Intercept But Don't Shoot: the True Story of Flying Saucers Renato Vesco, 2017-08-20 Awesome and frightening... In this landmark book, Italian aeronautical engineer Renato Vesco lays the groundwork for finally learning the truth about many so-called unidentified flying objects. Since 1948, when the U.S. Air Force issued the famous order, Intercept - but don't shoot, American pilots have been outgunned by objects periodically invading terrestrial airspace. Flying saucers have been in the news almost every day. No longer can the government issue blanket denials, for UFOs are an observed fact. For over 25 years, Vesco has been studying the possibility of invasion from outer space and coverups by world governments. In these pages, Vesco offers suggestions for future solutions. He discusses why so many government officials want their constituents to believe that these very real objects do not exist. But the truth can no longer be denied. The layman's intelligence can no longer be underestimated. Officials worldwide must open their secret files and come forward with the facts. Controversial and then some... -Publishers Weekly

Shoot Them Down! Frank Feschino Jr, 2007-08 Shoot them down! chronicles the history of UFO events that occurred during the summer of 1952. Feschino covers the history, the aircraft and the courageous fighter pilots involved in one of the most startling stories of our time.

UFO Encounters J. B. Michaels, 2017-12-16 ORIGINAL INSIDE COVER For years the government has denied and possibly covered up the existence of UFOs. Despite the efforts, thousands of people around the world claim to have had UFO and alien encounters and refuse to accept these denials. Modern technology and the candor of witnesses has helped to support the claims of alien visitors, abductions, and UFO sightings. In *UFO Encounters*, author J.B. Michaels exposes evidence on the Carp landing and the Brookhaven incident which helps support the existence of aliens and government cover ups. In Carp, Ontario Canada, a local resident video taped a craft as it landed on a farm. After expert examination the tape was verified to be authentic. Several years later, a mother spacecraft was shot down by the military over Long Island. Another smaller ship lost control and crashed in nearby South Haven Park causing a fire that was seen by local residents. J.B. Michaels has interviewed over two hundred people who witnessed the Carp landing, the South Haven Park crash or actually encountered the alien that survived the crash and was held at Brookhaven Labs. These conversations along with the video footage that Mr. Michaels obtained prove without a doubt that *UFO Encounters* are a reality. THE CRASH It was a clear night. There wasn't a lot of pollution on this part of Long Island, and there was a beautiful, cloudless night sky, with brilliant shining stars from horizon to horizon. Richard jumped as he noticed a V shaped formation of glowing lights moving above the trees. Holy shit! said Todd, holding his arm in front of his face. The objects were moving above Brookhaven Labs to the north of them. What are those? Suddenly he gasped as a huge glowing sphere became visible in the sky. I can't watch this and drive! Todd rammed his foot down on the brake. The truck skidded to a stop at the side of the freeway. Both boys jumped out of the truck. Whoa! said Richard. Will you look at this? Above the trees, a glowing ball hung motionless in the sky, streams of yellow, orange, and dark crimson flames swirling around it, the unnatural hue of those colors reflected off the storm clouds moving in from the east. Three smaller craft darted about the sphere and then were motionless. They were much smaller, each perhaps the size of a commercial plane. They were triangular, with rounded edges like a Stealth jet. However, the sphere - mother ship as Richard later would call it - was immense. It was some 60 to 80 feet in diameter, the size of a four to five story building. What made it all the more unusual was the almost complete silence. The two boys looked up, mesmerized by the bright objects and the magnetic resonant hum that they felt more than heard. The lights of the truck flickered, blinking in an odd strobe like rhythm. Suddenly the lights along the highway dimmed, and began to go out one by one. A wave of darkness swept across the rows of houses that were just a few hundred feet from the highway. It's a blackout, said Dan. Somebody's drawing power from the main lines, and I don't think it's those UFOs. There was one last surge of power and then all the lights in the town for several miles around went out. The giant sphere glowed as a beam of energy shot from the ground just north of them much too close. There was a low rumble, and the craft shimmered, became incandescent, and then

exploded. Two of the other craft streaked across the sky, leaving a shining trail of vapor behind them, and then one shot straight up into the night sky. The remaining craft just hovered, as if whatever was piloting it was completely stunned by the destruction of the larger vessel. Before it could make a move to escape, another beam of light pulsed up from the ground near Brookhaven National Laboratory. Energy swirled around the object. The crippled ship veered at a 45-degree angle, and then plummeted down into Southaven Park. The earth trembled as the object crashed and huge flames shot up i

War of the Words Craig R. Myers, 2006-10-27 Journalists should avoid cliches, but they are just too useful. A picture is worth 1,000 words, and in the case of the 38 Gulf Breeze UFO photos shot by Ed Walters in 1987-1988, millions of them -- weird, angry, hilarious and profound words. Words by Dave Barry, Mike Royko and Fox Mulder. Words on Unsolved Mysteries and Oprah. With the 20th anniversary approaching I think about another cliché with a twist: Truth is funnier than fiction. As a reporter in Pensacola, Fla., I found myself in a War of the Words. TV networks flocked to town, Believers and Debunkers battled over Ghost-Demon photos and Army deserters arrived in search of the Second Coming. With the mayor and police chief on one side, and community leaders and the local paper on the other, I went looking for the last word on the subject. I found a spaceship. REVIEW: Millions of Americans believe that we are regularly visited by beings from outside the Earth, and many are sure they have seen UFOs and even see them regularly. Craig R. Myers has not only seen one, but he has held it in his hand. This was in Florida, in the middle of the famous Gulf Breeze UFO mania of twenty years ago, and the UFO which he had himself captured was of distinctly terrestrial origin, but it had been made by the hoaxer who had sparked the Gulf Breeze sightings. There are plenty of books to tell you where UFOs come from, how we can invite more of them, and what to do when one captures you. War of the Words: The True but Strange Story of the Gulf Breeze UFO (Xlibris) probably won't match sales of many of those other books, but it is shocking and revelatory in its own way. It is impossible to argue, of course, that since this episode was a hoax, all UFO sightings are hoaxes and those who sight them are being fooled, but Myers has given a story with a skeptical bent that indicates the most useful way to regard such phenomena. It is a funny book; it even includes Dave Barry's amusing column about his own visit to Gulf Breeze and his investigation of the mania. It is, however, a serious report by a journalist who covered the story at the time; skeptics ought to enjoy it and True Believers ought to learn from it. Woodward and Bernstein got the story of their lifetimes because they happened to be in the right place and time. Not every journalist's story of a lifetime has such national implications, but Myers is grateful that he was around for what he calls the most interesting, frightening and funny story of my at-that-time short career. Maybe this was just in contrast to his usual beat for the Pensacola News Journal, where he reported upon what the county commissioners and the utility authority were up to. A rival paper, The Gulf Breeze Sentinel, published anonymously-submitted photographs of a UFO in November 1987, but they were not the first UFOs seen in the area. Gulf Breeze is directly in the flight path of an airport, and is near a naval air station and an Air Force base, so that there are plenty of lights in the sky. In such a locale, if you are of a mind to be fooled by a mysterious light, says Myers, ... it is quite simple to let yourself think that this is something besides an earthly craft. Indeed, on any clear night, the Gulf Breeze Research Team might be out doing what it called a Skywatch, excitedly whispering to each other Do you see that one? So some Sentinel readers were already primed when the paper published a picture of a classic flying saucer. Myers says there are two ways a paper can report on UFOs. One is to report on the broad phenomenon of UFO sightings, and the other is to report UFO sightings as frequently, and with as little confirmation and editing, as it publishes engagements, weddings, births, Optimist Club donations, honor rolls, obits, and arrests. He does not crow too much that his Journal chose the former while the Sentinel chose the la

Strange Craft: The True Story of an Air Force Intelligence Officer's Life with UFOs John L. Guerra, 2018-12-19 U.S. Air Force Major George Filer belongs to the generation of pilots and airmen who first became aware of the strange aircraft showing up in the Earth's atmosphere after World War II. These men - military professionals who flew planes, commanded ships, served as radar

operators and air traffic controllers at air fields around the world - began to whisper amongst themselves about encounters with suspected extraterrestrial aircraft. During secret debriefings at U.S. bases, pilots and air crew told their commanders of seeing strange lights at night and in the daylight, groups of saucer- or cigar-shaped craft that easily paced them just a few yards off their plane's wingtip. Award-winning investigative reporter John Guerra spent four years interviewing Filer, a decorated intelligence officer. From objects in the skies over Cold War Europe to a UFO overflight during the Cuban Missile Crisis to strange lights over the DMZ during the Tet Offensive, Filer leaves nothing out about his Air Force UFO encounters, providing Guerra all the amazing details of his six decades investigating extraterrestrials and their craft. Filer's most memorable case - the shooting of an alien at Fort Dix Army Base in 1978 - is fully recounted for the first time in this book. Filer - who readers have seen on countless UFO documentaries - is also a member of the Disclosure Project, the famous panel of military experts, astronauts, and scientists that urges the U.S. government to release all it knows about UFOs to the public. Then, in the fall of 2017, the Pentagon released the F-18 gun camera footage of what can only be described as an extraterrestrial vehicle outperforming U.S. Navy fighters off San Diego. For the first time, after decades of denying what its intelligence officers, pilots, base commanders and air traffic control personnel know to be true, the military finally admitted to what Filer describes in this incredible book.

Military Encounters with Extraterrestrials Frank Joseph, 2018-09-11 The first, comprehensive military history of armed confrontations between humans and extraterrestrials • Includes documentation of incidents from World War I, World War II, the Korean War, the Vietnam War, the Gulf War, and the ongoing hostilities in the Middle East • Reveals the U.S. Navy's defeat in Antarctica by ETs, the shoot-down of "flying saucers" at Roswell, alien sabotage of nuclear weapons, in-flight abductions of USAF and Soviet officers, and photographic evidence of the Battle of Los Angeles • Explains the link between the development of atomic bombs and ballistic missiles and the increase in extraterrestrial intervention in the 20th century Although close encounters with alien space craft are reported as far back as the reign of Pharaoh Thutmosis III in Egypt, it wasn't until the 20th century that UFO sightings and extraterrestrial encounters were truly documented, due to advances in technology and record-keeping as well as the vast increase in incidents, particularly with military forces. Revealing his extensive research and the verifiable evidence he's discovered, Frank Joseph presents a comprehensive military history of armed confrontations between humans and extraterrestrials in the 20th and 21st centuries. He explains how, with the development of atomic bombs and ballistic missiles, the frequency of extraterrestrial intervention in human affairs increased dramatically. He documents incidents both famous and little known, including the explosive demolition of U.S. munitions factories in 1916 by unearthly aerial vehicles, the Red Baron's dogfight with a UFO during World War I, "foo fighter" sightings and battles with Allied and Axis combatants during World War II, and eye-witness reports from encounters during the Korean War, the Vietnam War, the Gulf War in Iraq, and the ongoing hostilities in the Middle East. He examines the evidence for the shoot-down of "flying saucers" at Roswell and Aztec, New Mexico, alien sabotage of nuclear weapons systems, and in-flight abductions of USAF and Soviet officers and airplanes. He explores the photo evidence for the Battle of Los Angeles, which occurred three months after Pearl Harbor, and the details of Operation Highjump, the U.S. Navy's defeat in Antarctica by ET forces 17 months after the atomic bomb was dropped on Nagasaki, while also uncovering evidence of secret Antarctic German bases. The author also examines recent, 21st-century examples of alien interdiction in Earthly affairs, such as the meltdown of the Fukushima Daiichi nuclear plant in Japan and the fiery abort of Elon Musk's Falcon 9 missile launch, both events accompanied by UFOs. Offering complete disclosure of the multitude of ET events over the past century, Frank Joseph gives us the first true reference book in the field of alien military encounters.

UFOs Over Topanga Canyon Preston E. Dennett, 1999 About 8,000 people live in rural Topanga Canyon in the Topanga State Park. And for over 50 years, they have become witnesses to

Charlie Red Star Grant Cameron,2017-08-12 A wave of UFO sightings struck southern Manitoba in 1975, with possible connections to U.S. missile defense operations. In 1975, Manitobans reported UFOs over their province almost nightly. The string of unprecedented sightings launched the biggest UFO craze in Canadian history. With sightings for well over a year, one object seen again and again became known as Charlie Red Star. Grant Cameron was there. He witnessed Charlie Red Star many times, and led tours for others to see for themselves. He also caught wind of rumours of nuclear testing south of the Canada-U.S. border, which might have been the cause of the unexplained phenomena that was sighted in the upper atmosphere. This is the story revealed by eyewitnesses, photographers, and reporters chasing down the truth behind these still-unexplained encounters with UFOs.

Things that no one would come forward and talk about, too afraid to bring up what they had witnessed. But Lucky and his family were about to find out what could lurk in the darkness. The visitors were not from this earth. Were they possibly from the depths of hell? The gunshots and the screams could be heard by neighbors, but nobody came to help. Lucky and his family could only live as they could after the events of that night, fearing the unknown and wondering for the rest of their lives... Would they come back?

Life with a Cosmos Clearance Daniel M. Salter, 2003-06-01 On May 9, 2001, the Disclosure Project hosted a major event at the National Press Club in Washington, D.C. This historic event had witness testimony from twenty to twenty-five military, intelligence, government, and corporate individuals involved with UFO projects over the past fifty years, who presented their information before a worldwide group of media correspondents. Those of us who were military witnesses of UFO history showed official government documentation with detailed testimony. Our focus was and is on the facts and documents. Our purpose was and is to get the mainstream media and government officials to hear those facts and move us toward an honest congressional inquiry. We who came forward want to ban weapons from space and stop aggressively shooting down these space vehicles and their extraterrestrial occupants. We need to declassify the advanced electromagnetic propulsion systems in use by the secret government, start producing them for the world to use, and thereby help save this planet. The people who had been employed in agencies within the military and knew the truth about UFOs were sworn to secrecy. Now I am finally relieved to speak the truth. We military men who hold on to this knowledge are getting old and dying, and we want the truth to come out. We will either do it ourselves or leave it for our children and wives to do. Personally, I have told those on Capitol Hill that I am being led to do it by the aliens themselves. They have convinced me that it is time. They have been waiting on the government, and if the government does not come forward with the truth, then the aliens will take a more public role in disclosure.
