Slow Tourism, Food and Cities Michael Clancy, 2017-08-23 Slow Food began in the late 1980s as a response to the spread of fast food establishments and as a larger statement against globalization and the perceived deterioration of modern life. Since then, slow practices have permeated into other areas, including cities and territories and travel and tourism. This book provides an in-depth examination of slow food, tourism and cities, demonstrating how these elements are intertwined with one other as part of the modern search for the good life. Part 1 locates the slow concept within the larger social setting of modernity and investigates claims made by the slow movement, examining aesthetic and instrumental values inherent to it. Part 2 explores the practices and places of slow, containing both conceptual and empirical chapters in Italy, the birthplace of the movement. Part 3 provides a comparative perspective by examining the practices in Spain, the UK, Germany and Canada. Slow Tourism, Food and Cities offers key theoretical insights and alternative perspectives on the varying practices and meanings of slow from a cultural, sociological and ethical perspective. It is a valuable text for students and scholars of sociology, geography, urban studies, social movements, travel and tourism, and food studies.

Umbria Patricia Clough, 2017-08-15 When Patricia Clough, a former foreign correspondent, bought a house in Umbria, she knew that buying her dream home did not mean that life would become a dream. By the end of this book, in which she describes the journey of making Umbria her home, she is sure that “if one has basic requirements for being happy, then Umbria provides some of the best surroundings for happiness.” Clough pores over Umbria's enchanting countryside, its tumultuous history, its ancient culture and sumptuous food, and laments that for a long time Umbria was mistaken for its fashionable neighbor, Tuscany. This is not a guide to buying a home in Italy, nor a guidebook for your holiday—though it would be useful as both of these things—but a story in which a woman discovers and marvels at the place she begins to call home.

Fostering Transformative Change for Sustainability in the Context of Socio-Ecological Production Landscapes and Seascapes (SEPLS) Maiko Nishi, Suneetha M. Subramanian, Himangana Gupta, Madoka Yoshino, Yasuo Takahashi, Koji Miwa, Tomoko Takeda, 2021-04-22 This open access book is a compilation of case studies that provide useful knowledge and lessons that derive from on-the-ground activities and contribute to policy recommendations, focusing on the relevance of social-ecological production landscapes and seascapes (SEPLS) to “transformative change.” The concept of “transformative change” has been gaining more attention to deal with today's environmental and development problems, whereas both policy and scientific communities have been increasingly calling for transformative change toward sustainable society. The Intergovernmental Science-Policy Platform on Biodiversity and Ecosystem Services (IPBES) has planned to start the so-called “assessment on transformative change” if approved by the IPBES plenary to be held in 2021. At present, the idea of transformative change, including its scope, methodologies, approaches and strategies, are yet to be clarified. By bringing together all of the different concerns and interests in the land/seascape, SEPLS approaches could provide practical

and experience-based insights for understanding and gauging transformative change and identifying determinants of such change. This book explores how SEPLS management relates to the idea of transformative change to further the discussion of sustainable transitions in advancing sustainability science. The introductory chapter is followed by case study chapters offering real-world examples of transformative change as well as a synthesis chapter clarifying the relevance of the case study findings to policy and academic discussions. It will be of interest to scholars, policymakers and professionals in the fields related to sustainable development.

Citizens and borderwork in contemporary Europe Chris Rumford,2013-10-31 The extent to which ordinary people can construct, shift, and dismantle borders is seriously neglected in the existing literature. The book explores the ability of citizens to participate in the making of borders, and the empowerment that can result from this bordering and debordering activity. 'Borderwork' is the name given to the ways in which ordinary people can make and unmake borders. Borderwork is no longer only the business of nation-states, it is also the business of citizens (and indeed non-citizens). This study of 'borderwork' extends the recent interest in forms of bordering which do not necessarily occur at the state's external borders. However, the changing nature of borders cannot be reduced to a shift from the edges to the interior of a polity. To date little research has been conducted on the role of ordinary people in envisioning, constructing, maintaining, shifting, and erasing borders; creating borders which facilitate mobility for some while creating barriers to mobility for others; appropriating the political resources which bordering offers; contesting the legitimacy of or undermining the borders imposed by others. This book makes an original contribution to the literature and stands to set the agenda for a new dimension of border studies. This book was published as a special issue of Space and Polity.

SIMPOSIO / Italian Recipes, Travel, and Culture Claudia Rinaldi,2021-10-27 Ciao, benvenuti in Umbria, welcome to Umbria, Italy. The central region of Italy, the land of fairytales, religious fervor, jazz festivals, and nourishing food. A land to live slowly, letting nature, flavors, legends, ancient celebrations, history, and wine inebriate you. Simposio, in the guise of a travel guide, will accompany you through some - slow traveling means having to choose - of Umbria's towns. You will explore Perugia, Gubbio, Orvieto, Spoleto, Montefalco, Norcia, and Scheggino. Of each, you will take home a story, a personage, a sentiment, or an experience. Of all, you will discover the flavors of their traditional cuisine and the beauty of their alleys. Set your mind to the fairytale mood. As always, we will cross the line of reality. We will enjoy the foggy dimension of maybe and the fun state of why not. Italy's heritage is made of this: ancient beliefs, uncertain origins, the merging of cultures, and breathtaking results. Get ready for the cookbook part and feast over chestnuts and beans, chicken and duck, peasant's cuisine and truffles, sausages, and seasonal vegetables. Get ready to sip wine wrapped in a mantel, facing a bonfire, waiting to see angels pass, or witches, or griffons. Get ready to witness Etruria merging into Middle Ages, the sixties avant-garde into modern jazz, and religious fever into everyday life. Get ready for Umbria! Claudia

Ancient Umbria Guy Bradley,2000-12-21 How should we understand the ways in which the regions of Italy were affected by Roman imperialism? This book, which is the first full-scale treatment of ancient Umbria in any language, takes a balanced view of the region's history in the first millennium BC, focusing on local actions and motivations as much as the effect of outside influences and Roman policies. Through a careful reading of all the types of evidence it provides an important challenge to traditional treatments emphasising the 'Romanization' of the region, arguing that this is a poor explanation for the complexity of local societies in the late Republican period. Instead it proposes that other trends, particularly the organization of states, help to explain the fascinating plurality of identities that are evident in the imperial period and allow us to appreciate the diversity of local societies that emerged in both mountain and lowland areas of Umbria.
