International Handbook on the Economics of Mega Sporting Events Wolfgang Maennig, Andrew S. Zimbalist, 2012 From the Olympics to the World Cup, mega sporting events are a source of enjoyment for tens of thousands, but can also be a source of intense debate and controversy. This insightful new Handbook addresses a number of central questions, including: How are host cities selected and under what economic conditions? How are these events organized, and how is local resistance overcome? Based on historical and empirical experience, what are the pitfalls for the organizers of these events? What are the potential economic benefits, including any international image effects? How can the costs be minimized and the benefits maximized for host cities and countries? How do these mega events impact the challenges of globalization and what is their environmental legacy? Compiled and edited by two internationally renowned sports economists, the expert contributions elaborate on the specific mechanisms of the bid processes, analyse the determining factors of winning bids, and illustrate how to construct future bid campaigns. Underpinned by case studies from four continents and by theoretical considerations, the reasons for seemingly systemic cost overruns are explored and analysed, as are the effects on national and regional employment and income, property values, non-traditional economic variables (such as psychological and marketing benefits) and urban branding and

transformation. The Handbook also reflects on important elements of design of the games in order to better plan, prepare and allocate resources – including, for example, sustainability issues and the use of campaigns to secure positive perceptions. This book provides an up-to-date analysis of the financing and economic impact of mega sporting events, as well as a full discussion of how host cities can maximize the benefits from their experience. As such, it will prove a fascinating read for academics, students, researchers and policymakers with an interest in economics and public sector economics generally, and more specifically, in the economics of sport.

Colour Blind Alvin Kallicharran, Robert Caine,2019-09-05 From growing up in a tiny village, Port Mourant, Berbice, to amassing over six decades of cricketing experience, former West Indies cricketer Alvin Kallicharran has a lot to offer to the cricketing world. Having been through ups and downs, fighting adversities and overcoming challenges, he feels his experiences and influences will help upcoming young cricketers to understand that success comes with hard work and dedication. He firmly believes that principles, virtues, and values will last a lifetime and that it is only with patience that success is achieved. "When my wife, Patsy, motivated me to write this book as a way of giving back to the kids, I thought long and hard about it. I could have written about my successes. But having worked with kids from different backgrounds and countries over the last 16 years and the devotion I have in creating sports careers, I decided to change the whole angle of the

book. The more I wrote, the clearer it became that the story I wanted to share was my journey of overcoming adversities, hardships and struggles to achieve success.” – Alvin Kallicharran Colour Blind is filled with colourful stories, colourful events, and colourblind cricketers, just like Alvin. The book reinstates the fact that sport is the ultimate equaliser and that the ball knows no colour. “I have played cricket with Alvin Kallicharran for a long time. He was my hero, and was playing much before I broke into the cricket scene. I wish him all the success, good health and happiness.” – Kapil Dev, Former Indian Cricketer “Colour Blind is not your usual cricket autobiography, offering some personal background and the occasional cricketing insight but more often than not padded with details of runs scored, wickets taken, catches held and missed, and other mundane details that can be easily looked up elsewhere. In Kallicharran’s autobiography, his life and cricket experiences are narrated only to bring out what he calls the ‘principles, virtues, and values [that] will last a lifetime.’ Each chapter concludes with a set of ‘Key Takeaways’ and ‘Action Steps’. Read this book and make up your own mind.” – N. Ram, Chairman, The Hindu Publishing Group
