Themes and Issues in Asian Cartooning John A. Lent,1999 Today, comic art is the favorite reading fare for millions of Asians, and is a government-sanctioned, value-added product, as in the case of Korean and Japanese animation. Yet not much is known about Asian cartooning. Themes and Issues in Asian Cartooning uses overviews and case studies by scholars to discuss Asian animation, humor magazines, gag cartoons, comic strips, and comic books. The first half of the book looks at contents and audiences of Malay humor magazines, cultural labor in Korean animation, the reception of Aladdin in Islamic Southeast Asia, and a Singaporean comic book as a reflection of that society's personality. Four other chapters treat gender and Asian comics, concentrating on Japanese anime and manga and Indian comic books.

The Rise and Decline of the Redneck Riviera Harvey H. Jackson, 2012-05-01 A “lucid, often pithy” history of the eastern Gulf Coast vacation destination by an Alabama native who is “a talented storyteller as well as a scholar” (Washington Times). In *The Rise and Decline of the Redneck Riviera*, Southern historian Harvey H. Jackson presents a cultural history of the coastal region stretching from Mobile Bay and Gulf Shores, Alabama, to Panama City, Florida—an area known as the “Redneck Riviera.” Jackson chronicles the evolution of the area from the late 1920s, when it was sparsely populated with small fishing villages, through to the devastating BP/Deepwater Horizon oil spill of 2010. With both personal and historical perspectives, Jackson explores the area's development as a middle- and working-class vacation destination following World War II, the building boom of the fifties and sixties, and the emergence of the Spring Break “season.” He tracks the hurricanes that destroyed historic

construction, the building boom that brought high-rise condos, and the effects of the 2008 housing market crash. While his major focus is on the social, cultural, and economic development, he also documents the environmental and financial impacts of natural disasters and the politics of beach access and dune and sea turtle protection.
