Final Report of the Task Force on Combating Terrorist and Foreign Fighter Travel Homeland Security Committee, 2016-11-01 The report addresses the urgent and growing threat of terrorist travel by Americans to Syria and Iraq. Despite the government's efforts to control this travel, hundreds of Americans have attempted to reach the conflict zones to join the jihadists. Using numerous briefings, interviews, site visits, and document analysis, the Task Force makes thirty-two key findings dealing with government strategy, identification of terrorists, and disruption of foreign fighter travel, including: Key Finding 1: The United States lacks a comprehensive strategy for combating terrorist and foreign fighter travel. Key Finding 14: State and local law enforcement personnel continue to express concern that they are not provided with the appropriate security clearances to assist with counterterrorism challenges. Key Finding 25: "Broken travel" and other evasive tactics are making it harder to track foreign fighters. Key Finding 29: Gaping security weaknesses overseas—especially in Europe—are putting the U.S. homeland in danger by making it easier for aspiring foreign fighters to migrate to terrorist hotspots and for jihadists to return to the West. Introductory remarks by security experts accompany the text and place these findings and recommendations in their proper context, explaining the critical need for effective strategy in combating terrorist travel from the United States.

Returning Foreign Fighters: Responses, Legal Challenges and Ways Forward Francesca Capone, Christophe Paulussen, Rebecca Mignot-Mahdavi, 2023-03-24 This book, a follow-up publication to the 2016 volume *Foreign Fighters under International Law and Beyond*, zooms in on the responses that the international community and individual States are implementing in response to (prospective and actual) returning foreign fighters (FFs) and their families, focusing on returnees from Syria and Iraq to European countries. As States and international organisations are still 'learning by doing', the role of the academic community is to help steer the process by bridging the divide between international standards and their implementation at the national level and between security concerns and human rights law. Furthermore, the academic community can and should assist in identifying ways forward that are both effective, sustainable and international law-compliant. Those are, ultimately, the goals that the present volume seeks to pursue. The observations, recommendations and warnings included in this book will be useful in future debates on (returning) FFs, both in the academic world and in the world of policy makers and practitioners, as well as to the public at large. Francesca Capone is Associate Professor of International Law at the Istituto DIRPOLIS of the Scuola Superiore Sant'Anna in Pisa, Italy. Christophe Paulussen is Senior Researcher International Law at the T.M.C. Asser Instituut in The Hague, The Netherlands. Rebecca Mignot-Mahdavi is Lecturer in International Law at the Manchester International Law Centre, University of Manchester, School of Law in Manchester, United Kingdom.

Balkan Fighters in the Syrian War Tanja Dramac Jiries, 2021-09-15 This book analyses the process of the recruitment of foreign fighters from the Western Balkans, specifically Bosnia and Herzegovina and Kosovo, to Syria and Iraq from 2012 to 2015. Utilizing in-depth, semi-structured interviews with foreign fighters and their families, as well as a number of relevant stakeholders it answers the question of what were the processes and circumstances leading up to the departure of foreign fighters from Bosnia and Herzegovina and Kosovo and what informed their agency? The author draws on the theories of social movement approaches, more specifically, contentious politics literature and utilizes the specific concepts of triggering mechanisms, which refer to the enabling circumstances that make the radicalization and departure possible, and pleasure in agency, to elaborate on individual motivation. The book also shows how a wider state- fragility within the context of the post-Yugoslav wars and the transitional period that never ended, aided radicalization and how an incomplete process of post-war transition can fuel the process of political and religious radicalization creating a wider enabling web for recruitment. It will be of interest to students and scholars of

Southeast European politics and foreign policy, post-war democratic transition, security policy and radicalization more broadly.

Foreign Fighters in Ukraine Kacper Rękawek, 2022-12-30 Foreign Fighters in Ukraine is the first comprehensive academic study taking an in-depth look at foreigners who have chosen to fight in the conflict in Ukraine. While there has been considerable focus in policy, security and academic circles on the threat from returning jihadists – so-called returnee foreign terrorist fighters – the same danger from right-wing, but not essentially terrorist, extremists and others has been largely overlooked. As Westerners rushed to join the nascent Caliphate in Syria/Iraq, others simultaneously traveled to another foreign war on what many would call Europe's doorstep: the Russo-Ukrainian war. This book unmask this largely unknown group of fighters as the author dives into the fighters' ideological and social backgrounds, their motivations for joining the conflict, their travails on the way there and their battle record in Eastern Ukraine. To a large extent based on interviews with the fighters themselves, it is a study on how and why men risk their lives while fighting a foreign war – and attract the attention of security services at home upon their return. Particularly, given the Russian invasion of Ukraine in February 2022 and the growing interest in far-right violence worldwide, the book evaluates whether these returnees constitute another security threat to the West. This volume will be of interest to all those researching small wars, terrorism, peace and conflict studies and right-wing extremism.

Jihadism, Foreign Fighters and Radicalization in the EU Inmaculada Marrero Rocha, Humberto M. Trujillo Mendoza, 2018-11-20 Jihadism, Foreign Fighters and Radicalization in the EU addresses the organizational and strategic changes in terrorism in Europe as a result of urban jihadism and the influx of foreign fighters of European nationality or residence. Examining the different types of responses to the treatment of radicalization and its consequences in the recruitment of young urban fighters and jihadists, this book offers a framework for understanding the process of violent radicalization. It critically analyses political and legal responses that have taken place within the European framework, whilst also examining a series of functional responses from social and behavioural psychology. This book then goes on to develop an explanatory model from an economic standpoint, exploring the need to adapt the fight against the financing of terrorism to the changes in the sources of financing jihadist cells and foreign fighters. Furthermore, the volume draws on experience from the prison sector to assess the process of radicalization and the possibilities of intervention. Taking an interdisciplinary approach, this book will be of great interest to students of terrorism and counter-terrorism, radicalization, European politics, radical Islam and security studies.

Daemons and Spirits in Ancient Egypt Carolyn Graves-Brown, 2018-09-01 It deals with artefacts from the Egypt Centre. This is a little known but important collection. It deals largely with themes rarely or not at all discussed in separate volumes. The theme of daemons is particularly current in academic Egyptology. It should appeal to both academic and non-academic readers.
