Back to the Zone Damien Lafont,2015-02-25 For athletes in any sport: a guide to entering "the Zone" at will "The Zone" is that quasi-mystical state achieved only rarely by athletes, when everything flows effortlessly and you can do no wrong. Unfortunately, we enter the Zone seemingly at random, when it is least expected. The great hope of all competitors is to be able to summon the Zone at will. Toward this end, Back to the Zone breaks the Zone down into its many components and helps the athlete optimize each one: balance, absorption, clarity, feedback, concentration, control, loss of self-consciousness, imagination, positive thoughts, energy, self-esteem, meditation, and quiet mind. Ultimately, Damien Lafont shows us that reaching the Zone is more about freeing our mind from the unnecessary rather than learning new techniques and concepts. This is a short, clear, practical guide for athletes in all sports. With it the golfer or the baseball player, the runner or the swimmer, the tennis player or the cyclist will all reach new levels of performance, and will find themselves "in the Zone" more often.

_____ "Every athlete must go beyond; transcend the barriers of pain, mind and fear. Here, they reach a holy land within themselves that gives the athlete the gift and power of feeling oneness—a connectedness. Every athlete and person has the ability to experience this grand unity and I applaud anyone who reads this book and is inspired to allow this true and natural experience for themselves." —Catherine Louise Birmingham, international equestrian rider, coach, and author of Ride for Life: Three Golden Principles for Riders "Words often feel inadequate to describe the quasi-mystical state of 'being in the Zone.' Damien Lafont's Back to the Zone remarkably achieves a new level of understanding, insightfully using the voices of those who experienced it, blending them as in a Bach fugue, as in a collective jazz improvisation. Reading this book, we feel closer to it, we feel it." —Marco Iacoboni, professor, UCLA, and author of Mirroring People: The Science of Empathy and How We Connect with Others

Write Service and Write Your Own Paycheck Jeff Cowan, 2018-03-22 There are over 125,000 places in the United States alone to take your automotive vehicle for service. On average, these businesses employ three Service Advisors which means on any given day, there are over 375,000 of these positions. Also, on any given day, approximately ten percent or 37,500 of these positions, go unfilled. What's even crazier is that this job pays an average of \$65,000 per year! People making that amount of annual income are in the top fifteen percent of income earners in the United States! Many make more than that and a fair number make over \$100,000 a year! With all of this you may be wondering why so many of these jobs are not filled? Two reasons; one is not enough people apply for the jobs and the other reason is simply that many who get the job fail because they do not know how to do the job. This book will show you how to do the job and land yourself on a service drive for a rewarding career to come!
