Ufo Presences , 2018-03-27 *UFO Presences* explores the places where UFO sightings have taken place across America: in California, Arizona, New Mexico, Texas, and of course the infamous Area 51, along South Central Nevada's State Route 375--the so-called Extraterrestrial Highway, where so many travelers have reported UFO observations and other bizarre alien activities. Spanish photographer Javier Arcenillas (born 1973) has diligently photographed these locations, and sequenced them in this book as a visual

road trip, mixing his photographs with news clippings and other relevant ephemera. UFO Presences is the winner of RM's 6th Photobook Award with a jury composed of David Company, Lesley Martin, Julien Frydman, Susan Meiselas, Martin Parr and Alec Soth, among others.

The Secret UFO Contacts of Paul Villa Timothy Green Beckley, Tim R Swartz, Sean Casteel, 2020-03-03 SHOCKING FULL COLOR PHOTO ALBUM OF OVER 100 PAGES - SOME UFOLOGISTS BELIEVE THESE PICTURES TO BE MORE AUTHENTIC THAN THOSE OF BILLY MEIER! HERE IS SHOCKING PICTORIAL EVIDENCE OF UFOS ON EARTH AND ONGOING ENCOUNTERS WITH ET'S AS EXPERIENCED BY A HUMBLE MAN FROM RURAL NEW MEXICO. The UFO photos of one Paul Villa are in a category all of their own. They show solid hardware of what can only be alien craft originating from outside Earth's atmosphere. For a period of several years Paul Villa remained a rather mysterious figure, claiming contact with advanced beings from other worlds. What placed him in a category almost all by himself is the fact that he was able to produce - just about on command! - photographs of real-world, solid vehicles - not supernatural manifestations - which hovered and darted about near his desert mobile home. According to Villa, he would receive a telepathic message that his otherworldly friends were in the neighborhood and he should go outdoors. There in the sky would be silvery discs complete with windows, looking like nothing manufactured on Earth. The ships Villa saw and photographed ranged in size from just a few feet across to well over 30 feet in diameter. WERE THEY FAKED? WAS HE SILENCED? As might be expected, the UFO skeptics began to attack Villa's photographic evidence. They claimed that his photos - over 50 of them - were faked, offering as proof supposed computer enhancements which are open to various interpretations. After a while, Villa became silent. There were rumors that he had been threatened and that his house had been burned to the ground. The late Lt. Col. Wendelle Stevens, who possessed the world's largest UFO photo collection, was impressed enough to want to meet Villa and bring his story to the world. Stevens looked high and low for the photographer and, after a lengthy search, found him hiding out. Stevens got this amazing gentleman to open up completely and tell his story for the first time. The result is one of the few books with color photos of alien spacecraft ever presented to our world as proof of the existence of another race of beings who live among the stars but visit us on a regular basis. The photos in this book are simply astonishing . . . showing a UFO hovering over Villa's home as well as over his farm equipment, hovering above his work truck and just hanging out in the neighborhood. For the first time, we can see two or three different types of UFOs in photos, which add to the weight of evidence that the shots have not been staged. We see spinning tops standing by the larger ships as if to protect them. Villa also claims that the weeds in some of the photos were wilted due to the magnetic field which surrounded the craft as they came in low over the ground. And if the skeptic still wishes to be a nonbeliever, it should be pointed out that Villa never profited from any of the pictures he took, though he might have been able to sell them for hundreds of dollars. Instead he gave away stacks of copies free of charge to schools, prisons, libraries and government officials. But THE SECRET UFO CONTACTS OF PAUL VILLA goes beyond just the photographic evidence. It gets into his contact claims and his belief that aliens live and work among us and are here now getting us ready for that great day when we will be unshackled from our chains and redeemed from our present failed condition. It would seem that such a time is upon us right now! THIS IS A LARGE FORMAT 8x11 book with page after page of Paul Villa's impressive COLOR photos -- the best quality we could obtain. It is a coffee table book that will be a great enhancement to any collector's library. There has never been such a tantalizing collection of UFO pictures

printed in color in America that has so defied the critics. This book also includes the UFO contacts of Italy's Alien Friendship Case.

UFO's Kyle Hanson, 2014-06-30 'UFO's' contains my unreleased photography sessions over the past three years. They are some of my most special and personal in my collection. After three years of traveling across the country, living in five of the country's largest cities, three quarters of a million photographs taken and twenty books, it was time to look back on everything I had been privileged enough to have experienced and witnessed. I traveled and photographed to find myself in the world around me. To seek my own answers to the questions I had asked. Because I asked and truly believed, the answers steadily came flowing in. These photographs are my truths. There are four main segments in this book which reveal locations that have played an important role in my life to become the photographer and artist I am today. Wisconsin, Chicago, Washington DC & California have all taught me lessons and revealed new experiences. I am thrilled to have this project as my submission for #artforfreedom, Madonna's Secret Project Revolution. These are my UFO's, my UnFinished Odyssey's Life, Love, Peace, Joy, Laughter, Happiness Kyle Hanson, Creative Boulevards

The UFO Repeaters - Seeing Is Believing - The Camera Doesn't Lie Timothy Green Beckley, Sean Casteel, 2015-03-19 OVER 100 NEVER BEFORE PUBLISHED UFO PHOTOS! ARE THEY THE CHOSEN? Here are well documented cases of those rare individuals who have experienced an ongoing series of encounters with UFO occupants - and have the uncanny ability to take remarkable photos of their craft on an ongoing basis. - Some showing the aliens themselves! THEY ARE KNOWN AS THE UFO REPEATERS. . . From the very first UFO sighting, it was assumed that a UFO witness was simply in the right place at the right time and that observing another UFO sometime in their life would be like being stuck by lightning more than once. But this concept is now generally thought to be utterly false - for there is a subset of very special individuals who have the uncanny ability to call down UFOs at will and to even take repeated photographs of their craft. UFO expert Tim Beckley asks probing questions like: - Is the UFO Repeater solely responsible for the images on film or video? Do the aliens keep track of their Chosen Ones with perhaps an implanted homing device? Or does the repeat witness blindly stumble on to a locale that has become a hotspot that draws repeated UFO activity? Here are some of the individuals who have the described magical and mental powers to sustain an ongoing relationship with other-worldly beings: ++ HOWARD MENDER - - Throughout his life - since childhood - he was contacted by trusting, caring, flying saucer occupants who landed on his New Jersey farm, including a beautiful space woman who told Howard that they would be with him throughout his life ++ MARC BRINKERHOFF -- This NY-based contacts treats us to stunning photos taken of UFOs upon demand, including pictures of the occupants themselves. He often captures flying discs outside his Manhattan apartment. PAUL VILLA -- Space ships hover over his trailer and truck and come to rest on tripod landing pods. Vandals burned his home to ground but he continues his quest. ** JOE FERRIERE -- Talk show host photographs variety of cigar and dome-shaped objects in woods near Cumberland, RI. Report on strange

meeting with couple believed to be extraterrestrials walking amongst us. ** TOM DONGO - SEDONA'S SHAPE SHIFTERS -- The Bradshaw Ranch attracts interdimensional visitors similar to those that haunt the Skinwalker Ranch. Tom maintains a huge collection of pictures taken in the town where aliens may secretly dwell. ** WARMINSTER'S THE THING -- Journalist Arthur Shuttlewood shepherds hundreds to Cradle Hill for an encounter of their own. Transparent aliens, abductions and missing time ensue. ** ITALY'S FRIENDSHIP CASE -- Credible citizens engage nine-foot-tall beings in conversations of galactic importance. Offers up amazing UFO pictures as proof of otherworldly skirmishes. ** STELLA LANSING -- Weird impressions on film invisible to human eye go unexplained. Unknown entities. Clock faces. Strange aerial devices. Verified by academia and photo analysis. ** ELLEN CRYSTALL-- Pine Bush, NY, became UFO Central for this UFO Repeater who photographed multi-dimensional beings and radioactive craft at the same place time after time. ** TURKEY UFO ALERT! --GRAYS PHOTOGRAPHED IN PORT OPENING The late Dr. Roger Leir has been part of this series of ongoing successful attempts to take video footage of a huge UFO and its humanoid alien pilots who come in from over the ocean. What are they watching and waiting for no one is saying! ** ELIZABETH KLARER -- South African contactee claims to have visited alien world and to to have married handsome Aryan-like extraterrestrial. Together they had a hybrid child. UFO Repeaters: Seeing Is Believing! The Camera Doesn't Lie offers a wonderful opportunity to see and ponder dozens of new photos taken by a tiny segment of humanity who the UFO occupants have selected to reveal themselves to on a one to one basis over a long period of time.

Phenomena Peter Helles Eriksen, Sara Brincher Galbiati, Tobias Selnaes Markussen, 2016-08-23 Quelle est la nature du phénomène OVNI ? A-t-on affaire à une histoire commercialement rentable, à une illusion et à ses conséquences sociales, à un mythe religieux ou encore à un phénomène physique ? A travers un voyage en forme d'enquête dans les Etats du Nevada, du Nouveau-Mexique et de l'Arizona, Tobias Selnaes Markussen, Sara Galbiati et Peter Helles Eriksen documentent cette religion alternative et examinent le besoin de croyance des humains. Ce livre tente d'interpréter la quête éternelle de substance de l'homme moderne et sa terreur face à l'absence de sens. L'approche des sujets évoqués dans ce livre sont abordés sans préjugé et s'inspirent largement de la méthode anthropologique. Ainsi, les auteurs n'ont jamais cherché à demander à leurs informateurs de confirmer leurs récits par des preuves ou une chronologie précise, car selon eux, il ne leur revenait pas de décider de la véracité des faits. Cette méthode laisse ainsi au lecteur la faculté de croire ou de ne pas croire, et offre ainsi au récit un aspect fictionnel, alors même que le travail est purement documentaire. Si l'existence des OVNI pose question, les gens qui croient aux aliens existent bel et bien. Nous en avons rencontré et photographié plusieurs, et nous avons tenu à relater dans ce livre quelques-uns des phénomènes incroyables dont ils nous ont parlé : antiques connexions indiennes avec des frères de l'espace, portails ouverts de communication interstellaire new age, lieux de contact avec des extraterrestres. Utiliser la photographie pour documenter l'invisible semble paradoxal, mais durant toute l'élaboration du livre notre désir de créer des images trompeuses devint pour nous le moteur même de notre créativité.

War of the Words Craig R. Myers, 2006-10-27 Journalists should avoid clichés, but they are just too useful. A picture is worth 1,000 words, and in the case of the 38 Gulf Breeze UFO photos shot by Ed Walters in 1987-1988, millions of them -- weird, angry, hilarious and profound words. Words by Dave Barry, Mike Royko and Fox Mulder. Words on Unsolved Mysteries and Oprah. With the 20th anniversary approaching I think about another cliché with a twist: Truth is funnier than fiction. As a reporter in Pensacola, Fla., I found myself in a War of the Words. TV networks flocked to town, Believers and Debunkers battled over Ghost-Demon photos and Army deserters arrived in search of the Second Coming. With the mayor and police chief on one side, and community leaders and the local paper on the other, I went looking for the

last word on the subject. I found a spaceship. REVIEW: Millions of Americans believe that we are regularly visited by beings from outside the Earth, and many are sure they have seen UFOs and even see them regularly. Craig R. Myers has not only seen one, but he has held it in his hand. This was in Florida, in the middle of the famous Gulf Breeze UFO mania of twenty years ago, and the UFO which he had himself captured was of distinctly terrestrial origin, but it had been made by the hoaxer who had sparked the Gulf Breeze sightings. There are plenty of books to tell you where UFOs come from, how we can invite more of them, and what to do when one captures you. *War of the Words: The True but Strange Story of the Gulf Breeze UFO* (Xlibris) probably won't match sales of many of those other books, but it is shocking and revelatory in its own way. It is impossible to argue, of course, that since this episode was a hoax, all UFO sightings are hoaxes and those who sight them are being fooled, but Myers has given a story with a skeptical bent that indicates the most useful way to regard such phenomena. It is a funny book; it even includes Dave Barry's amusing column about his own visit to Gulf Breeze and his investigation of the mania. It is, however, a serious report by a journalist who covered the story at the time; skeptics ought to enjoy it and True Believers ought to learn from it. Woodward and Bernstein got the story of their lifetimes because they happened to be in the right place and time. Not every journalist's story of a lifetime has such national implications, but Myers is grateful that he was around for what he calls the most interesting, frightening and funny story of my at-that-time short career. Maybe this was just in contrast to his usual beat for the Pensacola News Journal, where he reported upon what the county commissioners and the utility authority were up to. A rival paper, *The Gulf Breeze Sentinel*, published anonymously-submitted photographs of a UFO in November 1987, but they were not the first UFOs seen in the area. Gulf Breeze is directly in the flight path of an airport, and is near a naval air station and an Air Force base, so that there are plenty of lights in the sky. In such a locale, if you are of a mind to be fooled by a mysterious light, says Myers, ... it is quite simple to let yourself think that this is something besides an earthly craft. Indeed, on any clear night, the Gulf Breeze Research Team might be out doing what it called a Skywatch, excitedly whispering to each other Do you see that one? So some *Sentinel* readers were already primed when the paper published a picture of a classic flying saucer. Myers says there are two ways a paper can report on UFOs. One is to report on the broad phenomenon of UFO sightings, and the other is to report UFO sightings as frequently, and with as little confirmation and editing, as it publishes engagements, weddings, births, Optimist Club donations, honor rolls, obits, and arrests. He does not crow too much that his *Journal* chose the former while the *Sentinel* chose the latter.

Encounters Matt Hoyle, PQ Blackwell, Ltd., 2010-09-15 I'm 126 years old. This is my 4,500th incarnation. --Dr. Bob, as profiled in *Encounters With the Strange and Unexplained* * The National UFO Reporting Center averages 332 unexplained alien sightings each month, and the Gallup Organization reports that more than 32 percent of Americans believe in ghosts. In the summer of 2006, award-winning photographer Matt Hoyle took a paranormal road trip across the United States. He photographed 60 witnesses to alien spacecraft, murky swamp creatures, and demonic house poltergeists. * Chronicling these encounters through both written and photographic profiles, Hoyle presents a spectrum of specter--loving and--loathing believers in *Encounters With the Strange and Unexplained*. * Hoyle's award-winning photography is known for its rich character and post-production treatment that re-creates both the mood and setting of the environments his portraits depict.

UFO Mysteries Curt Sutherly, 2001 *UFO Mysteries* is one of the best works on the subject of UFOs since Jacques Vallee's seminal 1965 *Anatomy of a Phenomenon*. Sutherly has blended skillful writing with the determination of a

true investigator to produce an objective and introspective look at one of the greatest enigmas humankind has so far faced. Rick R. Hilberg, Ufologist and Anomalist Cleveland, Ohio Fifty Years of UFO Stories Filled with anecdotes and insider information, *UFO Mysteries* chronicles fifty years of UFO occurrences in the United States and Europe, from Kenneth Arnold's 1947 sighting over Mt. Rainier to the wave of triangular UFO sightings over the U.S. and Great Britain during the 1990s. Derived in part from *Strange Encounters*, the author's earlier book, this updated and expanded version combines a journalistic style with first-person recollection to give the reader a fresh-and remarkable-view of the UFO phenomenon. Included are fifteen rare photographs from a private collection, among them a previously unpublished UFO photograph mailed anonymously to radio station KYW in Cleveland, Ohio.
