Moseley. Within these pages, Jim Moseley's closest friends and associates gather one last time for a sendoff like no other . . Journey into the void of the strange and unknown and tag along closely in the footsteps of a man who followed the UFO mystery and the paranormal for well over half a century. His wit, humor and frequent barbs and sarcasms were well known - and sometimes feared! -- by believers and skeptics alike as he took no prisoners in his quest to get to the bottom of a mystery that has baffled so many for so long. As editor of Saucer News - the premier magazine in the UFO field for many years - to his later satirical

newsletter Saucer Smear, Jim met and mingled with the best and the worst of the in crowd. He admits to a bit of fun-loving hoaxing of his own, plus a second career of grave robbing in South America, which partially financed his globe trotting paranormal hijinks - not any endowment from the CIA as some of his most hostile, cynical critics would long contend. In addition to the musings and gossip of those that he remained closest to in life, Jim (with the help of endeared drinking buddy and ghost writer Gray Barker) fans out across the country to personally investigate some of the most perplexing UFO cases of all time - with periodic stopovers at Wright-Patterson Air Force Base, home of the controversial Project Blue Book (long since closed down). Cases personally pondered over by Moseley in this book include: ** I Met Two Men From 'Venus' -- And They Had No Fingerprints! ** What Happened To The Authentic UFO Film That Vanished Without A Trace? ** Kidnapped By Aliens? - A Most Strange And Unusual Case. ** The Angels Of Oahspe. ** Adamski, Williamson And The Case For The UFO Contactees. ** Behind The Barbed Wire Fence At Wright-Patterson Air Force Base. ** The OSI And The Lubbock Lights. ** ETs And Alien Wreckage - The Strange Story Of An Air Force

New England UFOs Taryn Plumb,2019 Centuries before the U.S. Air Force launched Project Blue Book or mysteries swirled around the enigmatic Area 51, the Puritans in 1639 witnessed a great light in the sky over Massachusetts. It was the first recorded sighting of an unidentified flying object. Now, sightings are so common they're not even front-page news, and the Air Force just released all the records from Project Bluebook.Despite all this, there remain sightings that cannot be easily explained. Are we being visited by another species? The Universe, it seems, is full of mystery. Tracing the strange history of UFO sightings in the region, Taryn Plumb presents the stories of sightings or events in each New England state. Many are unexplained sightings of strange objects or lights in the sky; and some tell the tales of alien encounters and even abductions. All will keep you glancing to the night sky, wondering what that was out of the corner of your eye.

The Collected Issues of SAUCER NEWS James Moseley,2020-07-06 It is generally a good idea

to return to the classics in any genre. This also goes for UFO literature. Rereading a book after ten or twenty years is a rewarding experience. You will discover new data and ideas you didn't notice before. The reason, of course, is that you are, in many ways, not the same person reading the book the second or third time. Hopefully you have advanced in knowledge, experience, intellectual and spiritual discernment. A good starting point is to reread the contactee classics of the 1950s, in order to understand the deeper mystery involved in what happened during that era. James Willett Moseley (August 4, 1931 - November 16, 2012) was an American observer, author, and commentator on the subject of unidentified flying objects (UFOs). Over his nearly sixty-year career, he exposed UFO hoaxes. He was best known as the publisher of the UFO newsletters: Saucer News, and its successor: Saucer Smear, which became the longest continuously published UFO journal in the world. SAUCER NEWS was the official newsletter about ufology established by the SAUCER AND UNEXPLAINED CELESTIAL EVENTS RESEARCH SOCIETY by James Moseley as editor. The main idea was to create a forum for UFO experience and saucer sightings. These issues of SAUCER NEWS, letter size,

Our vision is to preserve the legacy of literary history by reprint editions of books which have already been exhausted or are difficult to obtain. Our goal is to help readers, educators and researchers by bringing back original publications that are difficult to find at reasonable price, while preserving the legacy of universal knowledge. This book is an authentic reproduction of the original printed text in shades of gray and may contain minor errors, and readers' pencil markings from the original scanned copy. Despite the fact that we have attempted to accurately maintain the integrity of the original work, the present reproduction may have minor errors beyond our control like: missing and blurred pages, poor pictures and markings. Because this book is culturally important, we have made available as part of our commitment to protect, preserve and promote knowledge in the world. These issues are an authentic reproduction of the issues of UFORUM for the years: 1955- 1968. Some of the issues are missing. UFO Encounters J. B. Michaels, 2017-12-16 ORIGINAL INSIDE COVER For years the government has denied and possibly covered up the existence of UFOs. Despite the efforts, thousands of people around the world claim to have had UFO and alien encounters and refuse to accept these denials. Modern technology and the candor of witnesses has helped to support the claims of alien visitors, abductions, and UFO sightings. In UFO Encounters, author J.B. Michaels exposes evidence on the Carp landing and the Brookhaven incident which helps support the existence of aliens and government cover ups. In Carp, Ontario Canada, a local resident video taped a craft as it landed on a farm. After expert examination the tape was verified to be authentic. Several years later, a mother spacecraft was

shot down by the military over Long Island. Another smaller ship lost control and crashed in nearby South Haven Park causing a fire that was seen by local residents. J.B. Michaels has interviewed over two hundred people who witnessed the Carp landing, the South Haven Park crash or actually encountered the alien that survived the crash and was held at Brookhaven Labs. These conversations along with the video footage that Mr. Michaels obtained prove without a doubt that UFO Encounters are a reality. THE CRASH It was a clear night. There wasn't a lot of pollution on this part of Long Island, and there was a beautiful, cloudless night sky, with brilliant shining stars from horizon to horizon. Richard jumped as he noticed a V shaped formation of glowing lights moving above the trees. Holy shit! said Todd, holding his arm in front of his face. The objects were moving above Brookhaven Labs to the north of them. What are those? Suddenly he gasped as a huge glowing sphere became visible in the sky. I can't watch this and drive! Todd rammed his foot down on the brake. The truck skidded to a stop at the side of the freeway. Both boys jumped out of the truck. Whoa! said Richard. Will you look at this? Above the trees, a glowing ball hung motionless in the sky, streams

of yellow, orange, and dark crimson flames swirling around it, the unnatural hue of those colors reflected off the storm clouds moving in from the east. Three smaller craft darted about the sphere and then were motionless. They were much smaller, each perhaps the size of a commercial plane. They were triangular, with rounded edges like a Stealth jet. However, the sphere - mother ship as Richard later would call it - was immense. It was some 60 to 80 feet in diameter, the size of a four to five story building. What made it all the more unusual was the almost complete silence. The two boys looked up, mesmerized by the bright objects and the magnetic resonant hum that they felt more than heard. The lights of the truck flickered, blinking in an odd strobe like rhythm. Suddenly the lights along the highway dimmed, and began to go out one by one. A wave of darkness swept across the rows of houses that were just a few hundred feet from the highway. It's a blackout, said Dan. Somebody's drawing power from the main lines, and I don't think it's those UFOs. There was one last surge of power and then all the lights in the town for several miles around went out. The giant sphere glowed as a beam of energy shot from the ground just north of them much too close. There was a low rumble,

and the craft shimmered, became incandescent, and then exploded. Two of the other craft streaked across the sky, leaving a shining trail of vapor behind them, and then one shot straight up into the night sky. The remaining craft just hovered, as if whatever was piloting it was completely stunned by the destruction of the larger vessel. Before it could make a move to escape, another beam of light pulsed up from the ground near Brookhaven National Laboratory. Energy swirled around the object. The crippled ship veered at a 45-degree angle, and then plummeted down into Southaven Park. The earth trembled as the object crashed and huge flames shot up i

UFO Cold Cases: Kansas Dave Toplikar, 2016-01-30 This is not fiction. It's the genuine article. The real Megillah. True-to-life X-files - UFO cold cases that the U.S. Air Force couldn't explain. It seems hard to believe now. But for two decades, the USAF considered strange lights, flying saucers and other UFOs as serious business. Special agents went out to investigate. Analysts poured over their findings. Their effort, which eventually became public, was called Project Blue Book. The analysts tried to explain away most sightings as common everyday objects, such as planets, tricks of light, balloons,

birds, meteors, or regular aircraft. But not all could be identified - more than 700 reports are still listed as unknown. Seeking the truth Journalist Dave Toplikar, who has had a long career reporting on politics, government, police, courts, and business, decided to take a fresh look at some of those baffling unknowns. A Kansas native, Toplikar started his quest by investigating 10 UFO cold cases from his home state. He hunted down sightings from Wichita, Goodland, Plainville, Pittsburg, Howard, Clay Center, Norcatur and several from the Kansas City area. The cold cases included confidential hand-written notes and classified questionnaire forms. There were redacted witness statements and sketches, teletype communications, letters, photostats and news clippings - dozens of scraps of information from the 1940s, '50s and '60s. Astonishing accounts Piecing them together, the author found tales that seemed right out of the realm of science fiction. The documents describe amazing crafts with unprecedented speeds and maneuvering ability. The witnesses had upstanding reputations and credibility. And despite facing ridicule, they stuck to their stories. Ties to Roswell? Toplikar, who has won multiple journalism awards for storytelling, has compiled the incidents into easy-to-read

narratives. He included historical context and how some of them related to classic UFO cases, including the alleged crashes in Roswell and Aztec in New Mexico. He also reads between the lines - did these cold cases actually end with the Air Force, or were they passed off to other unknown agencies cloaked within our national security labyrinth? Want to believe? If you've seen a UFO or know people who have, you'll read about what was seen by others, people just as serious and puzzled as you. If you're new to UFO research and want to learn more about Project Blue Book, this report is for you. If you're a confirmed skeptic, this might just give you a reason to see these cold cases as the USAF once did - as serious business. War of the Words Craig R. Myers, 2006 Journalists should avoid cliches, but they are just too useful. A picture is worth 1,000 words, and in the case of the 38 Gulf Breeze UFO photos shot by Ed Walters in 1987-1988, millions of them -- weird, angry, hilarious and profound words. Words by Dave

Barry, Mike Royko and Fox Mulder. Words on Unsolved Mysteries and Oprah. With the 20th anniversary approaching I think about another cliché with a twist: Truth is funnier than fiction. As a reporter in Pensacola, Fla., I found myself in a War of the Words. TV networks flocked to town, Believers and Debunkers battled over Ghost-Demon photos and Army deserters arrived in search of the Second Coming. With the mayor and police chief on one side, and community leaders and the local paper on the other, I went looking for the last word on the subject. I found a spaceship. REVIEW: Millions of Americans believe that we are regularly visited by beings from outside the Earth, and many are sure they have seen UFOs and even see them regularly. Craig R. Myers has not only seen one, but he has held it in his hand. This was in Florida, in the middle of the famous Gulf Breeze UFO mania of twenty years ago, and the UFO which he had himself captured was of distinctly terrestrial origin, but it had been made by the hoaxer who had sparked the Gulf Breeze sightings. There are plenty of books to tell you where UFOs come from, how we can invite more of them, and what to do when one captures you. War of the Words: The True but Strange Story of the Gulf Breeze UFO

(Xlibris) probably won't match sales of many of those other books, but it is shocking and revelatory in its own way. It is impossible to argue, of course, that since this episode was a hoax, all UFO sightings are hoaxes and those who sight them are being fooled, but Myers has given a story with a skeptical bent that indicates the most useful way to regard such phenomena. It is a funny book; it even includes Dave Barry's amusing column about his own visit to Gulf Breeze and his investigation of the mania. It is, however, a serious report by a journalist who covered the story at the time; skeptics ought to enjoy it and True Believers ought to learn from it. Woodward and Bernstein got the story of their lifetimes because they happened to be in the right place and time. Not every journalist's story of a lifetime has such national implications, but Myers is grateful that he was around for what he calls the most interesting, frightening and funny story of my at-that-time short career. Maybe this was just in contrast to his usual beat for the Pensacola News Journal, where he reported upon what the county commissioners and the utility authority were up to. A rival paper, The Gulf Breeze Sentinel, published anonymously-submitted photographs of a UFO in November 1987, but they were not the first UFOs

seen in the area. Gulf Breeze is directly in the flight path of an airport, and is near a naval air station and an Air Force base, so that there are plenty of lights in the sky. In such a locale, if you are of a mind to be fooled by a mysterious light, says Myers, ... it is quite simple to let yourself think that this is something besides an earthly craft. Indeed, on any clear night, the Gulf Breeze Research Team might be out doing what it called a Skywatch, excitedly whispering to each other Do you see that one? So some Sentinel readers were already primed when the paper published a picture of a classic flying saucer. Myers says there are two ways a paper can report on UFOs. One is to report on the broad phenomenon of UFO sightings, and the other is to report UFO sightings as frequently, and with as little confirmation and editing, as it publishes engagements, weddings, births, Optimist Club donations, honor rolls, obits, and arrests. He does not crow too much that his Journal chose the former while the Sentinel chose the la

UFO's Exopolitics and the New World Disorder Ed Komarek, 2012-06-27 The thesis, of this book, is that if our leaders had not failed us in the 1940s and 1950s, the positive vision of Star Trek could

now have become our present day reality. The author shows through case after case of credible whistleblower and extraterrestrial contact testimony, that had our leaders embarked on a policy of openness and transparency, rather than secrecy and cover-up, human evolution, would have moved forward instead of backward and the earth's environment protected. The author shows that about the time the Bilderberg group was founded in 1954, the European and American oligarchy chose to play to humanity's dark side, deciding to selfishly and savagely protect its established interests and institutions, and its covert control over the masses, when confronted with alien contact. The oligarchy chose to subvert democratic principles and the rule of law, in order to secretly monopolize extraterrestrial technologies, for immense profit, making this along with fiat money, a foundation stone of its covert global power. Under the guise of National Security, leaders and ordinary citizens that opposed the UFO/ET cover-up were discredited, harassed and in some cases murdered, under a covert policy of denial and ridicule. Fantastic and shocking as it would seem to some, rather than lead mankind to an enlightened future offered to us by ethical extraterrestrial races and civilizations, our

autocratic leaders agreed to secret Faustian treaties and technological transfer agreements with less ethical extraterrestrial races, thereby creating the greatest national security threat of all time. We can only imagine our future, if overt space travel had become commonplace, with ethical ET cultural and technological exchanges bringing in a new age of enlightenment, along with exotic cheap non-polluting energy and transportation, from reverse engineered alien technologies. Ed Komarek has had over 40 years of experience in the UFO field and is one of the founders of the newly emerging field of Exopolitics evolving out of the more general UFO/ET field. He maintains a blog, exopolitics.blogspot.com/ having written over 200+ articles the past decade that have been published in the Internet press including, UFO Digest, OpEd News, and the Canadian National Newspaper. Ed can be reached on Facebook, where he posts UFO/ET news items daily to his wall, for those that friend him. Ed can also be reached by email at: edkomarek@yahoo.com

UFO Report Robert K. Moffet,1985

UFOs in Wartime Mack Maloney,2011-12-06 UFOs do exist. They are found in Renaissance art,

on ancient coins, etched on cave walls—and even reported in the Bible. Even more surprising is where they are documented most: in times of armed conflict.... Accounts of hovering objects, when war is imminent, reach as far back as 312 A.D. when seen by Roman Emperor Constantine I as he led his troops to battle. They supposedly aided George Washington in winning the American Revolution. UFOs were also reported flying over Normandy on D-Day, and were dubbed “foo fighters” by World War II pilots. In Vietnam, an Air Force commander said they were “plagued” by UFOs. Even today, the reports continue to pour in, as noiseless objects are seen darting over the battlegrounds of the Middle East. These sightings, as inconceivable as they may seem, are made by high ranking officials, soldiers and news reporters. Why do these reports spike so drastically during wartime? Could it be mistaken aircraft? Or is someone, or something, looking in on us.... Includes incredible photographs of UFOs

UFO Garrett M. Graff, 2023-11-14 From Garrett M. Graff, New York Times bestselling author of Raven Rock, The Only Plane in the Sky, and Pulitzer Prize finalist for history Watergate, comes the

first comprehensive and eye-opening exploration of our government's decades-long quest to solve one of humanity's greatest mysteries: Are we alone in the universe? From the post-war Project Blue Book to the Pentagon's modern-day Advanced Aerospace Threat Identification Program, bestselling author and historian Garrett M. Graff presents the first serious narrative history of humanity's hunt for alien life—including the military and CIA's secret, decades-long quest to study UFOs. A thrilling story of science, the Cold War, Nazi research, atomic anxieties, secret spy planes, and the space race, UFO traces the real-life history of the U.S. government's hunt for "unidentified aerial phenomena" here on Earth, from Roswell to Rendlesham Forest, as well as the story of the small group of forward-thinking scientists—astronomers like J. Allen Hynek, Frank Drake, Carl Sagan, and Jill Tarter—who launched the search for extraterrestrial intelligence far from Earth. Drawing on original archival research, declassified documents, and interviews with senior intelligence and military officials, Graff's book traces the long history of our quest to understand one of the most profound and popular questions of all time: whether or not aliens exist.
