Identity Crisis Daniel Day,2013-11-27 A train with 184 passengers derailed and crashed high in the Colorado mountains on a cold December day in 2001. No one survived but one young man. He had been thrown across a ravine and landed on a flat rock, unconscious. When he regained consciousness, he discovered he had amnesia. He didn't know where he was, where he came from, or where he was going. He didn't know his name and had lost all of his identification and money during the wreck. During the next couple of days, he worked his way down the mountain until he found a small town. He tried to get work at different businesses in town but was unsuccessful. During the months that followed, as he struggled to survive and search for his identity, he encountered people of many different backgrounds. He punished some people, destroyed a drug ring, exposed the Mob, dealt with street thugs, and helped police catch a gang of thieves. He helped many other people: an old lady with little money, an abducted and abused girl, two mothers living in a homeless shelter, a destitute woman, and a distraught special-needs girl. He also saved one man's company and another man's ranch. All the people who met this unknown man were amazed at the deeds he preformed, the people he helped, and the crooks he destroyed, all while going through an identity crisis. Who was this man?

American Sports [4 volumes] Murry R. Nelson,2013-05-23 America loves sports. This book examines and details the proof of this fascination seen throughout American society—in our literature, film, and music; our clothing and food; and the iconography of the nation. This momentous four-volume work examines and details the cultural aspects of sport and how sport pervasively reflects—and affects—myriad aspects of American society from the early 1900s to the present day. Written in a straightforward, readable manner, the entries cover both historical and contemporary aspects of sport and American culture. Unlike purely historical encyclopedias on sports, the contributions within these volumes cover related subject matter such as poetry, novels, music, films, plays, television shows, art and artists, mythologies, artifacts, and people. While this encyclopedia set is ideal for general readers who need information on the diverse aspects of sport in American culture for research purposes or are merely reading for enjoyment, the detailed nature of the entries will also prove useful as an initial source for scholars of sport and American culture. Each entry provides a number of both print and online resources for further investigation of the topic.

The Cormany Diaries James C. Mohr,1982-12-15 This unique pair of diaries offers an unforgettable account of the life of an average Northern family coping with the dangers and tensions of the Civil War. There were thousands like them, but few left such a clear and indelible record of their experiences. Rachel Cormany (nee Bowman) met Samuel Cormany at Otterbein University in Ohio. After her husband enlisted in a cavalry unit, she writes poignantly of her anxieties, poverty, and loneliness. Samuel, on the other hand, is ambitious in his military career, and tells enthusiastically about his engagements that include camp life, cavalry raids, army politics, and his battles with alcohol. Editor James C. Mohr has arranged the diaries so that the voices of husband and wife alternate, and his notes enlighten many of the issues relating to the diarists and their daily lives.

Bad Choices Make Good Stories: The Strange True Story of the First Influencer Oliver Markus Malloy,2020-07-27 Special Anniversary Omnibus: Get all three books for the price of one! ____ Part 1: Going to New York ____ The strange true story of the first influencer. Oliver, a hacker living in Germany, meets Donna online. She's an American girl living in New York. After chatting and talking on the phone for months, he finally decides to surprise her with a visit. But he soon finds out that things are not what they appeared to be, and that this visit will change his life forever. “Nobody has ever killed themselves over a broken arm. But every day, thousands of people kill themselves because of a broken heart. Why? Because emotional pain hurts much worse than physical pain.” - Oliver Markus Malloy, *Bad Choices Make Good Stories* “Don't ever think you're better than a drug addict, because your brain works the same as theirs. You have the same circuits. And drugs would affect your brain in the same way it affects theirs. The same thought process that makes them screw up over and over again would make you screw up over and over as well, if you were in their shoes. You probably already are doing it, just not with heroin or crack, but with food or cigarettes, or something else you shouldn't be doing.” - Oliver Markus Malloy, *Bad Choices Make Good Stories* A must read. One of those rare books that sucks you in from the first to the last page. □□□□ - Amazon Review ____ Part 2: The Heroin Scene in Fort Myers ____ America has a heroin problem. Oliver moves from New York to Florida. Battling with depression, he gets sucked into the seedy underworld of Fort Myers, where he encounters a number of female drug addicts. He empathizes with them because of his own traumatic past. Oliver feels compelled to try to help them escape the addict lifestyle, but learns the hard way that he is in way over his head. A truly fascinating and unexpected look at the darker side of addiction. □□□□ - A. Allyson, Goodreads ____ Part 3: Finding Happiness in Los Angeles ____ If you're a fan of Dave Chappelle or John Oliver, you'll love this book. After writing a book about his bizarre adventures in America's underbelly, Oliver finally finds love among his readers on Goodreads. I think it will become a standard for people who are dealing with loved ones struggling

with addictions. □□□□ - B. Bridges, Amazon Review Dear Reader, You're a little late to the party. Where the hell have you been? This is already the third and final part of the trilogy, and you're only joining us now? Tsk tsk tsk. Let me get you up to speed on what you've missed so far: In book one, Going to New York, you missed the utterly fascinating, nay spellbinding saga of me growing up in Germany and later emigrating to New York. I was a brooding, troubled teenage hacker. Wow! Good stuff! It's almost like my life was the perfect kind of crazy to make a really awesome book! Anyway, being a teenage hacker came in handy later in life. I went from rags to riches thanks to my keen understanding of technology and how to use the web to my advantage. In New York I was married to Donna, a girl I had met online. She was an agoraphobic, prone to temper tantrums. And fun was had by all, which led to a divorce 16 years later. That's where the story gets really interesting. I began dating. It didn't go well. I was no good at it. OK, truth be told, I was really bad at it. Apparently I had terrible taste in women. A heroin-addicted hooker named Alice broke my heart and robbed me of my will to live. Doesn't sound very fun, does it? But it's a fun read, I promise. Dark, but fun. Mesmerizing even! Brokenhearted, I moved from New York to Florida. That's where the first book ends. The second book you missed (I'm not mad at you. I'm just disappointed.) is called The Heroin Scene in Fort Myers, which is a very fitting title, believe me. Sometimes I'm a slow learner, so I dated my way through the heroin scene in Florida, and I couldn't figure out for years why I wasn't finding any wife material. But oh how I tried. And tried. In all the wrong places. Pretty sad. I'm not proud of it. After years of sad pathetic sex with heroin addicts I was a wreck. My younger self wouldn't have even recognized me. Lucy and Veronica had turned me into a broken, humiliated shell of a man. My heart had been ripped out of my chest so many times, it was a miracle I hadn't killed myself yet. (Seriously, it's a fun read. I promise!) At the end of the book I had it up to here with heroin addicts. I told myself never again would I let myself be sucked in by the sweet lies of manipulative, fake love. The name of the final chapter was NO MO HO. No more whores. I needed to change my life before my life was going to kill me. I hopped on a plane, back to my native Germany, to lick my wounds and heal before returning to America. That's where the second book ended. And now, for our third and final act...

The Extraterrestrial University, once hailed as the savior of civilization, now viciously controls the human population at the pleasure of the 512 mega-corporations of Sol. Manipulation, through selective elimination, has yet to fail. For this they use the cunning and deadly triOperativ assassins of SpecSci. Join Uriens Raelix and Aurelia Bain on their epic quest to save the ethos of humanity and return freedom to the human race.

Sol Invictus Eric K Gale, 2019-02-27 Only a long dead and quarantined orb of darkness remains where the once miraculous sapphire called Earth orbited its home star, Sol. All of the sovereign nations perished alongside Terra, as interplanetary megaCorporations wrested control of the Solar System-reducing their employees to serfdom and slavery. The auspicious commoners serve one of the 512 Solaran megaCorporations, while the remainder becomes rejectamenta on the auction block. The corporatocracy now strictly enforces a revived caste system and individual freedoms no longer exist. The privilege of liberty lost its place-even its meaning--in the thousands of Extraterrestrial colonies, from Mercurius to the Kuiper Belt. The University, once hailed as the savior of humanity and civilization, now viciously controls the Solaran populace at the behest of the avaricious megaCorporations. Manipulation via selective proscription, torture, and imprisonment never fail to effect the desired result. To this end, the University utilizes the cunning and deadly triOperativ assassins of SpecSci. Uriens, one of these agents skilled in the tradecraft of database hacking, interrogation, and assassination has lost the zealotry instilled in him since the impressionable age of eight orbits. Now driven by infinite remorse and sorrow, Uriens will make the only decision possible other than death-to find a new path. He will enter into an epic quest spanning Sol entire--in an attempt to rescue the ethos of humanity, return freedom to the Solar System, and restore his own battered mind, body, and soul. Will Uriens and his cohort succeed in their perilous ordeals, or merely worsen humanity's plight--as well as their own?

You Don't Stop Living Jack Dold,2012-04 A Cancer diagnosis is never something you want to hear, but many people have claimed that it's the best thing that ever happened to them. The best? Not as crazy as it sounds when they tell you how cancer brought out a powerful love in themselves and their loved ones that fundamentally changed their lives. That love often can be a key to healing. When Jack Dold's wife of forty-seven years was diagnosed with sarcoma, he vowed to make Mary the center of life for her year of treatment. He has recorded that year with all of its ups and downs-surgery, chemo, and radiation, but also delightful family holidays, the ordinary

pleasures of loving grandchildren and the ongoing support from a whole army of friends. Jack watched Mary bloom from the love that surrounded her, even during the darkest days. *You Don't Stop Living* offers encouragement to families facing cancer by reminding them that illness is only one aspect of their lives. They will still empty the dishwasher, weed the garden, be blessed by the kiss of a grandchild and the love of their children, and strengthened by the hug of a friend. Lovingly told, this book is a reminder that cancer families will still have an abundance of life and warmth to share. Text: Jack Dold has been writing his journal for almost 20 years, a chronicle of his extensive world travels as the owner of Golden Gate Tours, and also of the events, large and small, in the lives of his family and friends. *You Don't Stop Living* filled his journal writings for the past year, as he describes the successful struggle of his wife, Mary fighting sarcoma cancer, and the therapeutic help she received from her family and friends. Jack recently published his first novel, *Crosshairs*, and is presently working on a major historical novel. (Picture to be provided)

With Charity for All Ken Stern, 2013-02-26 Vast and largely unexamined, the world of American charities accounts for fully 10 percent of economic activity in this country, yet operates with little accountability, no real barriers to entry, and a stunning lack of evidence of effectiveness. In *With Charity for All*, Ken Stern reveals a problem hidden in plain sight and prescribes a whole new way for Americans to make a difference. Each year, two thirds of American households donate to charities, with charitable revenues exceeding one trillion dollars. Yet while the mutual fund industry employs more than 150,000 people to rate and evaluate for-profit companies, nothing remotely comparable exists to monitor the nonprofit world. Instead, each individual is on his or her own, writing checks for a cause and going on faith. Ken Stern, former head of NPR and a long-time nonprofit executive, set out to investigate the vast world of U.S. charities and discovered a sector hobbled by deep structural flaws. Unlike private corporations that respond to market signals and go out of business when they fail, nonprofit organizations have a very low barrier to entry (the IRS approves 99.5 percent of applications) and once established rarely die. From water charities aimed at improving life in Africa to drug education

programs run by police officers in thousands of U.S. schools, and including American charitable icons such as the Red Cross, Stern tells devastating stories of organizations that raise and spend millions of dollars without ever cracking the problems they set out to solve. But he also discovered some good news: a growing movement toward accountability and effectiveness in the nonprofit world. With *Charity for All* is compulsively readable, driven in its early pages by the plight of millions of Americans donating to good causes to no good end, and in its last chapters by an inspiring prescription for individual giving and widespread reform.

Death to the BCS: Totally Revised and Updated Dan Wetzel, Josh Peter, Jeff Passan, 2011-10-13 With all-new reporting, a completely revised and updated second edition of the bestseller that takes down the Great Satan of college sports: the Bowl Championship Series (BCS). Every college sport picks its champion by a postseason tournament, except for one: Division I-A football. Instead of a tournament, fans are subjected to the Bowl Championship Series, an arcane mix of polling and mathematical rankings that results in just two teams playing for the championship. It is, without a doubt, the most hated institution in all of sports. A recent *Sports Illustrated* poll found that more than 90% of sports fans oppose the BCS, yet this system has remained in place for more than a decade. Building upon top-notch investigative reporting, Wetzel, Peter, and Passan at last reveal the truth about this monstrous entity and offer a simple solution for fixing it. *Death to the BCS: Totally Revised and Updated* is brought up to date to cover the 2010-2011 season, listing which teams were screwed by the BCS (such as TCU), how much money college football left on the table by not having a playoff (based on 2011 tax filings), and how the calls for the abolition of the BCS grew even louder this past year. The book also includes findings from interviews with power players, as well as research into federal tax records, congressional testimony, and private contracts. The first book to lay out the unseemly inner workings of the BCS in full detail, *Death to the BCS* is a rousing manifesto for bringing fairness back to one of our most beloved sports.
