Soon Gavin and Elinor must each decide which quest is worth more: that for honor, or that for love... \_\_\_\_\_ While second in the series, *The Legendary Duke* can easily be read as a standalone novel - especially because this story turned out to take place before that of *The Demon Duke* (oops). Loosely based on the Arthurian legend Gawain and the Green Knight, *The Legendary Duke* provides adventure, mystery, desire, and betrayal in this satisfying blend of Regency historical romance with a hint of medieval flavor...and Arthurian Easter eggs pop up throughout! \_\_\_\_\_ Category: Regency Historical romance (and my editor Tessa says, historical romantic suspense!) Length: 110,000 words \_\_\_\_\_ 2019 Library of Virginia Literary Awards Finalist 2019 New England Reader's Choice Awards Winner in Historical Romance 2018 Publishers Weekly BookLife Prize Finalist in Romance

A delightful blend of insight, history and nostalgia, *Hello Again* will appeal to any radio aficionado.

**A Man of Character** Margaret Locke, 2015-05-26 An award-winning magical romantic comedy in which a bookstore owner must choose between fantasy and reality after realizing the men she's dating are characters she'd created years before... Locke breaks down tropes--the popular jock and the thoughtful poet--and puts cracks in their shining armor with humor and insight...Blending romance with whimsical fantasy, Locke's story offers up a look at the expectations of youthful fancy vs. the realities of an adult love. - Library Journal

\_\_\_\_\_ What would you do if you discovered the men you were dating were fictional characters you'd created long ago? Thirty-five-year-old Catherine Schreiber has shelved love for good. Keeping her ailing bookstore afloat takes all her time, and she's perfectly fine with that. So when several men ask her out in short order, she's not sure what to do ... especially since something about them seems eerily familiar. A startling revelation -- that these men are fictional characters she'd created and forgotten years ago -- forces Cat to reevaluate her world and the people in it. Because these characters are alive. Here. Now. And most definitely in the flesh. Her best friend, Eliza, a romance novel junkie craving her own Happily Ever After, is thrilled by the possibilities. The power to create Mr. Perfect -- who could pass that up? But can a relationship be real if it's fiction? Caught between fantasy and reality, Cat must decide which -- or whom -- she wants more. Blending humor with unusual twists, including a magical manuscript, a computer scientist in shining armor, and even a Regency ball, *A Man of Character* is a whimsical-yet-thought-provoking romantic comedy that tells a story not only of love, but also of the lengths we'll go for friendship, self-discovery, and second chances.

*Celebrity Capital* Barrie Gunter, 2014-09-25 Celebrities attract the attention of commercial interests and other public figures. They receive payments from sponsors to endorse brands. They are sought out to appear with politicians during election campaigns. They are used to promote health messages. In other words, celebrities are often perceived to possess qualities that give them special value or what we will refer to here as 'celebrity capital'. This means that celebrities are regarded as being able to add premium value to specific objects, events, and issues and hence render these items more valuable or effective. Employing an interesting and new approach to the growing scholarly interest in celebrity culture, Barrie Gunter uses the idea of value as expressed through the term 'capital'. Capital usually refers to the monetary worth of something. Celebrity capital however can be measured in economic terms but also in social, political and psychological terms. Research from around the world has been collated to provide an evidence-based analysis of the value of celebrity in the 21st century and how it can be systematically assessed. Including further reading for students, key points and end of chapter discussion questions, Gunter creates the first methodology to assess the value of fame.

**Parallel Programming Using C++** Gregory V. Wilson, Paul Lu, 1996-07-08 Foreword by Bjarne Stroustrup Software is generally acknowledged to be the single greatest obstacle preventing mainstream adoption of massively-parallel computing. While sequential applications are routinely ported to platforms ranging from PCs to mainframes, most parallel programs only ever run on one type of machine. One reason for this is that most parallel programming systems have failed to insulate their users from the architectures of the machines on which they have run. Those that have been platform-independent have usually also had poor performance. Many researchers now believe that object-oriented languages may offer a solution. By hiding the architecture-specific constructs required for high performance inside platform-independent abstractions, parallel object-oriented programming systems may be able to combine the speed of massively-parallel computing with the comfort of sequential programming. *Parallel Programming Using C++* describes fifteen parallel programming systems based on C++, the most popular object-oriented language of today. These systems cover the whole spectrum of parallel programming paradigms, from data parallelism through dataflow and distributed shared memory to message-passing control parallelism. For the parallel programming community, a common parallel application is discussed in each chapter, as part of the description of the system itself. By comparing the implementations of the polygon overlay problem in each system, the reader can get a better sense of their expressiveness and functionality for a common problem. For the systems community, the chapters contain a discussion of the implementation of the various compilers and runtime systems. In addition to discussing the performance of polygon overlay, several of the contributors also discuss the performance of other, more substantial, applications. For the research community, the contributors discuss the motivations for and philosophy of their systems. As well, many of the chapters include critiques that complete the research arc by pointing out possible future research directions. Finally, for the object-oriented community, there are many examples of how encapsulation,

inheritance, and polymorphism can be used to control the complexity of developing, debugging, and tuning parallel software.

Family Britain, 1951-1957 David Kynaston,2010-12-01 As in his highly acclaimed Austerity Britain, David Kynaston invokes an astonishing array of vivid, intimate and unselfconscious voices to drive his narrative of 1950s Britain. The keen-eyed Nella Last shops assiduously at Barrow Market as austerity and rationing gradually give way to relative abundance; housewife Judy Haines, relishing the detail of suburban life, brings up her children in Chingford; the self-absorbed civil servant Henry St John perfects the art of grumbling. These and many other voices give a rich, unsentimental picture of everyday life in the 1950s. Well-known figures are encountered on the way, such as Doris Lessing (joining and later leaving the Communist Party), John Arlott (sticking up on Any Questions? for the rights of homosexuals) and Tiger's Roy of the Rovers (making his goal-scoring debut for Melchester). All this is part of a colourful, unfolding tapestry, in which the great national events - the Tories returning to power, the death of George VI, the Coronation of Queen Elizabeth, the Suez Crisis - jostle alongside everything that gave Britain in the 1950s its distinctive flavour: Butlin's holiday camps, Kenwood food mixers, Hancock's Half-Hour, Ekco television sets, Davy Crockett, skiffle and teddy boys. Deeply researched, David Kynaston's Family Britain offers an unrivalled take on a largely cohesive, ordered, still very hierarchical society gratefully starting to move away from the painful hardships of the 1940s towards domestic ease and affluence.
