**Marine Rifle Squad MCIP 3-10A.4i** United States Marine Corps, 2020-02-13 Marine Corps Interim Publication MCIP 3-10A.4i Marine Rifle Squad June 2019 Marine Corps Interim Publication (MCIP) 3-10A.4i, Marine Rifle Squad, contains tactics, techniques, and procedures for rifle squad employment and captures lessons learned from recent decades of conflict. It covers a range of missions that Marine rifle squads deal with today or may deal with tomorrow. Despite this extended coverage, MCIP 3-10A.4i is not intended to be all-encompassing. There are many aspects of rifle squad operations that are not detailed herein because a specific publication already exists for that purpose; to cover it would be redundant. It also does not address force structure and weapon system changes anticipated over the next several years unless sufficient experimentation and testing have already been conducted to generate best practices that are ready to be codified in doctrine. This publication does serve, however, as the basic warfighting squad publication and is to be used in conjunction with the appropriate infantry platoon, company, and battalion publications, as well as other publications that relate to the conduct of ground operations. This publication is intended for Marine Corps infantry company and below leadership, to include units serving as provisional infantry. It is a foundational document that assists in the preparation and execution of squad-level operations in the current operational environment in order to accomplish their assigned missions. This publication cancels the following: MCRP 3-10A.4, Marine Rifle Squad, dated 2 December 1991, change 1 dated 24 July 1997, erratum dated 27 November 2002, erratum dated 2 May 2016, and erratum dated 22 February 2018. *McWp 3-35.3 - Military Operations on Urbanized Terrain (Mout)*  
U. S. Marine Corps, 2015-02-01 This manual provides guidance for the organization, planning, and conduct of the full range of military operations on urbanized terrain. This publication was prepared primarily for commanders, staffs, and subordinate leaders down to the squad and fire team level. It is written from a Marine air-ground task force perspective, with emphasis on the ground combat element as the most likely supported element in that environment. It provides the level of detailed information that supports the complexities of planning, preparing for, and executing small-unit combat operations on urbanized terrain. It also provides historical and environmental information that supports planning and training for combat in built-up areas

**Treatise on Musical Objects** Pierre Schaeffer, 2017-07-25 The Treatise on Musical Objects is regarded as Pierre Schaeffer's most important work on music and its relationship with technology. Schaeffer expands his earlier research in *musique concrète* to suggest a methodology of working with sounds based on his experiences in radio broadcasting and the recording studio. Drawing on acoustics, physics, and physiology, but also on philosophy and the relationship between subject and object, Schaeffer's essay summarizes his theoretical and practical work in music composition. Translators Christine North and John Dack present an important book in the history of ideas in Europe that will resonate far beyond electroacoustic

music.
