*Handbook Of Township Management: The Singapore Model* Ho Pin Teo,2023-04-25 Handbook of Township Management is a practice guide which highlights the key professional practices of township management in Singapore. It provides a comprehensive coverage of the purpose, set up, objectives, scope of work, processes and toolkits of town councils in Singapore, including case studies and approaches to resolution of complex problems faced by town councils. Based on the collective experiences of the town councils, various best practices are highlighted to facilitate sharing among town councils to provide better services to serve Housing and Development Board (HDB) residents and stakeholders of HDB towns. The book is a 'must read' for all elected Members of Parliament, appointed town councillors and town council management staff so that they can exercise due diligence in discharging their duties in accordance with the Town Councils Act and Town Councils Financial Rules. It can be used as a handbook for practitioners to upgrade their skills in facilities management and enhance their professionalism in the delivery of quality facility management services to satisfy their clients and customers. The book also serves as a useful reference for students pursuing courses in infrastructure and facilities management in the institutions of higher learning.

*A Township at War* Jonathan F. Vance,2018-10-15 A Township at War takes the reader from rural Canadian field and farm to the slopes of Vimy Ridge and the mud of Passchendaele, and shows how a tightly knit Ontario community was consumed and transformed by the trauma of war. In 1914, the southern Ontario township of East Flamborough was like a thousand other rural townships in Canada, broadly representative in its wartime experience. Author Jonathan Vance draws from rich narrative sources to reveal what rural people were like a century ago—how they saw the world, what they valued, and how they lived their lives. We see them coming to terms with global events that took their loved ones to distant battlefields, and dealing with the prosaic challenges of everyday life. Fall fairs, recruiting meetings, church services, school concerts—all are reimagined to understand how rural Canadians coped with war, modernism, and a world that was changing more quickly than they were. This is a story of resilience and idealism, of violence and small-mindedness, of a world that has long disappeared and one that remains with us to this day.

**Township** Michael D. Sublett,2004 The contemporary method of township government arrived in Illinois in the middle of the nineteenth century. Replacing the commission method of county government, which Illinois had employed since statehood in 1818, the township innovation spread south and westward across Illinois, almost completely ousting the county commissioners. Today, the commission format survives only in seventeen peripheral and largely rural Illinois counties. This book asserts that townships have persisted partly because they offer vital services at a reasonable cost to taxpayers, but also because of a vigorous defense of the method made by township officials with political connections in the Illinois general assembly. Discussing the successes and failures of attempts by abolition-minded citizens to eliminate all or individual townships in various counties, Township focuses on the spatial diffusion, periodic threats to, and determined persistence of the township system.

**Ballard v. Ypsilanti Township, 457 MICH 564 (1998)** ,1998 106941, 106954

*Upper Township and Its Ten Villages* Robert F. Holden with the Historical Preservation Society of Upper Township,2020 Upper Township (after being known as the Upper Precinct of Cape May County since 1723) was founded in 1798 by John Townsend, but actually, the area was first inhabited by the Lenni Lenape Indians, who lived there and hunted in the rivers and woods for food for hundreds of years. The area grew as people from New York, northern New Jersey, and other outlying areas came to the region for its rich land and natural resources. Whaling, shipbuilding, and farming became the principal jobs. They brought their cultures and religions with them (Quakers, Baptists, Methodists, and Presbyterians), and gradually, an area of just a few villages developed into a larger township with 10 different villages. The 2010 census listed the population at 12,373 over an area of nearly 69 square miles. Residents and visitors can avail themselves of a variety of historic sites such as the Tuckahoe Train Station (1894), the Gandy Farmhouse (1815), and the restored Friendship School (1830s). In addition, there are many activities available both on land and on the Tuckahoe River, as well as the pristine beaches of Strathmere.

*A First Class Township* Jack Swersie,2014-03-06 Entertainer Jack Swersie, author of the Amazon.com eBook Opening Act, recounts his first foray into the world of local politics in his newest book, A First Class Township. As part of a grassroots group, Swersie documents the efforts of twenty residents of Pocono Township in the Pocono Mountains of Pennsylvania, unhappy with their local governance, as they challenged the local political and financial power elite. With focused leadership and against strong odds, this unlikely band of average, everyday folk managed to bring a brighter future to their community. It is Swersie's hope that his historic documentation will serve not only as a blueprint, but as an inspiration for others looking to change their local governance for the better. It is truly amazing what the people can accomplish when they allow their voices to be heard.
