Twitter for charities, non profits and the voluntary sector. Jeremy Webb and Jim Byrne, Twitter has literally helped change the world. This book will help you discover what makes Twitter so powerful and useful for charities, non profit and voluntary organisations. You'll quickly learn the mechanics of Twitter then be introduced to advanced tips, tricks and tools that will help you grow a large and dedicated following on Twitter. You'll read about real examples of third sector organisations successfully using Twitter, and how it's far more than a broadcast medium. Buy this book, (read it) and become a social media ninja for good. Don't just take our word for it... Twitter is a phenomena. It's new and fast evolving - launched as a tool with no plan it quickly emerged as THE microblog platform on the web. BUT it is vast and quickly changing - this guide offers an easy way in to twitter, to maximise returns and to avoid the time-suck that poor social media is. Hat's off to Jeremy & Jim for making it accessible and clear. Like a snow flake in an avalanche or a drinking from a fire hydrant it is easy to be overwhelmed by Twitter - but this book is clear about how to increase your signal to noise ratio, how to engage effectively and above all - how to get returns for your messaging so you are effective tweeter and not just a twit. ~ @Tom_Alcott, Tom Alcott, The Social Network Company. As newcomers to tweeting ourselves at SAIF, but already with 545 followers (yah!), this book provides crucial advice on how to make the most of the Twitter phenomenon. And although we try our best, quite frankly, we still have a lot to learn which is where Jim’s book comes in. ~ @saifscotland, Susan Burn, SAIF Project Officer. Jim and Jeremy have produced an indispensable guide to getting started with, using and getting the most from Twitter. As well as covering the basics of Twitter - how to create an account, how to set-up your profile to maximum effect and how/when/what to tweet - the manual provides a trove of hints, power tips and links to resources that will benefit any Twitter user. ~ @dancham, Dan Champion, Champion Internet. I wish I had read this before I decided to make an account on twitter, it would have been so much easier to understand. The book is the ideal tool for people who don’t do social network sites. After reading the book I have decided to deactivate my initial attempts and follow the books direction. I never thought Twitter was such a powerful tool for charities and voluntary groups, the way you have explained the power and how charities can benefit from it is brilliant. I have many spent hours ploughing through funding searches, trusts and donors when all the time the very thing I was afraid of had all the answers and contacts. Jim thanks from converting the unconverted. ~ @BdaaTerry, Terry Moseley British Disabled Angling Association Now I finally 'get' Twitter.This comprehensive yet readable guide is a must-read for anyone wanting to market anything using the medium of the 'Twittersphere'. ~ @mrjtrading, Mick Wood, Web Hosting & Design for Christians I can recommend this excellent guide having read through it myself. The guide is thorough and I am sure even seasoned tweeters will find interesting tips by reading it. ~ @eleanor_ila, Eleanor Lisney, Independent Living Aids and Equipment

Hatching Twitter Nick Bilton,2013-11-05 The dramatic, unlikely story behind the founding of Twitter, by New York Times bestselling author and Vanity Fair special correspondent The San Francisco-based technology company Twitter has become a powerful force in less than ten years.

Today it’s everything from a tool for fighting political oppression in the Middle East to a marketing must-have to the world’s living room during live TV events to President Trump’s preferred method of communication. It has hundreds of millions of active users all over the world. But few people know that it nearly fell to pieces early on. In this rousing history that reads like a novel, Hatching Twitter takes readers behind the scenes of Twitter’s early exponential growth, following the four hackers—Ev Williams, Jack Dorsey, Biz Stone, and Noah Glass, who created the cultural juggernaut practically by accident. It’s a drama of betrayed friendships and high-stakes power struggles over money, influence, and control over a company that was growing faster than they could ever imagine. Drawing on hundreds of sources, documents, and internal e-mails, Bilton offers a rarely-seen glimpse of the inner workings of technology startups, venture capital, and Silicon Valley culture.

Bismarck Michael Tamelander,Niklas Zetterling,2009-05-26 The author of Blitzkrieg covers one of the most dramatic events of the Second World War in an “outstanding book about naval warfare” (World War II History). When the German battleship Bismarck—a masterpiece of engineering, well-armored with a main artillery of eight 15-inch guns—left the port of Gotenhafen for her first operation on the night of May 18, 1941, the British battlecruiser Hood and the new battleship Prince of Wales were ordered to find her quickly, as several large convoys were heading for Britain. On May 24, Bismarck was found off the coast of Greenland, but the ensuing battle was disastrous for the British. The Hood was totally destroyed within minutes, with only three crewmen surviving, and Prince of Wales was badly damaged. The chase resumed until the German behemoth was finally caught, this time by four British capital ships supported by torpedo-bombers from the carrier Ark Royal. The icy North Atlantic roiled from the crash of shellfire and bursting explosions until finally the Bismarck collapsed, sending nearly two thousand German sailors to a watery grave. Tamelander and Zetterling’s work rests on stories from survivors and the latest historical discoveries. The book starts with a thorough account of maritime developments from 1871 up to the era of the giant battleship, and ends with a vivid account, hour by hour, of the dramatic and fateful hunt for the mighty Bismarck, Nazi Germany’s last hope to pose a powerful surface threat to Allied convoys. “Exciting story-telling . . . recreat[es] the thrill of the hunt.” —International Journal of Maritime History “[An] epic sea chase and its vivid, human details.” —World War II
