The chapters explore the functions of beer and brewing from unique and sometimes overlapping historical, economic, cultural, environmental and physical viewpoints. Topics from authors – both geographers and non-geographers alike – have examined the influence of beer throughout history, the migration of beer on local to global scales, the dichotomous nature of global production and craft brewing, the neolocalism of craft beers, and the influence local geography has had on beer's most essential ingredients: water, starch (malt), hops, and yeast. At the core of each chapter remains the integration of spatial perspectives to effectively map the identity, changes, challenges, patterns and locales of the geographies of beer.

Twitterature Alexander Aciman,Emmett Rensin,2009-12-29 Perhaps while reading Shakespeare you've asked yourself, What exactly is Hamlet trying to tell me? Why must he mince words and muse in lyricism and, in short, whack about the shrub? But if the Prince of Denmark had a Twitter account and an iPhone, he could tell his story in real time--and concisely! Hence the genius of Twitterature. Hatched in a dorm room at the brain trust that is the University of Chicago, Twitterature is a hilarious and irreverent re-imagining of the classics as a series of 140-character tweets from the protagonist. Providing a crash course in more than eighty of the world's best-known books, from Homer to Harry Potter, Virgil to Voltaire, Tolstoy to Twilight and Dante to The Da Vinci Code. It's the ultimate Cliffs Notes. Because as great as the classics are, who has time to read those big, long books anymore? Sample tweets: From Hamlet: WTF IS POLONIUS DOING BEHIND THE CURTAIN??? From the Harry Potter series: Oh man big tournament at my school this year!! PSYCHED! I hope nobody dies this year, and every year as if by clockwork. From The Great Gatsby: Gatsby is so emo. Who cries about his girlfriend while eating breakfast...IN THE POOL?

Twitter and Elections around the World Richard Davis,Christina Holtz Bacha,Marion R. Just,2016-09-01 Twitter already has become an important electoral communication tool between candidates, parties and their specific constituencies. No serious candidate campaign ignores Twitter, while political party organizations utilize Twitter to communicate with partisans, reinforce supporters, and mobilize voters. Whereas much scholarship to date has focused primarily on Twitter's political usage in the United States, there still remain many questions about the political uses and effects of Twitter in a global context. Does Twitter effect how reporters interact with candidates or even with each other? Does Twitter increase voter participation? Who is tweeting about elections? Why do people use Twitter in electoral contexts? Which type of candidate is more likely to use Twitter and why? Do parties differ in their use of Twitter, and why? Does Twitter increase candidate-voter interaction? Is Twitter shaping elections in various system contexts, and if so how? What is the influence of system context on Twitter use by parties, candidates, reporters, and voters? Eloquently combining theory and practice, established and rising scholars in the field of political communication have been brought together to provide an essential overview of the influence of Twitter on elections in a comparative perspective. Readers of this book will not only learn everything there is to know about this specific influence of Twitter, but more broadly how to approach the study of various online tools in general.
