International Handbook on the Economics of Mega Sporting Events Wolfgang Maennig, Andrew S. Zimbalist, 2012 From the Olympics to the World Cup, mega sporting events are a source of enjoyment for tens of thousands, but can also be a source of intense debate and controversy. This insightful new Handbook addresses a number of central questions, including: How are host cities selected and under what economic conditions? How are these events organized, and how is local resistance overcome? Based on historical and empirical experience, what are the pitfalls for the organizers of these events? What are the potential economic benefits, including any international image effects? How can the costs be minimized and the benefits maximized for host cities and countries? How do these mega events impact the challenges of globalization and what is their environmental legacy? Compiled and edited by two internationally renowned sports economists, the expert contributions elaborate on the specific mechanisms of the bid processes, analyse the determining factors of winning bids, and illustrate how to construct future bid campaigns. Underpinned by case studies from four continents and by theoretical considerations, the reasons for seemingly systemic cost overruns are explored and analysed, as are the effects on national and regional employment and income, property values, non-traditional economic variables (such as psychological and marketing benefits) and urban branding and transformation. The Handbook also reflects on important elements of design of the games in order to better plan, prepare and allocate resources - including, for example, sustainability issues and the use of campaigns to secure positive perceptions. This book provides an up-to-date analysis of the financing and economic impact of mega sporting events, as well as a full discussion of how host cities can maximize the benefits from their experience. As such, it will prove a fascinating read for academics, students, researchers and policymakers with an interest in economics and public sector economics generally, and more specifically, in the economics of sport.

*The Best XI* Geoffrey Boycott,2009-05-28 Who'd make it into the best England team ever? And you can chose anyone, regardless of when they might have played. Would W.G. Grace be playing alongside Denis Compton and David Gower? Or Kevin Pietersen? The debate could be endless, so who better to make the selection than Geoffrey Boycott, himself one of England's all-time highest scoring Test batsmen and now the game's most forthright, shrewd and iconoclastic commentator. Based on his own fresh analysis amd interpretation of the statistics, Boycs has come up with his own, sometimes surprising Best Eleven of all time. And he's not just cast a critical eye over England's finest either. Every other test-playing nation comes under the spotlight. You may not agree - in fact, you're almost certain not to - but each player has been carefully chosen and the case for his inclusion forcefully argued in what is sure to be the most entertaining, thought-provoking and memorable cricket books of the year from one of the game's most outspoken and enduring characters.
