The Asian Yearbook of Human Rights and Humanitarian Law ,2019-07-22 The Asian Yearbook of Human Rights and Humanitarian Law aims to publish peer-reviewed scholarly articles and reviews as well as significant developments in human rights and humanitarian law. It examines international human rights and humanitarian law with a global reach, though its particular focus is on the Asian region. The focused theme of Volume 3 is Law, Gender and Sexuality.

China's Rising Foreign Ministry Dylan M.H Loh,2024-04-02 China's rise and its importance to international relations as a discipline-defining phenomenon is well recognized. Yet when scholars analyze China's foreign relations, they typically focus on Beijing's military power, economic might, or political leaders. As a result, most traditional assessments miss a crucial factor: China's Ministry of Foreign Affairs (MOFA). In *China's Rising Foreign Ministry*, Dylan M.H Loh upends conventional understandings of Chinese diplomacy by underlining the importance of the ministry and its diplomats in contemporary Chinese foreign policy. Loh explains how MOFA gradually became the main interface of China's foreign policy and the primary vehicle through which the idea of 'China' is produced, articulated, and represented on the world stage. This theoretically innovative and ambitious book offers an original reading of Chinese foreign policy, with wide-ranging implications for international relations. By shedding light on the dynamics of Chinese diplomacy and how assertiveness is constructed, Loh provides readers with a comprehensive re-appraisal of China's foreign ministry and the role it performs in China's re-emergence.

Comparative Tort Law Mauro Bussani,2021-02-26 This revised second edition of *Comparative Tort Law: Global Perspectives* offers an updated and enriched framework for analysing and understanding the current state of tort law around the world. Using a critical comparative methodology, it covers not only the common tort law issues but also many jurisdictions often overlooked in the mainstream literature. Contributions explore illuminating case studies from tort systems in Europe, the US, Latin America, Asia and sub-Saharan Africa, including new chapters specifically discussing tort law in Brazil, India and Russia.

The Geography of Injustice Barak Kushner,2024-03-15 In *The Geography of Injustice*, Barak Kushner argues that the war crimes tribunals in East Asia formed and cemented national divides that persist into the present day. In 1946 the Allies convened the Tokyo Trial to prosecute Japanese wartime atrocities and Japan's empire. At its conclusion one of the judges voiced dissent, claiming that the justice found at Tokyo was only the sham employment of a legal process for the satisfaction of a thirst for revenge. War crimes tribunals, Kushner shows, allow for the history of the defeated to be heard. In contemporary East Asia a fierce battle between memory and history has consolidated political camps across this debate. The Tokyo Trial courtroom, as well as the thousands of other war crimes tribunals opened in about fifty venues across Asia, were legal stages where prosecution and defense curated facts and evidence to craft their story about World War Two. These narratives and counter narratives form the basis of postwar memory concerning Japan's imperial aims across the region. The archival record and the interpretation of court testimony together shape a competing set of histories for public consumption. *The Geography of Injustice* offers compelling evidence that despite the passage of seven decades since the end of the war, East Asia is more divided than united by history.

A Retargetable C Compiler Christopher W. Fraser,David R. Hanson,1995 This book brings a unique treatment of compiler design to the professional who seeks an in-depth examination of a real-world compiler. Chris Fraser of AT &T Bell Laboratories and David Hanson of Princeton University codeveloped lcc, the retargetable ANSI C compiler that is the focus of this book. They provide complete source code for lcc; a target-independent front end and three target-dependent back ends are packaged as a single program designed to run on three different platforms. Rather than transfer code into a text file, the book and the compiler itself are generated from a single source to ensure accuracy.

The Party Richard McGregor,2010-06-08 "A masterful depiction of the party today. . . . McGregor illuminates the most important of the contradictions and paradoxes. . . . An entertaining and insightful portrait of China's secretive rulers." -The Economist "Few outsiders have any realistic sense of the innards, motives, rivalries, and fears of the Chinese Communist leadership. But we all know much more than before, thanks to Richard McGregor's illuminating and richly-textured look at the people in charge of China's political machinery. . . . Invaluable." -James Fallows, National Correspondent for The Atlantic In this provocative and illuminating account, Financial Times reporter Richard McGregor offers a captivating portrait of China's Communist Party, its grip on power and control over China, and its future. China's political and economic growth in the past three decades has been one of astonishing, epochal dimensions. The most remarkable part of this transformation, however, has been left largely untold-the central role of the Chinese Communist Party. McGregor delves deeply into China's inner sanctum for the first time, showing how the Communist Party controls the government, courts, media, and military and keeps all corruption accusations against its members in-house. The Party's decisions have a global impact, yet the CCP remains a deeply secretive body, hostile to the law and unaccountable to anyone or anything other than its own internal tribunals. It is the world's only geopolitical rival of the United States, and is primed to think the worst of the West.

Globalization after the Pandemic Qin Hui, 2021-08-30 The coronavirus pandemic that broke out in 2019 has finally calmed down in China, after the bungling occasioned by the iron hand of lockdown. But beginning in March 2020, the disaster spread abroad, and at present there is no end in sight. Discussions of the changes the pandemic brings to the world, and how "plagues change history," are a hot topic everywhere. In this book, Prof. Qin Hui offers a stunning reflection on the impact of the coronavirus pandemic on political institutions, which are well worth pondering for both China and the West. China, with its "low human rights advantage," has achieved success in imposing coercive lockdowns that got the virus under control after the disastrous outbreak in Wuhan, but it will be a challenge to prevent the normalization of emergency measures from worsening human right conditions in normal times. The West, handicapped by its human rights (dis)advantage, must learn how a democracy can efficiently enter a state of emergency and put an end to these measures at the proper time. QIN HUI is Retired Professor in Department of History, Tsinghua University, and is now Adjunct Professor in the Department of Government and Public Administration, the Chinese University of Hong Kong. China: A History Harold Miles Tanner, 2009-03-13 A deep and rigorous, yet eminently accessible introduction to the political, social, and cultural development of imperial Chinese civilisation, this volume develops a number of important themes -- such as the ethnic diversity of the early empires -- that other editions omit entirely or discuss only minimally. Includes a general introduction, chronology, bibliography, illustrations, maps, and an index.

China Dreams Jane Golley, Linda Jaivin, Ben Hillman, Sharon Strange, 2020-04-16 The year 2019 marked a number of significant anniversaries for the People's Republic of China (PRC), each representing different 'Chinese dreams'. There was the centennial of the May Fourth Movement – a dream of patriotism and cultural renewal. The PRC celebrated its seventieth anniversary – a dream of revolution and national strength. It was also thirty years since the student-led Protest Movement of 1989 – dreams of democracy and free expression crushed by government dreams of unity and stability. Many of these 'dreams' recurred in new guises in 2019. President Xi Jinping tightened his grip on power at home while calling for all citizens to 'defend China's honour abroad'. Escalating violence in Hong Kong, the ongoing suppression of Uyghurs in Xinjiang, and deteriorating Sino-US relations dominated the headlines. Alongside stories about China's advances in artificial intelligence and genetically modified babies and its ambitions in the Antarctic and outer space, these issues fuelled discussion about what Xi's own 'China Dream' of national rejuvenation means for Chinese citizens and the rest of the world. The China Story Yearbook: China Dreams reflects on these issues and more. It surveys the dreams, illusions, aspirations, and nightmares that coexisted (and clashed) in 2019 in China and beyond. As ever, we take a cross-disciplinary perspective that recognises the inextricable links between economy, politics, culture, history, language, and society. The Yearbook, with its accessible analysis of the main events and trends of the year, is an essential tool for understanding China's growing power and influence around the world.

102 Combinatorial Problems Titu Andreescu, Zuming Feng, 2013-11-27 102 Combinatorial Problems consists of carefully selected problems that have been used in the training and testing of the USA International Mathematical Olympiad (IMO) team. Key features: * Provides in-depth enrichment in the important areas of combinatorics by reorganizing and enhancing problem-solving tactics and strategies * Topics include: combinatorial arguments and identities, generating functions, graph theory, recursive relations, sums and products, probability, number theory, polynomials, theory of equations, complex numbers in geometry, algorithmic proofs, combinatorial and advanced geometry, functional equations and classical inequalities The book is systematically organized, gradually building combinatorial skills and techniques and broadening the student's view of mathematics. Aside from its practical use in training teachers and students engaged in mathematical competitions, it is a source of enrichment that is bound to stimulate interest in a variety of mathematical areas that are tangential to combinatorics.

Peer to Peer Accommodation Networks Sara Dolnicar, 2017-12-01 The first book to present a new conceptual framework which offers an initial explanation for the continuing and rapid success of such 'disruptive innovators' and their effects on the international hospitality industry. It discusses all the hot topics in this area, with a specific focus on Airbnb, in the international context.

Problem-Solving Strategies Arthur Engel, 2008-01-19 A unique collection of competition problems from over twenty major national and international mathematical competitions for high school students. Written for trainers and participants of contests of all levels up to the highest level, this will appeal to high school teachers conducting a mathematics club who need a range of simple to complex problems and to those instructors wishing to pose a problem of the week, thus bringing a creative atmosphere into the classrooms. Equally, this is a must-have for individuals interested in solving difficult and challenging problems. Each chapter starts with typical examples illustrating the central concepts and is followed by a number of carefully selected problems and their solutions. Most of the solutions are complete, but some merely point to the road leading to the final solution. In addition to being a valuable resource of mathematical problems and solution strategies, this is the most complete training book on the market.

Luxury Brands in China and India Glyn Atwal, Douglas Bryson, 2017-06-27 This book provides an analysis of the luxury industry in two of the world's biggest and evolving markets, and identifies and discusses the key issues and dynamics in transforming their luxury landscapes. By discussing the elements that are most likely to dominate boardroom agendas, the pragmatic implications for both strategic and marketing planning are made clear. Special emphasis is placed upon well-contemplated responses to luxury brand marketing challenges that executives are likely to face as they push their brands to adapt and thrive in these shifting markets.

Post Memes Daniel Bristow, Alfie Bown, 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. POST MEMES: SEIZING THE MEMES OF PRODUCTION takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens,

Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. ABOUT THE EDITORS ALFIE BOWN is the author of several books including The Playstation Dreamworld (Polity, 2017) and In the Event of Laughter: Psychoanalysis, Literature and Comedy (Bloomsbury, 2018). He is also a journalist for the Guardian, the Paris Review, and other outlets. DAN BRISTOW is a recovering academic, a bookseller, and author of Joyce and Lacan: Reading, Writing, and Psychoanalysis (Routledge, 2016) and 2001: A Space Odyssey and Lacanian Psychoanalytic Theory (Palgrave, 2017).
