*News and Journalism in the UK* Brian McNair, 2003-09-02 *News and Journalism in the UK* is an accessible and comprehensive introduction to the political, economic and regulatory environments of press and broadcast journalism in Britain and Northern Ireland. Surveying the industry in a period of radical economic and technological change, Brian McNair examines the main trends in journalistic media in the last two decades and assesses the challenges and future of the industry in the new millennium. Integrating both academic and journalistic perspectives on journalism, topics addressed in this revised and updated edition include: \*'tabloidization', Americanization and the supposed 'dumbing down' of journalistic standards \*changing work patterns and the feminization of journalism \*trends in media ownership and editorial allegiances \*the impact of technological innovations such as digitalization, online media and 24 hour news \*the implications of devolution for regional journalists.

*News and Journalism in the UK* Brian McNair, 1999 On journalism in the UK

*Reappraising Local and Community News in the UK* David Harte, Rachel Matthews, 2021-09-13 Drawing on expert contributions from around the UK, this collection brings together a series of insights into the contemporary local and community news media landscape in the UK. Offering an analysis of the ongoing 'crisis' in the provision of local news, exacerbated by the COVID-19 pandemic, the book provides a critical space for practitioners and scholars to reflect on emerging models for economically sustainable, participatory local news services. It showcases new scholarly analyses of local news provision and community news practices, giving voice to the experiences of practitioners from across the local news ecology. In a set of diverse contributing chapters, campaigners and practitioners map out the period of recent rapid change for local news, questioning contemporary government initiatives and highlighting the advent of diverse, entrepreneurial reactions to the spaces created by a decline in local mainstream news services. This book is a timely examination of what we can learn from the variety of approaches being taken across the local media landscape in the commercial, subsidised and non-profit sector, shining new light on how practices that place the engagement of citizens at their centre might be propagated within this policy and funding landscape. *Reappraising Local and Community News in the UK* is a valuable resource for students and scholars interested in local news and journalism, as well as for anyone interested in the evolving local media landscape in the UK.

**Television News and Human Rights in the US & UK** Shawna M. Brandle, 2015-12-22 Does the CNN Effect exist?

Political communications scholars have debated the influence of television news coverage on international affairs since television news began, especially in relation to the coverage of massive human rights violations. These debates have only intensified in the last 20 years, as new technologies have changed the nature of news and the news cycle. But despite frequent assertion, little research into the CNN Effect, or whether television coverage of human rights violations causes state action, exists. Bridging across the disciplines of human right studies, comparative politics, and communication studies in a way that has not been done, this book looks at television

news coverage of human rights in the US and UK to answer the question of whether the CNN Effect actually exists. Examining the human rights content in television news in the US and UK yields insights to what television news producers and policy makers consider to be human rights, and what, if anything, audiences can learn about human rights from watching television news. After reviewing 20 years of footage using three different types of content analyses of American television news broadcasts and two different types of British news broadcasts, and comparing those results with human rights rankings and print news coverage of human rights, Shawns M. Brandle concludes that despite rhetoric from both countries in support of human rights, there is not enough coverage of human rights in either country to argue that television media can spur state action on human rights issues. More simply, the violations will not be televised. A welcome and timely book presenting an important examination of human rights coverage on television news.

**Six Days in Rome** Francesca Giacco, 2022-05-03 In this decadent, deeply evocative novel, a young artist travels to Rome to heal a broken heart, where she confronts loneliness and intimacy, rage and desire: "Sensorial as hell . . . A stunningly cool and stylish debut (Paul Beatty, Man Booker Prize-winning author of *The Sellout*). Emilia arrives in Rome reeling from heartbreak and reckoning with her past. What was supposed to be a romantic trip has, with the sudden end of a relationship, become a solitary one instead. As she wanders, music, art, food, and the beauty of Rome's wide piazzas and narrow streets color Emilia's dreamy, but weighty experience of the city. She considers the many facets of her life, drifting in and out of memory, following her train of thought wherever it leads. While climbing a hill near Trastevere, she meets John, an American expat living a seemingly idyllic life. They are soon navigating an intriguing connection, one that brings pain they both hold into the light. As their intimacy deepens, Emilia starts to see herself anew, both as a woman and as an artist. For the first time in her life, she confronts the ways in which she's been letting her father's success as a musician overshadow her own. Forced to reckon with both her origins and the choices she's made, Emilia finds herself on a singular journey—and transformed in ways she never expected. Equal parts visceral and cerebral, *Six Days in Rome* is an ode to the Eternal City, a celebration of art and creativity, and a meditation on self-discovery. Includes a Reading Group Guide.

**News and the British World** Simon James Potter, 2003 Revealed to contemporaries by the South African War, the basis on which the system would develop soon became the focus for debate. Commercial organizations, including newspaper combinations and news agencies such as Reuters, fought to protect their interests, while constructive imperialists attempted to enlist the power of the state to strengthen the system. Debate culminated in fierce controversies over state censorship and propaganda during and after World War I. Based on extensive archival research, this study addresses crucial themes, including the impact of empire on the press, Britain's imperial experience, and the idea of a British world.

**How valid is the distinction between the popular and the quality press in Britain?** Roland Scheller, 2005-01-19 Essay from the year 2000 in the subject Politics - International Politics - Region: Western Europe, grade: 2,

Cardiff University (School of European Studies), course: British Society and Culture, 5 entries in the bibliography, language: English, abstract: In the UK you can find a wide range of newspapers. In general you can divide them into quality and popular press. Quality newspapers are The Guardian, The Daily Telegraph, The Times, The Independent and The Financial Times. The popular press consists of The Daily Mirror, The Daily Express, The Daily Star and The Sun. You can also find a lot of regional newspapers; for example The Evening Standard (London, popular press oriented), The South Wales Echo (South Wales, popular press oriented) and The Western Mail (Wales, more quality press oriented). In this essay I will refer to the popular press as tabloid press. The aim of this essay is to compare quality press and tabloid press. This I will do with two examples: The Times and The Sun. So the question might arise why I chose just those two newspapers? They are both reflective of their field and are recognized all over the world. However they both belong to the same person: to the Australian media mogul Rupert Murdoch. And so a second question arises: Are there indications that this constellation might minimize the difference between quality and tabloid press? Yet we are in the age of the internet. So a third question arises: Are both newspapers sufficiently represented on the internet?

*Islam in British media discourses* Laurens de Rooij, 2020-05-09 Media reporting on Islam and Muslims commonly relate stories about terrorism, violence, or the lack of integration with western values and society. Yet there is little research into how non-Muslims engage with and are affected by these news reports. Inspired by the overtly negative coverage of Islam and Muslims by the mainstream press and the increase in Islamophobia across Europe, this book explores the influence of these depictions on the thoughts and actions of non-Muslims. Building on extensive fieldwork interviews and focus groups, Laurens de Rooij argues that individuals negotiate media reports to fit their existing outlook on Islam and Muslims. Non-Muslim responses to these reports, de Rooij argues, are not only (re)productions of local and personal contextuality, but are co-dependent and co-productive to the reports themselves.

**The Boston Tea Party** Allison Stark Draper, 2001-01-15 Describes the series of events which led up to the Boston Tea Party and explains how this act helped bring about the war for independence.

**Law-and-order News** Steve Chibnall, 2001 Tavistock Press was established as a co-operative venture between the Tavistock Institute and Routledge & Kegan Paul (RKP) in the 1950s to produce a series of major contributions across the social sciences. This volume is part of a 2001 reissue of a selection of those important works which have since gone out of print, or are difficult to locate. Published by Routledge, 112 volumes in total are being brought together under the name The International Behavioural and Social Sciences Library: Classics from the Tavistock Press. Reproduced here in facsimile, this volume was originally published in 1977 and is available individually. The collection is also available in a number of themed mini-sets of between 5 and 13 volumes, or as a complete collection.

**The News of the World and the British Press, 1843-2011** Laurel Brake, Chandrika Kaul, Mark W. Turner, 2016-03-16 This volume is the first scholarly treatment of the News of the World from news-rich broadsheet to sensational

tabloid. Contributors uncover new facts and discuss a range of topics including Sunday journalism, gender, crime, empire, political cartoons, the mass market, investigative techniques and the Leveson Inquiry.

*An Olive Grove in Ends* Moses McKenzie,2022-05-31 A “vivid, urgent” (Entertainment Weekly) story that follows a young man faced with a fraught decision: escape a dangerous past alone—or brave his old life and keep the woman he loves. Sayon Hughes longs to escape the volatile Bristol neighborhood known as Ends, the tight-knit but sometimes lawless world in which he was raised, and forge a better life with Shona, the girl he’s loved since grade school. With few paths out, he is drawn into dealing drugs alongside his cousin, the unpredictable but fiercely loyal Cuba. Sayon is on the cusp of making a clean break when an altercation with a rival dealer turns deadly and an expected witness threatens blackmail, upending his plans. Sayon’s loyalties are torn. If Shona learns the secret of his crime, he will lose her forever. But if he doesn’t escape Ends now, he may never get another chance. Is it possible to break free of the bookies’ tickets, burnt spoons, and crooked solutions, and still keep the love of his life? Rippling with authenticity and power, Moses McKenzie’s dazzling debut brings to life a vibrant and teeming world we have read too little about. In its sheer lyrical power, *An Olive Grove in Ends* recalls the work of James Baldwin and marks the arrival of an exciting and formidable new voice. One of The Guardian’s Top 10 Debuts of the Year One of Entertainment Weekly’s Most Anticipated Books of the Summer

The Language of Periodical News in Seventeenth-century England Nicholas Brownlees, 2011 This volume follows the beginnings and development of seventeenth-century English periodical print news and sees how contemporary news writers shaped their news discourse over the decades. Interdisciplinary in its approach, the volume analyses the different strategies employed by news writers of the day as they determined how best to present and write up both foreign and domestic events for a news-obsessed English readership. In his examination of the language used in corantos, newsbooks and gazettesâ the first forms of periodical news in the English pressâ Nicholas Brownlees provides innovative analyses regarding a rich variety of topics including: the role of translation in early periodical news; the language of hard news in corantos and news pamphlets; forms and styles of epistolary news; fluctuating editorial strategies used to address and involve the reader; text structure and prototypical headlines; English news discourse within a wider European news context; the language of propaganda in the English Civil War; periodicity and the reporting of the Tuscan crisis in 1653; the language of â ~Advertisementsâ (TM) in The London Gazette; the changing fortunes and semantics of News, Intelligence and Advice. In its focus on how news writers worked and experimented with seventeenth-century English language structures and discourse conventions to forge a style of news rhetoric that could inform, persuade and even entertain, this volume is essential reading for all historians, news analysts and historical linguists working in the early modern period.

**Muslims and the News Media** Elizabeth Poole, John E. Richardson, 2010-11-05 Muslims have featured in many of the more significant news stories of the past few years - yet shockingly very few of these stories have been about anything other than the 'war on terror'. This urgently relevant book examines the role and representations of Muslims in the news media, particularly within a climate of threat, fear and misunderstanding. Written by both academic authorities and media practitioners, Muslims and the News Media is designed as a comprehensive and critical textbook and is set in both the British and international context. Bringing together a range of insightful perspectives on the subject into a coherent whole, the book clearly establishes the links between context, content, production and audiences, thus reflecting the entire cycle of the communication process. It reveals both the ways in which meaning is produced and reproduced in the news media, and the ways in which audiences themselves, both Muslim and non-Muslim, use or consume this media. Significant too and discussed here is the role of Muslims themselves in the processes of news production. Clarifying the circumstances and politics surrounding the representation of Muslims across a range of journalistic genres, Muslims and the News Media provides crucial insights into the representation - and misrepresentation - of Islam and Muslims today.
