Uprooting Bias in the Academy Linda F. Bisson,Laura Grindstaff,Lisceth Brazil-Cruz,Sophie J. Barbu,2021-12-29 This open access book analyzes barriers to inclusion in academia and details ways to create a more diverse, inclusive environment. It describes the implementation of UC Davis ADVANCE, a grant program funded by the National Science Foundation, to increase the hiring and retention of underrepresented scholars in the STEM fields (science, technology, engineering and mathematics) and foster a culture of inclusion for all faculty. It first describes what the barriers to inclusion are and how they function within the broader society. A key focus here is the concept of implicit bias: what it is, how it develops, and the importance of training organizational members to recognize and challenge it. It then discusses the limitations of data collection that is guided by the convention assumption that being diverse automatically means being inclusive. Lastly, it highlights the importance of creating a collaborative, interdisciplinary, and institution-wide vision of an inclusive community.

50 Successful Ivy League Application Essays Gen Tanabe,Kelly Tanabe,2020-06-16 The powerful tools in this invaluable resource equip students with the skills to write successful entrance essays for top-notch universities. The strengths and weaknesses of 50 application compositions from Ivy League schools, as well as Caltech, Duke, MIT, Stanford, and University of Chicago, are analyzed in detail, highlighting techniques to emulate and mistakes to avoid. College admission officers from some of these schools provide informative strategies and inside information on their writing assessment criteria. A comprehensive writing workshop provides tips toward selecting topics, developing stories, editing drafts, and applying finishing

touches. Acknowledging that the written portion of the process is one of the most important factors for admission into highly selective schools, this helpful guidebook offers sage advice and inspiration to keep applicants on the right track.

Guide to LaTeX Helmut Kopka, Patrick W. Daly, 2003-11-25
Published Nov 25, 2003 by Addison-Wesley Professional. Part of the Tools and Techniques for Computer Typesetting series. The series editor may be contacted at frank.mittelbach@latex-project.org. LaTeX is the text-preparation system of choice for scientists and academics, and is especially useful for typesetting technical materials. This popular book shows you how to begin using LaTeX to create high-quality documents. The book also serves as a handy reference for all LaTeX users. In this completely revised edition, the authors cover the LaTeX2 ϵ standard and offer more details, examples, exercises, tips, and tricks. They go beyond the core installation to describe the key contributed packages that have become essential to LaTeX processing. Inside, you will find: Complete coverage of LaTeX fundamentals, including how to input text, symbols, and mathematics; how to produce lists and tables; how to include graphics and color; and how to organize and customize documents Discussion of more advanced concepts such as bibliographical databases and BIBTeX, math extensions with AMS-LaTeX, drawing, slides, and letters Helpful appendices on installation, error messages, creating packages, using LaTeX with HTML and XML, and fonts An extensive alphabetized listing of commands and their uses New to this edition: More emphasis on LaTeX as a markup language that separates content and form--consistent with the essence of XML Detailed discussions of contributed packages alongside relevant standard topics In-depth information on PDF output, including extensive coverage of how to use the hyperref package to create links, bookmarks, and active buttons As did the three best-selling editions that preceded it, Guide to LaTeX, Fourth Edition, will prove indispensable to anyone wishing to gain the benefits of LaTeX. The accompanying CD-ROM

is part of the TeX Live set distributed by TeX Users Groups, containing a full LaTeX installation for Windows, MacOSX, and Linux, as well as many extensions, including those discussed in the book. 0321173856B10162003

Venture Capital & the Finance of Innovation Andrew

Metrick, 2021-02 Many interesting developments have occurred in the world of venture capital since the publication of the first edition of this book in 2006, which prompted us to revise the book for the second edition. While the organization of the book remains unchanged, many of the chapters are substantially rewritten. For example, in Chapter 5, we re-ranked top VC firms, incorporating the latest performance statistics, fundraising and investment activities, notable exits, and (as always) our subjective opinions. In Chapter 6, we examine further evidence of the deepening globalization of the industry. In Chapters 3, 4, and 7, we analyze the impact of the 1999-2000 Internet bubble years on the VC risk and returns, as investments made in those years are finally mature and thus now a part of the performance evaluation analysis. We also incorporated expositional improvements throughout the book based on reader feedback on the first edition. Another feature of the new edition is that the VCV model, used extensively in Part III of the book, is now available as a Web-based application available on <http://VCVtools.com>. Significant collaborative efforts went into developing this tool, which we believe will be of interest to a broad audience, including practitioners interested in valuing VC-backed company stocks and employee stock options

No Longer Separate, Not Yet Equal Thomas J.

Espenshade, Alexandria Walton Radford, Chang Young Chung, 2009
How do race and social class influence who gets into America's elite colleges? This important book takes a comprehensive look at how all aspects of the elite college experience--from application and admission to enrollment and student life--are affected by these factors. To determine whether elite colleges are admitting and educating a diverse student body, the authors investigate such areas as admission advantages for minorities, academic achievement gaps tied to race and class, unequal burdens in paying for tuition, and satisfaction with college experiences. Arguing that elite higher education affects both social mobility and inequality, the authors call on educational institutions to improve access for students of lower socioeconomic status. Annotation

Geographic Citizen Science Design Artemis Skarlatidou, Muki Haklay, 2021-02-04
Little did Isaac Newton, Charles Darwin and other 'gentlemen scientists' know, when they were making their scientific discoveries, that some centuries later they would inspire a new field of scientific practice and innovation, called citizen science. The current growth and availability of citizen science projects and relevant applications to support citizen involvement is massive; every citizen has an opportunity to become a scientist and contribute to a scientific discipline, without having any professional qualifications. With geographic interfaces being the common approach to support collection, analysis and dissemination of data contributed by participants, 'geographic citizen science' is being approached from different angles. *Geographic Citizen Science Design* takes an anthropological and Human-Computer Interaction (HCI) stance to provide the theoretical and methodological foundations to support the design, development and evaluation of citizen science projects and their user-friendly applications. Through a careful selection of case studies in the urban and non-urban contexts of the Global North

and South, the chapters provide insights into the design and interaction barriers, as well as on the lessons learned from the engagement of a diverse set of participants; for example, literate and non-literate people with a range of technical skills, and with different cultural backgrounds. Looking at the field through the lenses of specific case studies, the book captures the current state of the art in research and development of geographic citizen science and provides critical insight to inform technological innovation and future research in this area.

How to Change Your Mind Michael Pollan, 2019-05-14 Now on Netflix as a 4-part documentary series! “Pollan keeps you turning the pages . . . cleareyed and assured.” —New York Times A #1 New York Times Bestseller, New York Times Book Review 10 Best Books of 2018, and New York Times Notable Book A brilliant and brave investigation into the medical and scientific revolution taking place around psychedelic drugs--and the spellbinding story of his own life-changing psychedelic experiences When Michael Pollan set out to research how LSD and psilocybin (the active ingredient in magic mushrooms) are being used to provide relief to people suffering from difficult-to-treat conditions such as depression, addiction and anxiety, he did not intend to write what is undoubtedly his most personal book. But upon discovering how these remarkable substances are improving the lives not only of the mentally ill but also of healthy people coming to grips with the challenges of everyday life, he decided to explore the landscape of the mind in the first person as well as the third. Thus began a singular adventure into various altered states of consciousness, along with a dive deep into both the latest brain science and the thriving underground community of psychedelic therapists. Pollan sifts the historical record to separate the truth about these mysterious drugs from the myths that have surrounded them since the 1960s, when a handful of psychedelic evangelists inadvertently catalyzed a powerful backlash against what was then a promising field of research. A unique and elegant blend of

science, memoir, travel writing, history, and medicine, *How to Change Your Mind* is a triumph of participatory journalism. By turns dazzling and edifying, it is the gripping account of a journey to an exciting and unexpected new frontier in our understanding of the mind, the self, and our place in the world. The true subject of Pollan's mental travelogue is not just psychedelic drugs but also the eternal puzzle of human consciousness and how, in a world that offers us both suffering and joy, we can do our best to be fully present and find meaning in our lives.

Global Legislation for Food Packaging Materials Rinus Rijk, Rob Veraart, 2010-03-19 Providing a truly global overview of legislation in all major countries, this practical volume contains the information vital for manufactures of food contact materials and food producers, facilitating a comparison of the requirements and making mutual requirements easier to identify. It covers not only plastics but also other food contact materials, such as paper, board, coatings, ceramics, cork, rubber, and textiles.

Affirmative Action Now James A. Beckman, 2006-03-30 This timely work addresses the present state of affirmative action in higher education after the landmark decisions of *Gratz v. Bollinger* and *Grutter v. Bollinger*. Informative chapters provide an overall understanding of the history of affirmative action in higher education in the United States, pointers to students on writing the crucial application essay, and discussion of the percentage plan states. Other chapters explore financial and student aid and historically black colleges and universities, and offer advice for veterans returning to school. Resource chapters include lists of print and nonprint sources for further research and reading. Accessible, practical and up-to-date, this one-stop guide reassures students and families that higher education remains within their grasp. *Affirmative Action Now* facilitates understanding of the current practice of affirmative action in undergraduate, graduate, and professional school admissions. Concrete suggestions, including 15 rules to consider when applying for admission,

provide a leg-up to the attentive student. In addition, detailed appendices provide an Affirmative Action Application Checklist along with other helpful data. Students, families and counselors will find a goldmine of useful information and practical advice in this accessible guide.

Race, Ethnicity, and Policing Robin S. Engel, 2010-03-15

The text includes both classic pieces and original essays that provide the reader with a comprehensive, even-handed sense of the theoretical underpinnings, methodological challenges, and existing research necessary to understand the problems associated with racial and ethnic profiling and police bias.

Entrepreneurship Heidi M. Neck, Christopher P. Neck, Emma L.

Murray, 2016-11-30 From Heidi Neck, one of the most influential thinkers in entrepreneurship education today, Chris Neck, an award-winning professor, and Emma Murray, business consultant and author, comes this ground-breaking new text.

Entrepreneurship: The Practice and Mindset catapults students beyond the classroom by helping them develop an entrepreneurial mindset so they can create opportunities and take action in uncertain environments. Based on the world-renowned Babson Entrepreneurship program, this new text emphasizes practice and learning through action. Students learn entrepreneurship by taking small actions and interacting with stakeholders in order to get feedback, experiment, and move ideas forward. Students walk away from this text with the entrepreneurial mindset, skillset, and toolset that can be applied to startups as well as organizations of all kinds. Whether your students have backgrounds in business, liberal arts, engineering, or the sciences, this text will take them on a transformative journey.
